ment. "The consolidation was a natural result of existing conditions. The National bank has grown so fast that it has been taking more of its time than he could consistently devote to it, while other more important branches require the attention of the other officers of the bank. Then the new guaranty law, however, excellent it may be from the depositor's standpoint, introduces elements of uncertainty into the banking business. The attack made upon the law in the courts creates confusion; because, pending the litigation, bankers are in doubt under which law to proceed. Facing these conditions, and the necessity for furnishing increased banking facilities, the officers of the bank began to look around for some way to take care of their depositors, with the least possible inconvenience to them, and selected the United States National bank because of its location and evident ability to take care of the business."

Call for State Warrants South Dakota Will Pay But Six Per Cent Interest After First of July.

PIERRE, S. D., June 24.—(Special.)—After the first of July, a call will be made for all outstanding state general fund warrants, the call going secured through June collections, and by borrowing from the twine plant fund, which can be done without interest, as all interest from all sources, goes into the general fund, under an enactment of the last session. This call will not only take up all outstanding warrants, but will leave cash on hand for a time at least. After that date, the purchasers of state warrants will only receive 6 per cent interest, as the last legislative session reduced the rate from seven to six. The call will leave the state with approximately \$700,000 of floating debt, of which a half million is in revenue warrants running one year and bearing 3% per cent interest, the balance being borrowed from the twine plant fund at no interest.

MRS. GOULD ON THE STAND She Denies Every Charge of Improper Behavior.

HER RELATIONS WITH FARNUM They Were Purely of a Business Character, She Declares—She Wanted to Return to Former Stage Life. NEW YORK, June 24.—Catherine Clemmons Gould was called back to the stand for a final ordeal today, to explain away, if possible, the damaging testimony given by the witness for her husband in his suit for separation and alimony of \$250,000 a year. It was a day of denials—beginning with the reading of the deposition of Dustin Farnum, the actor, who denied in toto all allegations of improper conduct with Mrs. Gould, and ending with Mrs. Gould's repeated denials of practically everything in word or action attributed to her by the witnesses for the other side. For two warm hours Mrs. Gould, looking for the first time uncomfortable in her smothering black satin gown, answered the carefully framed questions of her counsel, repudiating with a monotonous flat denial all testimony and insinuations charging her with excessive drinking, profanity or other impropriety. Chauffeurs, grooms, stablemen, shopkeepers, laborers and other servants and employees were alike branded with the short and ugly epithet, she testified, to excess, never used profane language, never forgot her dignity as mistress of Castle Gould and never overstepped the bounds of propriety.

Atlas Oil Plant Destroyed by Fire Warehouse at Fourteenth and Nicholas Burned, Causing Loss of Over \$60,000.

The three-story warehouse of the Atlas Oil company at Fourteenth and Nicholas streets was totally destroyed by fire which started shortly before midnight. A preliminary estimate places the loss at \$60,000. The building, which was built of wood, contained several hundred barrels of oil and other inflammable stock and burned with great rapidity. The one-story brick warehouse of Orchard & Wilhelm company, containing reserve stock of furniture, was also totally destroyed. For a time it seemed that the flames would spread to the grain warehouse of J. E. Twamley & Son and the coach and wagon factory of H. G. Deup, which adjoin the two structures which burned, but the firemen succeeded in saving them.
