Values Slide Down Quickly on the Heavy Selling.

PRICES RALLY FOR THE CLOSE

Corn Values Hold Their Own Against the Weakness in Wheat-Receipts Are Under the Ba-

timate.

OMAHA, June 3, 1909. Wheat market was soft, values sliding down quickly on heavy selling pressure at the opening.

The undertone was strong, however, and

support came out on the break and prices suited and closed strong.

Corn values held their own against the weakness in wheat. Receipts are under the

Corn values held their own against the weakness in wheat. Receipts are under the tatmate, which shows the farmers are holding owto their reserve stocks until assured of the grawing crop.

wheat showed a weakness from the start and heavy selling soon eased prices off for 10 bost. a rally was started at the close, but did not net a material gain, although the infertone was strong and with any support prices will advance.

Corn proved strong and higher today again despite the weakness in wheat. Receipts are below the estimate and the cash demand was very active and prices were up for all grades of cash corn. Farmers are still holding their reserve stock.

Primary wheat receipts were 155,000 bushels and shipments of 758,000 bushels.

Corn receipts last year of 200,000 bushels and shipments were 374,000 bushels and shipments were 639,000 bushels and shipments were 374,000 bushels and shipments of 16,000 bushels and shipments of 16,000 bushels.

Clearances were 505 bushels of corn, 3,000 bushels of cor

Clearances were 505 bushels of corn, 3,000 bushels of onts and wheat and flour equal to 72,000 bushels.

Liverpool closed %d lower and %d higher on wheat and %d higher on corn.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Ill., June 3.—Liberal sales of wheat for July delivery by prominent ongs caused a slump today of 1½c in the longs caused a slump today of 1½c in the price of that option. The more distant months were relatively stronger and the market closed irregular at prices %c higher to %c lower, compared with the previous final quotations. Corn and provisions were strong and sold at high record figures, but oats were findined to drag. The feature of trading in the wheat pit was the "ciling of a large line of the July delivery and the pucchasing of liberal quantities of the December option by a prominent commission house. The July delivery was subjected to Neavy selling quantities of the December option by a prominent commission house. The July delivery was subjected to Neavy selling pressure the greater part of the day. The principal weakening influences was the continued favorable weather conditions in this country for the new crop, and medium weakness of several leading grain markets of Europe. A decline of the length of the price of wheat at Paris was considered significant in view of the recent reports of a grop shortage in France. The Ohio crop report, which shawed as improvement of 7 points in the conditions of the wheat crop of that state, was an early bearish factor. Fresh reports from Argentina claimed that the drouth still continued but this and other builish advices were seemingly ignored. During the day the July delivery ranged between \$1.18% and \$1.20. Closing quotations on July were at \$1.18% the proof marks for the season.

high record marks for the season were established in the corn market when the July delivery sold at 73c and the September at 60% o per bushel. The range for the day on July was between 12/272% and 32c. The market closed strong with prices up in to 1/21% at the high point of the

session.
Trade in oats was quiet. During the day July sold between 53%(553%) and 53%c. At the close prices were unchanged with July at 55%(553%c.
Trovisions were strong the entire session and prices scored sharp gains, September pork advancing to \$20.00 per barrel, the highest point touched since the cash product sold at that figure in 1906. Closing quotations were as follows:

> WEATHER IN THE GRAIN BELT Partly Cloudy, with Probably Show ers Friday and Same Temperature. OMAHA, June 3, 1909.

OMAHA, June 3, 1909.

Showers were again general during the last (wenty-four hours in all sections east of the Rocky Mcuntains, and continue this morning in the lower Missouri valley and east over the middle Mississippi and Ohio valleys, to the Atlantic coast. Excessive rains have fallen at points in the Guif states within the last twenty-four hours and rains continue general in the southern states within the last twenty-four hours and rains continue general in the southern states this morning. The weather is of generally clear everywhere west of the Missouri river, but pressure conditions are very unevenly distributed over the central and western portions, and continued unsettled weather, with probably showers, will prevail in this violnity tenight and Friday. Record of temperature and precipitation compared with the corresponding day of a the last three years:

Normal temperature for today, 68 degrees. Deficiency in precipitation since March 1, Deficiency corresponding period in 1908, 02 of an inch. Deliciency corresponding period in 1907, 8.18 inches.

NEW YORK STOCKS AND BONDS Feature of Market is Six Point Rise in Southern Pacific.

BUYING IS IN LARGE LOTS

Six Point Rise in Steel Preferred Near Close Causes Whole List to Become Buoyant and Animated.

It would be difficult to conceive of any such reckless and prodigal lavishing of resources as would be involved in a purely manipulative movement in Southern Pacific such as its upward rush of over six points made on deals in 5,000 shares. Neither was it supposable that this demand was due to any sudden realization on the part of a widespread public of the merits of the Southern Pacific shares. The principal buying of the stock, moreover, came in enormous blocks from individual brokerage houses. These features of the movement prompted the inference that the buying came from persons informed of some forthcoming plan involving the, finances or organization of the company. Humors on the subject dwelt on the likelihood of a coming increase in the dividend of the common stock. Much was heard also of an intended retirement of the preferred stock, although the privilege lodged in that stock of exchange into common in that stock of exchange into common stock at par for par, would preclude the advantage which might come to the company by the retirement of this 7 per cent issue at 115, which is provided for with the alternative of exchange. The exchange of the preferred stock for common would deprive the former of its prior claim to 7 per cent dividends, but it would also entitle it to share in any dividend disbursements above that amount. The senior comments above that amount. The senior comthat stock of exchange into common ments above that amount. The senior com-pany, Union Pacific, was tardy in respond-ing to the excited advance in Southern Pacific and in fact sold off at one time to a lower price than it closed last night. Later in the day it came into the move-

nent more fully.

Before the Southern Pacific movement secame fully effective in its sympathetic offuence on the general list some degree of influence on the general list some degree of apprehension existed over the market conditions presented by the syndicate plan for introducing United States Steel into Paris. The removal from the floating supply of the large blocks contemplated by the Paris plan has, admittedly, added greatly to the difficulties of the short interest in United States Steel. That short interest was supposed to be large and to include some interests that are important factors in the stock market speculation. Some of the recent heavy liquidation in stocks that had been advancing is attributed to losers on the short side in United States Steel who were protecting themselves in this manner. It was feared that the continued rise in United States Steel might thus hurt the general market. Lack of detailed information of the scope of the Paris operation in United States Steel left room for wide surmises. These were directed most eagerly to the amount of the accumulation of the stock involved and to the price paid for it. The remarkable 6-point jump in United States Steel preferred had no other explanation offered for it than the increase in the security of the return growing out of the expansion in earnings. The whole market became very buoyant and animated before the close. The the influence ruiling in all radiated from the impressive operations in the Harriman stocks and in United States Steel.

Bonds were firm. Total sales, par value, \$10,073,000. United States bonds were unchanged on call.

Number of sales and leading quotations on stocks were as follows:

NEW YORK. June 2.—The securities market in New York today was replete with sensations and the causes lying back of the various spectacular demonstrations made by the price movements were kept velied from public knowledge. That such causes existed and were of substantial nature was taken for granted on account of the convincing evidence presented by the tape itself.

It would be difficult to conceive of any such reckless and produgal layishing of results. Closing quotations on bonds today were as follows:

CATTLE—Receipts of cattle this morning were not very heavy, only 38 cars being reported in, but the way feeling was on the market, the supply was plenty large enough to meet all requirements.

The trade on beef steers opened slow and continued that way all the morning. As to prices the general tendency was lower, salesmen as a rule quoting it as weak to 18c lower. This means that the market is now around 1823sc lower for the week. The decline has been most noticeable on the heavy cattle, light cattle of good quality holding up the best.

Cows and heifers were also slow sale and heavy cows could safely be quoted as weak to 1961sc lower than the close of last week. Choice stuff on the heifer order has held up the best of all, there not being very much change on that kind. .2,561 13,712

wery much change on that kind.

As has been the case every day of late, there were only a very few stockers or the ceders in sight and in consequence of the meager offerings there was no quotable change in the market. able change in the market.

Quotations on cattle: Good to choice corn-fed steers, \$5.0026.65; fair to good cornfed steers, \$5.0026.00; common to fair cornfed steers, \$5.0026.00; common to fair cows and helfers, \$4.0026.00; fair to good cows and helfers, \$4.0026.00; common to fair cows and helfers, \$4.0026.00; common to fair cows and helfers, \$4.0026.50; fair to good stockers and feeders, \$4.0026.50; fair to good stockers and feeders, \$4.0026.40; common to fair stockers and feeders, \$4.0026.40; common to fair stockers and feeders, \$3.00,04.00; stock helfers, \$1.2524.40; ead calves, \$4.0027.25; buils, stags, etc., \$3.5025.50.

HOGS—Receipts of hogs were very large today, about 200 cars being reported in, but they evidently looked small to buyers, the way they went after them. The market opened strong to 5c higher and fairly active at the advance. As it became apparent that packers evidently wanted a good many hogs and as they began buying

Shark Clearings.

OMAHA June 3.—Bank Clearings for to day were \$1,770,455.83 and for the corresponding date last year \$2,20,331.85.

NEW YORK June 2.—COTTON—The market opened steady at a decline of 2 points to a net advance of 2 points and ruled irregular during the early session.

With the tone nervous. Active months worked about 2 to 3 points net higher early but the market cased and during the middle die of the morning was fluctuating within a noint or so of last night's finals. Cables were lower than due, and private acreasian and condition reports compared bearishing with earlier ideas, but continuing and condition reports compared bearishing uplands, 11.50c middling gulf, 11.75c. Spot closed quiet, 15 points higher middling uplands, 11.50c middling gulf, 11.75c. Futures opened steady June, 10.90 offsred July, 10.92c; August, 19.57c; September, 10.85c; Gallessy, lower steady; low ordinary, 7.3-15c, nominal; ordinary, 8c, nominal; good ordinary, 9.7-15c; low middling, 11.5c; March, 10.30c.

## A New Through Train Over a New Route

The Great Northern Express leaves Omaha at 11:50 p. m. daily for Spokane and Seattle, going via Billings and Great Northern Railway.

This train carries you through the picturesque Black Hills, Judith Basin and Sun River irrigation project of Montana, past the great falls of the Missouri at Great Falls, Mont., and the scenic wonders of the Rockies, through Spokane and the "Inland Empire," the mighty forests of eastern Washington and the canyons and enchanting splendors of the Cascade Mountains.

Round trip tickets Omaha to Seattle and return this summer \$50.00; for \$15.00 additional you can return via the Shasta Route through California and scenic Colorado.

The Burlington offers a greater diversity of routes to the Coast than any other line, and it is the only line running solld through trains from Nebraska to Seattle—two daily.

Write and let me tell you everything about rates, routes, side trips, points of interest, etc., and send you free illustrated literature

active at the advance. As it became apparent that packers evidently wanted a good many hogs and as they began buying everything as fast as they could get to it. the market showed still further strength, closing biglioc higher than yesterday. The hogs sold very largely at \$7.1097.35 and on up as high as \$7.50 for the best heavy. The advance if anything was the moet noticeable on the light and medium weight hogs, loads of good quality showing more gain than the best heavy. Pretty much everything had changed hands by 10 o'clock or soon after.

Today's advance carries the market to the highest point touched so far this year and to the highest of any time since 1992. SHEEP—R celpts on paper and the number of sheep actually on sale this morning were materially different. With all of the estimated receipts in the hands of com-
