S.S. BAD BLOOD

Bad bood is responsible for most of our ailments, and when from any cause it becomes infected with impurities, humors or poisons, trouble in some form is sure to follow. Muddy, sallow complexions, eruptions, pimples. etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour. acrid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores and ulcers, which break out on the flesh, often from a very insignificant bruise, or even scratch or abrasion. If the blood was healthy the place would heal at once; but being infected with impurities which are discharged into the wound, irritation and inflammation are set up, the fibres and tissues are broken, and the sore continues until the od is purified of the cause. - S. S. S. is Nature's blood-purifier and tonic, made entirely from toots, herbs and barks. It goes down into the circulation and removes every particle of impurity, humor or poison, restores lost vitality, and steadily tones up the entire system. S.S.S. noutralizes any excess of soid in the blood, making it pure, fresh and healthy, and perma-nently ourse Eczema, Acne, Tetter, Salt Rheum, Boils, and all other skin aruption or disease. A sister of the old sultan was one of the

first women won over by Refeka Hanoum. She joined the Young Turks because she hated her brother, whom she always called the usurper. After studying the movement

she did much toward winning over women in the sultan's harem. Through these women the Young Turks were enabled to learn all the sultan's plans and outwit him.
