particular spot, it would be an easy matter to apply some remedy directly. to the place that would kill the germs; or the diseased fiesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S.S.S. cures Ad Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S.S.S. has cleaned the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom, soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S. S. S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use.
