

HARMS' CHARGE TO BE PROBED

Meat Inspection System at St. Louis Will Be Investigated.

SAYS FILTHY MEAT IS PASSED

Official in Service Eighteen Months Declares Government Stamp on Product Has No Special Value.

WASHINGTON, June 11.—The Department of Agriculture today accepted the challenge of J. F. Harms, a government meat inspector at St. Louis, who, in tendering his resignation to Secretary Wilson, made serious charges against the meat inspection system at the National Stock yards in East St. Louis and demanded an investigation relative to his allegations.

The letter of Inspector Harms to the secretary making the charges and demanding the investigation, has not yet reached here. It was stated, however, that it would be accepted immediately upon its receipt. Dr. Alonso D. Melvin, chief of the bureau of animal industry, under whose immediate supervision the meat inspection service comes, will today prepare a statement showing the conditions in the East St. Louis stock yards, particularly with reference to the number of animals slaughtered and condemned.

Unable to Reach Wilson. DIES MOINES, June 11.—Secretary Wilson is on his son's farm three miles out from Traver and the telephone lines were unable to reach him today. He came to Iowa for a rest and to enjoy a few days' visit with his children.

COURT REBUKES MRS. GOULD

were at Castle Gould it was impossible for you to have any provisions sent to the house. "What period do you speak of?" she was asked.

"From the time when Mr. Gould left on July 16 up to August of the next year, when I left for the last time—when I was really forced to leave," was the reply.

"Are you prepared to swear that within this period you were not supplied with all the necessities?"

"I am prepared to swear. I was refused every day," was the firm answer.

Tells About Dustin Farnum.

Mr. Nicol next questioned Mrs. Gould about her residence in the St. Regis hotel in New York in August, 1906. Mrs. Gould said she often had company in her rooms for luncheon and dinner, and that Dustin Farnum, the actor, had dined with her.

purchase without asking the price, having the articles sent home and the price charged to her account. She was then questioned about the purchase of fourteen hats and eight blouses, in September, 1906.

"Buffalo Bill" Mentioned.

Mrs. Catherine Clemmons Gould continued her testimony today in her suit for a separation from Howard Gould. Delancey Nicol, defendant's lawyer, questioned Mrs. Gould about the Blue Gap farm, near Lynchburg, and witness said she paid \$28,000 for it. Mrs. Gould said the farm was controlled by a corporation in which she had put the most money. After Mrs. Gould had said what she had taken from Castle Gould to the Lynchburg farm, Mr. Nicol asked the witness her age, but the court excused her from answering that, or from telling where she was born. Before her marriage, Mrs. Gould said she was known as Viola Katherine Clemmons and as Viola Day, the latter being the name of her stepfather.

Mr. Nicol asked the witness if she had ever traveled with a wild west show. Mrs. Gould replied that she had traveled once with Miss Ada Cody and had accompanied the show to Naples, Rome and other European cities. She had seen a good deal of Colonel Cody, as he was her panager and she had frequently to consult him, she said.

Former Massachusetts Engineer Becomes Pastor of Church at Belle Plaine.

MARSHALLTOWN, Ia., June 11.—(Special.)—C. W. McClure, the engineer-evangelist, who was formerly one of the best known of the Iowa Central engineers, who made their headquarters in this city, has accepted the pastorate of the Evangelical church of Belle Plaine, Ia. Mr. McClure has been running an engine on the Santa Fe, out of Emporia, Kan., for years, but in addition to his duties as an engine driver he has done much evangelistic work. For a time he was secretary of the Railroad Young Men's Christian association in St. Louis, and his work among railroad men so impressed Miss Helen Gould that she employed him to make an evangelistic tour of the Gould system, which he did, converting many of the railroad's employees. He was one of the founders of the local Young Men's Christian association.

DUN'S REVIEW OF TRADE

Tariff Delay and Crop Statement Fail to Check Activity.

Greater Interest and Larger Volume of Actual Transactions Observable Than for Long Time Past.

DEMAND FOR COTTON GOODS

Greater interest and large volume of actual transactions are observable in the primary cotton market.

NEW YORK, June 11.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Further progress is making toward business confidence and activity, and even the vexatious delay in the treatment of the tariff and the market's disappointing crop statement have not served to check the improvement.

Statistics of pig iron production during May furnished evidence of the betterment of iron and steel. A significant development is the fact that many buyers request prompt deliveries, especially transporting companies.

Greater interest and large volume of actual transactions are observable in the primary cotton market. Jobbers are the principal operators, although the market as a whole still continues to be somewhat uneven. There is an advance on the majority of foreign goods, which will probably curtail foreign demand for some time. In the print cloth division narrow cloth sales increased firmness as a result of operations, comprising between \$20,000 and \$30,000 pieces, extending on delivery into September. This has stiffened all odd counts, while wide countables have also advanced in price. A fair distribution of prints from first roots from other buyers, are appearing. Bleached goods are moving moderately and have advanced in price, while gingham are strong and napped goods for fall are in excellent condition. The woolen goods division interest at present centers in the opening of staples by the leading producers.

As a whole, shows an improvement in shoe conditions, perhaps more marked at the present time than for any period during the fall season. In the packer hide market the movement has been fairly active, with some advance in price due to improved quality of receipts. There is an active leather market, leading to the fact that manufacturers having made heavy purchases of sole leather in Boston. Demand has also been good from other buyers, and numerous sales of from 10,000 to 15,000 hides and bales of sole leather in all tannages reported. Prices are still below normal in some districts, and in some instances higher prices are again quoted.

BRADSTREET'S REVIEW OF TRADE

Reports from Leading Industries Are Favorable, It Says.

NEW YORK, June 11.—Bradstreet's tomorrow will say:

Reports from leading industries are, on the whole, favorable, so far as booking of future orders is concerned. Iron and steel are active in finished lines, though output is still below normal in some districts. Some wage advances are reported and resumption of blast furnaces are reducing the floating labor supply. There is reported a widening demand for cotton goods. Print cloths have regained the loss of a few weeks ago. Woolen goods trade reports are of good business booked or pending and wool, though still active, is not so strong as at level prices. Trade is active with higher prices ruling, in sympathy with wool and skins. Eastern shoe orders are fair. Shipments are 21 per cent larger than a year ago, but smaller than in any previous year back to 1902. Building trade reports confirm earlier predictions of record spring construction. In an enormous total far surpassing all previous monthly records ever compiled, reports are being received from the irregularly noted in general distributive trade, varying from slow to good in different sections. Reports from the northwest are that merchants are discounting bills more freely.

Business failures for the week ended with June 10 in the United States were 197, as against 201 last week, 181 in 1907, 170 in 1906 and 175 in 1905.

Failures in Canada for the week number twenty-two, which compares with twenty-nine last week and twenty-four in the like week of 1908.

Exports, including flour exports from the United States and Canada for the week ended June 10 aggregated 1,827,000 lb., against 2,125,500 lb. last week and 3,064,000 lb. this week last year.

For the fifty weeks ending June 10, this year, exports are 164,878,500 lb., against 186,207,000 lb. in the corresponding period last year. Exports for the week are 14,211 lb.

Corey and Wife Hurt in Auto Car

One Occupant is Badly Injured, the Steel Magneto is Lucky.

PALAISEAU, France, June 11.—(Special Telegram.)—E. Corey, president of the United States Steel corporation and his wife, who suffered injuries in an automobile accident near here yesterday, were seen today at their home, the Chateau Vigent. Mr. Corey is confined to his room. His head was bandaged and he was suffering from slight pains in the chest. Mrs. Corey had been bruised, but she had sufficiently recovered from the shock to be at her husband's bedside.

Accompanied by M. Godilleau, manager of Mr. Corey's French estate, they left here in an automobile for Paris, where they had an engagement to take luncheon with Prince Von Radoln, the German ambassador. After emerging from the forest surrounding the chateau, the chauffeur, a man of limited experience, suddenly lost control of the machine, which was going at a rapid pace. The car struck a tree and turned a somersault and the entire party was buried beneath a mass of wreckage. Mrs. Corey managed to extricate herself unaided. She saw her husband beneath the car. He was covered with blood from wounds inflicted by the shattered glass. M. Godilleau was crushed and unconscious and the chauffeur was pinned down. She ran across a field and secured the aid of three peasants, who at once set to work to clear away the wreckage. Then the wounded were removed in a wagon to the chateau.
