BUY COAL IN SMALL LOTS
Board of Education Will Endeavor to Avoid Danger of Spontaneous Combustion.

Three fires in as many of the public school buildings in the city started last year from spontaneous combustion in the coal bins and for this reason the Board of Education may this year buy coal in small lots. Heretofore the board has ordered its entire supply in August when the price was low and had the bins filled at that time. The danger of fire is thought to be more important than the price of coal by James C. Lindsay, member of the board, and he has called a special meeting of his committee to consider the question.
The fires last year were in the Vinton Mason and Pacific school buildings. No material damage was done in any of the buildings.

BABY'S TERRIBLE WATERY ECZEMA

Itching Humor Broke Out on Tiny Mite's Cheeks—Would Tear His Face Till Blood Streamed Down Unless Hands were Bandaged—Sent \$50.00 Useless Treatments.

CURED BY CUTICURA AT COST OF BUT \$1.50

"When my little boy was two and a half months old he broke out on both cheeks with eczema. It was dry, itchy, watery kind and I had to keep his little face wrapped up all the time, and if he would happen to get the eczema uncovered he would claw his face till the blood streamed down on his clothing. We called in a physician at once, but he gave an ointment which was so severe that my babe would scream when it was put on. We changed doctors and medicines until we had spent five dollars or more and baby was getting worse. I was so worn out watching and caring for him night and day that I almost felt that death was near. But finally reading of the good results of the Cuticura Remedies, I determined to try them. I bought a full size of the Cuticura Remedies, Soap, Ointment and Pills, and used them more good than all my doctors' medicines. I had tried, and in fact entirely cured him. I was so happy that I had a photograph taken when he was fifteen months old and you can see his face is perfectly clear of the least spot or scar of anything. If I ever have this trouble again, I will never think of doctoring but will send for the Cuticura Remedies at once. As it is, I would never think of using any other than Cuticura Soap for my babe. You are at liberty to publish this. It may help some distressed mother as I was helped." Mrs. M. Combs, Burnt Cabin, Pa., Sept. 15, 1908.

TWENTY-ONE COWS KILLED

Slaughtered by Government Inspectors on Suspicion.

SEVENTEEN SHOW TUBERCULOSIS

All of the Animals Said to Have Come from Dairy Herds of Omaha—Lincoln School Statuary.

Twenty-one dairy cows, suspected of having tuberculosis, all of which cows were sent from Omaha dairymen, were slaughtered under government inspection at the Cudahy packing plant Thursday afternoon. The chief of the bureau of animal industry, Don C. Ayer, and his doctors conducted the inspection. It was found that seventeen of the twenty-one showed more or less tuberculosis. Of the seventeen, four were condemned for offal, or a complete disqualification. The others were cured for as in other cases of the kind. Four of the suspected cows were found to be entirely free from the disease.
The dairy cows of Omaha have lately been subjected to the tuberculin tests and developed that number of suspects. The cows came from different herds. So many among the several hundred dairy cows of Omaha and vicinity is not considered a great cause for alarm. The herds will have been practically freed from diseased cattle and cases will be much fewer after the cleaning up.
The examination of dairies in Nebraska has been of recent date, but it is proposed to make the clean-up as thorough as possible. The dairy men are more than willing to assist in this work of cleaning up the herds for the reason that, although the loss at present might be great, the ultimate loss through neglect would be much greater.

Statuary is Here.
The statuary which has been purchased by the Lincoln school has arrived and is soon to be placed. The collection consists of the following classics: Michelangelo's Venus Robing, Apollo, Diana of the Chase, Paul Revere and Abraham Lincoln. The bust of Lincoln is the most valued of the collection in the eyes of the pupils for the reason that the school is named for the great president. The figure of Venus Robing is the special object of gratification to the eighth grade being in a contest for the largest amount of money raised. The figure of Michelangelo is dedicated to the efforts of the First grade, which grade had honors of the buildings for money raised.

Shamrock Wrestling Bouts.
The Shamrock Athletic association had a popular night Thursday at which several wrestling bouts were put on before a good crowd, and two or three exhibition boxing contests were engaged in. The principal wrestling bout was between Millet of South Omaha and Stipe of Turko, Mo. The first fall went to Millet in 3 minutes. The second fall went to Stipe in one minute. The second fall was the result of a lock in the standing position when Stipe whipped Millet over his hip and fell heavily on him. The third fall went to Millet in 3 minutes.

Cline and Cahill, two boys of about 14 years, wrestled a good match, which, although short, was snappy. Cahill did not show his usual form and Cline won two falls in one and three minutes, respectively.
The principal boxing bout was between Bronsman and Mason, both of South Omaha. Bronsman proved the master of the bout and punished his opponent quite considerably. The bout was scheduled for six rounds. Mason fell through the ropes in the fifth round and was put out of business by the fall. He received a pretty hard blow as he struck the ropes. For a minute or two he looked like he was more hurt than he turned out to be. He came himself shortly and was able to walk from the ring unassisted.

Knife Used on Woman.
A cutting scrape occurred last night between Elizabeth Diamond and Mrs. Alonzo Lee, two women living near Twenty-seventh and M streets. The trouble arose from jealousy between Mrs. Lee and Mrs. Diamond and Alonzo Lee. A general fight was started in the house of the Lees, in which chairs, clubs and knives were freely resorted to. The only one to be cut, however, was Mrs. Lee. She had one bad cut over the eye and her hands were seriously cut and stabbed. Dr. A. H. Koenig dressed her wounds and said the woman would probably lose her eye. The other belligerents were arrested and charged with suspicion on the jail blotter. They were Mrs. Diamond and Alonzo Lee.

Pool Hall Gutted.
Fire practically ruined the pool hall of Anton Kasal at Twenty-fourth and Q streets at 2 a. m. May 27. The fire started late in the night from causes unknown. It is thought the guests who had been late in the building had dropped matches among piles of waste paper or similar material from which the fire developed after several hours of slow smouldering. The first and second floors of the frame building were badly scorched. The loss will probably be about \$2,000. The loss was partly covered by insurance.

A fire occurred at noon yesterday in the yard of the Combs & Ward stable, Twenty-fourth and J streets. The damage was slight, but it gave the departments a long chase. The need of another fire company is imperative and it will be provided after July 1.

Entries in Tennis Contest.
The following entries have been made in an early season tennis tournament to be played off at the South Omaha Country club before July 4. The names of the first round are to be played before June 10, round are to be played before June 10, so that the second round may be out of the way and give time for the players in the semi-finals and finals to get in some good practice for the finish on July 4.
The entries are as follows: Arnold against Horn, Russell against Bulin, Cox against L. Pinnell, B. Tanner against J. Tanner, Caughey against D. Pinnell, Finch against Blake, Kellogg against Booth, Hannan against Stryker.

Fire and Police Forces Will Not Be Reduced

Practically All Men in Both Departments Sign Contracts for a Year.

There is now no danger of the fire and police departments of Omaha being cut down this year.
All but four of the 139 men on the police force and all the men on the fire department, 133 in number, have signed contracts to work this year for the same pay they would have received under the old charter and it is expected that the four missing policemen will sign soon. These four are ill and were unable to go to the chief's office to sign the contracts.

The contracts were drawn up by the city legal department and have been approved by the Board of Fire and Police Commissioners. They are in the nature of waivers, but will hold in court, while waivers might not.
The signing of the contracts has not only relieved the excise board, but it has relieved the members of the forces as well. The new charter raised the pay of policemen and firemen, but made no change in appropriations for the departments. The funds for the departments were set aside before the charter was passed. It was therefore impossible to pay the men the increased salary accorded them by the change in the charter, as it would run the department short about \$50,000.

Country Boy Learns Lesson

Finds it Dangerous to Be Friendly with Dusky Damsel on the Street.

Charles Brosman, a stockman from Colorado, has decided that Omaha is "no place for a country boy." He got into conversation with a colored woman at Nineteenth and Davenport streets last night and the first thing he knew she had relieved him of his purse containing \$112. She had succeeded in getting some little distance away before he discovered his loss, but when he did he immediately gave chase, calling upon the police for help. After a run of a few blocks he caught her and a fight ensued.

Another man came upon the scene and ordered the woman to hand over the money. Evidently thinking him an officer, she dug down in the recesses of her apparel and brought forth the purse in question.

After she had vanished around a corner again Brosman discovered that she had used a knife upon him with more or less effect, and had chewed one of his fingers almost off.

Here is Meanest Sort of Thief

Man Who Steals License Tags from Dogs is at His VICIOUS Tricks.

Like the thief who would steal a copper from a dead man's eye, there are thieves who will steal license tags from dogs, all that stands between a dog and the deadly dog pound.

The dog tag thief is abroad in the land and the \$1 tag is not safe unless it is padlocked to a strong collar around the neck of the dog, providing the dog is of the harmless specie. VICIOUS dogs are supposed to be able to ward off thieves and retain their tags. City Clerk Butler has received a number of complaints, but he cannot issue other tags unless the owner chooses to pay the tax a second time. The police department will do what it can to apprehend the men who are stealing the tags.

Old Woman Saves Life of Child Who Loses Foot
She Drags Him as Far as Possible, but the Train Runs Over His Leg.
Catching his left foot in the frog of the Chicago, St. Paul, Minneapolis & Omaha tracks, near Sixteenth and Brown streets, Millard Boye, 11 years of age, was held fast by the steel that clutched his foot and several coaches of a passenger train passed over his lower leg in full sight of several persons, including an old woman, who pulled him as far as possible from the approaching train, but could not save him from being run over.

Home-Made Saratoga Chips.
"Home-made Saratoga chips are much more of a rarity than they should be," says Fannie Merritt Farmer. "If one owns a potato slicer, which is not an expensive utensil, they are not difficult to prepare. They are always an acceptable accompaniment to fried fish, but perhaps are served more happily in evidence than when served as one of the accessories of a picnic luncheon. Wash and pare medium-sized potatoes. Slice thin, using a vegetable slicer made for the purpose, into a bowl of cold water and let stand one and one-half hours, changing the water twice. Drain, plunge into a kettle of boiling water and let boil one minute. Drain again, cover with cold water and let stand five minutes.

Police Board for the King
The Board of Fire and Police commissioners is generally considered the most powerful organization in the city, but King Ak-Sar-Ben is more potent than the board.
Ever since there has been an excise board its meetings have been held on Monday evenings. This date has been handed down from the earliest memory of man, and some people have thought that if the board took any action on any other day it might not be legal. But King Ak-Sar-Ben, through his lord chamberlain, Samson, has stepped in and asked that the
