haken violently and several hundred occupants made a hurried exit, choking the stairways in their haste to escape. In the large manufacturing plants there were several panics when machinery rattled and boxes and crates fell. The local weather forecaster says:

"There were two distinct selsmic disturbances, moving from north to south." Reports from the residence districts emphasize the severity of the shocks.

Chairs Are Overturned. JOLIET, Ill., May 26.-An earthquake was felt here this morning at \$300. Steady tremors continued for tures minutes, Some fett two distinct shocks. The cartinuake seemed to follow the line of the Des Plaines valley. No serious damake is reported except to mirrors, chimneys and frail objects. Chairs and portable objects

were everturned. STREATOR, Ill., May 26.-An earthquake shock lasting half a minute and accompanied by a rumbling noise was felt at 8:40 a. m. No damage is reported.

KALAMAZOO, Mich., May 28.-The earthquake that shook Wisconsin and Illinois points was felt ir South Haven, Mich., and damage was reported.

MUSKEGON, Mich., May 26 .- A slight earthquake shock was felt here this morn, time I was much perplexed such the arguing a few minutes before 9 o'clock. The ment to know whether Adv. riot it was disturbance lasted only a few seconds.

No Damage at Milwaukee.

MILWAUKEE, Wis., May 26.-An earthquake lasting about fifteen seconds at 8:40 this morning was felt in the office of the weather bureau in the federal building, this city. Pictures hanging on the walls were swayed considerably. The shock was also felt in other parts of the city. No damage le reported here.

BURLINGTON, Ia., May 26 .- A distinct earthquake shock lasting fiffteen seconds was felt here at 8:46 this morning. No damage was done

DUBUQUE, Ia., May 26.-Two earthquake shocks were felt here this morning. FREEPORT, Ind., May 26.—A distinct carthquake shock was felt here at 8:39

this morning. Its duration was about two

TAFT TALKS TO

(Continued from First Page.) unhappy and really not fit for the life

which lies before them." "On the other hand," Mr. Taft said there is great opportunity for educated colored men to aid their race in the struggle before them for economic saccess and the maintenance of themselves as worthy and valuable members of the community He said that the colored; race needed in the south a great many more physicians

Importance of Manual Training

"The benefit that teachers educated here can do their race goes without saving." he continued. "Of course the basis of the education of the colored people is in the primary sechools and in the industrial schools, in schools framed after Hampton and Tuskegee. In those schools must be Benton Harbor, Mich., shaking windows introduced teachers from such institutions and breaking china. No loss of life or as this. I know there are many who dispute the wisdom of large contributions to universities of the oblored race, and at one proper. But what is the fact? There are four universities in this country beside Howard university devoted to the colored race; those are Lincols, Pisk, Atlanta and Talladega, and they have not taken to-Now when you consider that there are here, where Mr. Shafer is in business, 10,000,000 negroes in this country you see how utterly inadequate, even for the education of the leaders; those universities, together with this, are, and there is opportunity for the founding of more, or cer-

tainly for the enlargement of this: Conditions Getting Better. "I am delighted to think that conditions are getting better and better for the negro race. . In. all the growing communities of the south the white men of progress are beginning to appreciate the advantage of

having a class like the colored men there.

dustrial education. They are anxious that NEGRO STUDENTS they should make their way in the world and show their susefulness in the dom, while the roll call of the house was promunity. The truth is that the greatest hope that the negro has, because he lives chiefly in the south, is the friendship and covernor w. A. Northcott on the floor.

with whom he lives.

It seems to me that the future is in the rule, while house policemen sought to quell hands of the race itself, said Mr. Taft in conclusion. "I do not mean to say that find excitations of the house." Chip-In conclusion. 'I do not mean to say that crueities are not to exist in the future and injustices and a great many reasons why complaints should be made against the unhammity of man, but I do mean to say that there never has been at time in the humanity of n.an. But T do mean to say that there never has been a time in the history of the floor was read.

There was 50 m the Lorimer camp when the history of the floor race when the future Making, Eitherto straunch Hopkins men, success as a face and for the belief that of the belief that of the belief that of the strain of the floor was read.

There was 50 m ite floor was read.

There was 50 m iter floor was rea helping this university I expect to do. I vote of the joint session was:

can do as an executive in the way of expect to do it because I believe it is a debt of the people of the United States: Hopkins 24
It is an obligation of the government of the Stringer 19 United States and it is money constitutionally applied to that which shall work out in the end the solution of one of the great problems that God has put upon the people of the United States."

HYMENEAL.

LORIMER FOR HOPKINS' TUGA!

Break in Illinois Deadlock Makes

Congressman Senator. AND DEMOCRATS JOIN

Bi-Partisan Conlition Makes Possible Election on Ninety-Fifth Ballot Taken Since January 20 -- Lorimer Watches Fight.

SPRINGFIELD, III., May % Congresssan William Lörimer of the Sixth congressional district was elected United States senator today by the joint session of the general assembly on the ninety-fifth

The election of a juntor senator to represent littnots in the upper house at Washington came through a coalition of democratic assemblymen and the anti-Hopkins republicans. The hall or representatives through the hours speeding the close of the deadlock was crowded with a nost of republicane. The hall of representatives ormer Senator Hopkins' sides to head off the break to Lorimer, but they were unavailing. The dramatic last act of the deadlock, which has dragged since January 30, was played to a small crowd.

Disappointed by the many "supreme offorts' which had failed, the autlience, saually at the joint session, was absent

The rote of Mr. Shurtleff, the eightyninth representative to vote for William Lorimer, made the 101st vote; the vote which made the election of Lorimer absolute. Two house members did not vote-Daley and Hope-and with Senator Schmidt absent, the total voting strength of the joint mession was 200, 50 in the senate and 150 in the house.

Wild cheers filled the hall when the de cision. was announced.

Democrata Start Break. The break in the long deadlock to William Lorimen was due principally to demograts, who desired the election of a United States senator at this session of the legislature. It was attended by much excite

ment and confusion.

The first republican to shift to Lorimer senator Bail. Senator Breidt followed, and, explaining his vote, said that Lori mer could ably represent the people and always was consistent. As the balloting progressed, Lorimer constantly showing gains, many of the senators explained their votes. Senator letey, democrat, protested against the election of a bi-partisan candi-

Bursts of oratory puctured the rollcall and some of the democratic representatives took their brothers in the faith to task for deserting the banners of strict democracy Representative Donahu prophesied that the democrats who voted for Lorimer would be met at the outskirts of their home districts with shotgung.

While the voting was progressing, Congressman, Lorimer, calm and apparently inexcited, strolled through the corridor back of the speakers, seemingly the cool est and most unconcerned man in the whole excited place.

the sympathetic interest of the white men A scene of confusion followed and Chiper-

BALLOON FLIGHT SUCCESS

(Continued from First Page.)

above the telegraph wires along the streets and atreet car tracks, which form a veritable network in that vicinity, and all the wires being too low to permit the big airship to pass under them. The balloon corps from the post accom-

plished the towing by means of ropes brown over the wires, the ship rising by its own buoyancy, and the two officers retaining their positions in the car to pre vent any accident. The ship was brought back to the balloon house without sustaining the slightest-injury, and was again safely housed for another series of ascenlons today, weather permitting.

The damage to the machinery is bu trivial and was repaired last evening. A new devipe was operated on the car. It onsists of a sliding weight, which runs along the top of the car between the two perators, and is conttrolled by the pilot from his sent in the car by means of pulleys. This stiding weight is utilized for balancing the car, or shifting it upward downward as desired.

The airship will make several flights today and the captive spherical balloon will also make several flights if the weather is favorable.

A large number of citizens witnessed the ascension last evening and a cordial invitation is extended to the public to visit the fort today and Friday to witness the experiments.

Lieutenant Lahm did not lecture last evening owing to the lateness of the hour at which the airship flights were finished.

Glad of Allen's Visit.

The wisit of Brigadier General James Allen, chief signal officer United States army, to Fort Omaha is anticipated with interest by the official family there and particularly by the student officers' class. "I do not know that we shall undertake any formal reception to General Allen," said, Colonel Glassford, "as we do not know just exactly when he will be here-whether will be Thursday or Friday. General Allen is much average to functions of any kind, although we hope that he may be here Thursday, as we will give a hop Thursday evening, and it, would be a nice thing to have bith attend it. "His visit bere is merely incidental and for appection purposes. We hope that
