DISEASE

### Nature's Own Remedy.

Constipation is not only disagreeable, it is dangerous. If allowed to become chronic it will prove the forerunner of disease. Nature intended the bowels to move regularly once a day. The delicate stomach and bowels are the keystone of the physical or ganization and should be kept in normal working order to preserve health. When the bowels become sluggish they require a natural and harmless laxative. Too often they are permanently damaged by powerful drugs taken to force action. In the famous Natural HUNYADI JANOS water, Nature herself has provided her own harmless laxative, which can be relied on for quick and sure results. 1/2 a tumblerful on arising will, within an hour, move the bowels gently and copiously. A bottle costs but a triffe and contains many doses.

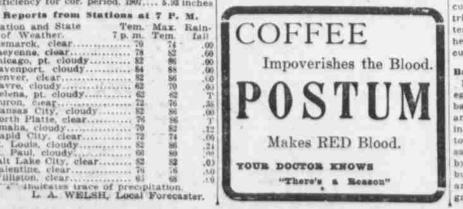

Look out for unscrupulous druggists who will substitute unless you ask for HUNYADI JANOS.

Banker's Estimate of Wheat Crop. BEATRICE, Neb., June 21-(Special Telegram.)-F. E. Morrison, a prominent banker of this city, has just returned from an extended trip over the state. He has in former years made a close estimate as to the production of different crops. He says from the present conditions as seen by him. Nebraska will produce 55,000,000 bushels of winter wheat and conditions are perfect over the entire state, with greatly increased acreage.
