REAL ESTATE FARM AND RANCH LAND FOR SALE. Nebraska—Continued.

Valley Clearing and Bluff

You are interested in irrigated lands, so why not make up your mind to visit the Famous Scott's Bluff Country June 15.

Famous Scott's Bluff Country June 15.

It is the last of "The Great West" in Nebraska and no other irrigated territory is developing so rapidly.

Bluff in mind that the Scott's Bluff irrigated land is the closest to Missouri Valley markets, and for that reason alone the investment will be profitable.

There are no finer lands, there is no more abundant and surer water supply. The Scott's Bluff lands will grow anything that is generally grown on the Colorado lands.

It produces big crops of sugar beets. It produces prolific crops of potatoes, some farmers having harvested as high as 400 bushels to the acre.

It is the home of alfalfa, oats easily go over 100 bushels to the acre, wheat will produce over 80 bushels to the acre.

The climate is delightful, thrifty little towns, rural mail, telephones, everything that the older communities have is found in this valley.

A sugar factory is to be built in Scott's Bluff to take care of the 1910 crop. It will be one of the biggest in the world and will cost upward of \$2,000,000.

Lands are rising rapidly in value. Plan to go at your first opportunity. Our next excursion—

Payne Investment Company, Colonization Agents, Omaha, New York Life Bldg.
