BOOSTERS GLAD TO GET IN

Trade Excursionists Home and Happy
After Successful Tour.

REMIS SIREN HERALDS COMING

Trip Through Iowa Was One Un-
broken Triumph for Omaha, the
Market Town, and the Best
Yet Made.

With the band playing "We're Here Be-
cause We're Here," to the accompaniment
of the big siren whistle, the long train of
tired, but happy boosters pulled into
Omaha at 7:30 yesterday evening.
The train had been given a clear track
from Fort Dodge, leaving there at 9 o'clock
in the morning, and the boosters visited
some twenty towns between there and
home. They were given the usual hearty
welcome which has been accorded them at
every point along the 1,000 miles which
they have covered in the week.
The entire populations of all the towns
along the route from Fort Dodge to Omaha
turned out to bid the people from the
Market Town welcome and the train accom-
panied from five to twenty minutes at each
stop. At Manning and Harlan the Omaha-
ans were met with automobiles and
escorted over the town and shown all the
sights in a royal manner.
An attempt was made several times dur-
ing the trip to get a moving picture of
the train pulling in at a station and the
crowd alighting from it and mingling with
the crowd, which wanted to welcome them.
At Minden the moving picture man was
placed upon a high trestle over the track
and the train backed out of the city down
the track that it had just come in on. It
then came puffing into the station and the
crowd mingled with the throng on the plat-
form while the picture machine did its
duty. The engineer, however, seemed to
have gotten his dates mixed and when the
order was given to pull out he started at
such a terrific rate that the boosters ex-
perienced some difficulty in going with it.
The picture machine was still doing its
duty bravely and got it all.

Will Celebrate the Trip.

The excursionists are planning a dinner
to be held at the Commercial club in cele-
bration of the trip as soon as the tourists
feel able to stand it and the moving pic-
tures are ready to show it.
One marked feature of the trip was the
excellent handling by the railroads. Every-
thing was sidetracked to allow the trade
excursion to pass and at no time during
the entire trip was there any delay.
Every one of the 100 men who went
came home with the worse for the wear.
There was not a picture machine accident,
and if anyone has any objection to the treat-
ment meted out to him at any place he
has not reported it.
Secretary J. M. Guild said last night that
he thought this was the largest affair of its
kind ever attempted by any city and met
with remarkable success at every
turn. All worked together like clock work
and have given Omaha the big boost they
started out to do in grand style.
Gilliat was the last stop made and the
people there seemed to realize the party
was pretty well worn out and glad it was
nearing home, so when the boosters were
marching back to the station after their
tour around the town the band played
"Home, Sweet Home," with a very marked
effect.
It was with a feeling of great gratifica-
tion that the boosters heard the great
Bemis siren as they started across the
bridge and when Union station was reached
each man grabbed his little go-away sack
and made for the friends who were there
in great numbers to meet them.

developed a desire to celebrate with the
usual noise producing giant caps, Easton
Brooks, a colored boy, and Willie Darr, a
white lad, were taken to the police station
Saturday afternoon and given a severe
lecture by Captain Dunn, who told them that
if they ever placed caps on the car tracks
again, they would be arrested by the pro-
tection officers. When the boys escaped
from Captain Dunn's office, they ran near

"Then what satisfaction is there in having
it on hand?"

now some antiquarian will find it here

over." Chicago Tribune.

The action of the Board of Regents of
the University of Nebraska in selecting
Acting Chancellor Avery for the position
of chancellor, though anticipated, was re-
ceived with pleasure by the student body
of the school as well as by the people of
Lincoln, who have known the acting chan-
cellor for so many years. Mr. Avery is a
member of the Commercial club and fre-
quently he has been called upon by the
club for suggestions and for talks.
The new chancellor has outlined no
fixed program or policy for the conduct
of the school, insofar as a public state-
ment is concerned, but it is well known to
be his intention to develop the institution
from the inside, perfecting as much as
possible those departments, which now
comprise the school before reaching out
into fields or departments which are better
for advertising purposes than anything
else.

Four Points Application.

Principal E. N. Gray of the Omaha High
school, states in the Nebraska Teacher
four points capable of general applica-
tion in solving the problem of inducing
eighth grade graduates to enter high schools:
First, do not emphasize too strongly the
break between the eighth grade and the
high school by magnifying the importance
and significance of graduating from the
eighth grade. The more the pupil is made
to feel that he has completed his schooling,
the less likely he will be to continue it.
It is highly desirable that finishing the
eighth grade should not be called grad-
uation at all.

Dr. Frank Petr, former student in
Fremont college, is at present pursuing a
course in post-graduate work in the Uni-
versity of Prague, Bohemia. Dr. Petr has
received the distinguished honor of being
appointed demonstrator in anatomy in the

case in which an American student has
been accorded this high honor.

given to the team winning most points.
Movers of Taber had the highest individ-
ual score, making 33 points.

made. Moyer of Taber cleared 20 feet 7
