CHINA BUYING MORE COTTON

Export of Cloth to Empire is on Increase Again, After Falling Off.

WASHINGTON, June 4.—As a result of a return toward normal conditions the American exports of cotton goods to China are again on the increase, according to the bureau of statistics. Exports of cotton cloths to China averaged in the fiscal year 1907 and 1908 \$6,000,000 yards per annum; in 1907 and 1908 they averaged but \$3,000,000 per annum, or one-seventh as much as the average of 1905-6.

"This large falling off," says the bureau, in an official statement, "was due chiefly to the fact that the imports of that country in 1905 and 1906 were abnormally large and far in excess of the actual consuming

STATE ASKS HEAD OF MAYOR

A. M. Henderson of Marengo Subject of Peculiar Suit.

ATTORNEY GENERAL SAYS FINE

Alleged That the Marengo Mayor Indulges in Intoxicating Liquor, While Mr. Henderson Asserts Suit is Spite Work.

(From a Staff Correspondent.)
 DES MOINES, Ia., June 4.—Acting under the new Cosson removal law, Attorney General H. W. Byers and County Attorney Kirby of Marengo have charged against Mayor A. M. Henderson of Marengo, asking that he be removed on the ground of intoxication. The supreme court has appointed Judge Byron W. Preston of Oskaloosa to hear the case and the trial will be held June 18.

Intoxication is the only charge made against Mr. Henderson, who was re-elected mayor of Marengo a year ago in March. Intoxication is made a ground for removal by the Cosson bill, and the case is the first to arise under that act. It is reported at Marengo that Mr. Byers will go there and be present at the trial.

Over the long distance telephone Mayor Henderson declared this morning that the charges are the result of a personal fight of four years' standing between him and Attorney H. N. Havner of Marengo, who, he says, has forced County Attorney Kirby to begin the action.

Dry Town Wins Convention.

Because Mason City has no saloons and Cedar Rapids has fifty-nine, Mason City won out in a spirited fight for the next State Sunday school convention today. Feeling ran high for almost an hour, while the delegates from the opposing cities boosted their respective towns. Zeal in extolling Mason City as a paragon of civic virtue, in which hundreds of school children did not even know what a saloon looked like, almost lost the convention for that place, even after the committee had reported favorably for Mason City.

Cedar Rapids saw its opportunity and jumped in, using its fifty-nine saloons as a trump card. "Mason City doesn't need you," said a Cedar Rapids delegate. "Cedar Rapids does." A vote resulted in 47 for Cedar Rapids to 8 for Mason City.

State Sunday school workers will refuse their support to candidates for the legislature who do not come out emphatically in favor of the resubmission of the constitutional amendment. This was in the resolutions passed by the convention today.

The following officers were elected: President, W. G. Hohanshelt, Boone; vice president, J. Sorekey, Winterset; recording secretary, Miss Jane Atkinson, Anamosa; treasurer, George A. Boody, Des Moines.

Michigan Official Dies Suddenly.

While waiting at the Rock Island station for the eastbound flyer to take him to his home at Battle Creek, Mich., George Phillips, state factory and workshop inspector of Michigan, lurched forward in his seat, fell into the arms of his wife, who was sitting beside him, and expired before help could reach him, at 7:30 o'clock this morning.

PIONEER RECTOR IS DEAD

Rev. R. K. Pierce, Famous in Early Days, Had Large Congregation Near Central City.

CENTRAL CITY, Neb., June 4.—(Special.)—Quite a number of people from Merrick county went to Fullerton today to attend the funeral of Rev. R. K. Pierce, which was held here at the Methodist church. Rev. Pierce was one of the famous pioneer Methodist ministers in Nebraska, and was widely known throughout the whole central portion of the state. He built Pierce Chapel in Mead township, eight miles north of this city in 1887, which had the distinction of having one of the largest congregations of any country church in Nebraska, while he was in charge. For years he suffered from stomach trouble. Last July he rallied from an illness after his life had been despaired of, and returned to the pulpit as soon as he was able to move about. Most of his sermons he delivered sitting in a chair. He also tried to carry on services in a church in the country several miles from Fullerton, but the strain proved too much and the approach of his last illness compelled him to give up the work. Few men in this part of the state were as well respected as he. He was about 67 years of age.

GOVERNOR SPEAKS AT YORK

Compliments School District That Gets No License Money.

YORK, Neb., June 4.—(Special.)—The twenty-sixth annual commencement of York High school was held this evening at the opera house. Forty-one diplomas were presented by H. M. Childs.

Governor Ashton Shallenberger in his address reviewed the progress and growth of York's schools and the city of York, calling attention to the fact that not a dollar for support of its schools had been received from saloon license. His address on education was applauded throughout and full of good advice.

Agnes Irene Merchants for general execution presented with a scholarship. One of the best musical entertainments ever given in York was that participated in by 600 school children at chautauqua pavilion. The annual June school festival, under the directorship of Miss Cora Conway of this city, is one of the musical events of the season and looked forward to by all.

a word about the qualities

Measured by the standard that decides fine clothes, we have the "highest class" stock of young men's and boys' clothes in Omaha. We are perfectly willing that you compare ANY of these garments with ANY others. We claim more nicely for our materials; we claim that the garments here are put together IMPROVEDLY better than any others about town; we claim ours reach a degree of fit absolutely strange to other makers, and, as far as the general "get-up" and style is concerned, all we ask is that you SEE the suits on the young men or boys who are to wear them. And mind, you, even in the face of all this the garments in question are to go tomorrow at prices even LESS than those asked for the legion of commonly made suits offered here and there.
