ENGINEERS MEET AT CAPITAL

Brotherhood Men Hear Vice President Willard of Burlington.

GRAND CHIEF STONE ALSO SPEAKS

Agree that Harmony is Necessary Between Employers and Employees, But Differ as to Ways and Means.

(From a Staff Correspondent.)

LINCOLN, Neb., June 29.—(Special.)—The reunion of the Brotherhood of Locomotive Engineers, began this morning and will continue over Wednesday with a barbecue at Capital beach. The first open meeting was held at the auditorium this afternoon. The speakers were Vice President Daniel E. Willard of the Burlington, Warren S. Stone, grand chief of the brotherhood, and P. H. Morrissy, president of the railroad employees.

Mr. Willard and Mr. Stone both spoke for harmony between railroad employes and officials, but they did not agree in all details as to how to reach that harmony. Mr. Stone wanted it understood harmony could not be secured if the unions had to do all the bargaining.

Mr. Willard said harmony was necessary between the officials and the employes, and especially at this time when there were being enacted so many laws which affected both the officials and the employes. He said the enactment of the sixteen-hour law was not necessary but that the matter could have been settled by a conference between the officials and the employes much more satisfactorily. This was disputed by Mr. Stone, who said he had held numerous conferences with the officials regarding the hours of labor and had always come away from the conference with his grip full of promises, but nothing came of them.

In his talk Mr. Willard said he had resigned from the brotherhood when he became an official and he believed this was right. On that point Stone took issue with him, holding that all the unions wanted was justice and the railroads should want nothing more.

Mr. Willard left this afternoon over the Sioux City line and will go to O'Neill. There he goes to Chicago.

The attendance at the auditorium meeting comfortably filled the lower floor, there being something like 250 members of the brotherhood present.

Among the old-timers present was Charles Patterson of Cheyenne, who ran an engine out of Lincoln back in 1877, when he got a job here after being stranded on his way to the coast. He remarked this afternoon that all railroads now resembled the Illinois & E. H. Harriman and that in his estimation Mr. Harriman could not well be spared by the country. He considered him, he said, the greatest railroad man of the age. George Holdrege was present at the meeting this afternoon.

Hitchcock County Wheat Good.

The labor bureau has received word from Hitchcock county that L. B. Harrison of near Trenton has 200 acres of wheat which will average thirty bushels to the acre. Mr. Harrison expects to receive 81 bushels for his wheat, which the labor commissioner believes, taken altogether, make an extremely good showing for Hitchcock county.

In the meantime the bureau has received a call from Holdrege for fifty men to work in the wheat fields, and several men are being sent at once. At this time there are no applications on file with the bureau for work.

Halston Switching Rate Up.

The application of the Missouri Pacific railroad to abolish its switching charges between Omaha and Halston and install a regular road rate was argued before the Railway commission today and several witnesses were examined. Under the present switching rates the charge for a car is \$1. The change would be a material increase in the rates.

E. J. McVann and J. M. Guild of Omaha were among those present to give testimony. The application was resisted by Judge Baxter and Senator Van Dusen on behalf of a number of business men of Halston.

Automobiles in Trouble.

Harry Westcott of 230 B street was in police court this morning charged with speeding his automobile on the night of June 25 near Twenty-third and B streets. He was found guilty by Judge Rissler and

until noon tomorrow to appeal if he wished to.

W. H. Marley, attorneys for William Coon, today filed in district court a motion for a new trial in the case of Lisette Smith, administratrix, against Coon. In this case plaintiff was last week given a judgment for \$4,000 on account of the death of Nellie Smith, who was struck by Coon's automobile and killed.

Game Warden Moves.

Dan Gullis, deputy game warden, has removed his office again. This time he is located in representative hall, just at the entrance, and the entire room is at his disposal for a display of the souvenirs of the office.

Adjoins Church to Ball Park

Central City Pastors Hit on Novel Plan to Get Men Out to Services.

CENTRAL CITY, June 29.—(Special.)—A plan favorably received has been arranged by the pastors of five Central City churches for keeping up church attendance during the hot summer months. It is a well known fact that the congregations dwindle when the hot weather sets in. Accordingly union evening services will be held in the ball park every Sunday throughout the months of July and August under the auspices of the Methodist, Baptist, Christian, Friends and Presbyterian churches and the Young Men's Christian association, replacing the separate services held in these churches and the afternoon meetings at the Young Men's Christian association. The meetings begin at 7 o'clock p. m., so that all attending will enjoy the advantages of the cool evening breeze.

CAMPAIGN FOR GOOD ROADS

Bloomfield Commercial Club Has Plan to Co-operate With Farmers in Work.

BLOOMFIELD, Neb., June 29.—(Special.)—Since the Postoffice department at Washington has decided, and by general order proceeded, to refuse to maintain in passable condition at all seasons of the year the highways traversed by rural carriers, will be considered sufficient reason for the withdrawal of established mail service from a locality, the Bloomfield commercial club has taken hold of the matter, and with its adopted methods expects to keep the roads in Uncle Sam's service, but will place all roads leading to Bloomfield in such condition the farmers can haul their stuff to market without having to walk half of the way. The executive committee of the club first invited all rural carriers to meet with them and report to the committee the condition of the roads along their respective routes. Each carrier was then authorized to select a member of the committee to accompany him over the route and note all such places where the roads and bridges needed repairing. This was followed up with a letter from the secretary of the commercial club to every farmer living on the five mail routes out of Bloomfield, enclosing a copy of the order of the Postoffice department and asking each and every one to fix the road along his property. Also inviting him to offer any suggestions to the members of the club that might be of mutual benefit. The club also promises to co-operate with the patrons of the routes and to assist in every way possible to better the present state of affairs, and to help improve the roads and to keep them in such repair that there may be no excuse for complaints to the Postoffice department.

Omaha Complex Wed.

NEBRASKA CITY, Neb., June 29.—(Special.)—Harvey F. Wilson, of Council Bluffs and Miss Arta Setzer of Omaha came to this city last evening and were married by Judge Wilson. Shortly afterwards Thomas P. Burress and Miss Mamie Kaye, both of Omaha, put in their appearance and were married by the same official. Both couples left for their future homes on the first train.

To Make Cement Mixer.

KEARNEY, Neb., June 29.—(Special.)—Articles of incorporation have been filed with the county clerk for the Bolte Manufacturing company. The company will manufacture 200 and costs. His attorney spoke of appealing and the magistrate gave him

Sermon Preached Fifty Years Ago

First Methodist Discourse in Denver to Be Repeated By Rev. Jacob Adriance of Fremont.

FREMONT, Neb., June 29.—(Special.)—Rev. Jacob Adriance and wife of this city left today for Denver to attend the celebration of the fiftieth anniversary of the founding of the Methodist church in Colorado, which occurs this week. Mr. Adriance, who was then a missionary conference in charge of Colorado and part of Nebraska, held the first Methodist service and preached the first sermon in Denver. He still has the manuscript of that discourse and will deliver it again this week. He organized a number of churches in that country, held services in remote mining camps and conducted the burial of many men who died with their boots on. Over forty years ago he was obliged to give up the ministry on account of deafness, and coming to this country he purchased a large tract of land in Maple township, which he still owns. He has a fund of anecdotes of his strenuous life as a missionary among the mining camps, and during his trip will revisit the sites of his former ministry. Though past 80 he is still in good health and is as active as many men twenty years younger.

LACK OF BEER CAUSES ROW

Whisky Too Strong for Barneston People and Saloon Closes Temporarily.

WYMORE, Neb., June 29.—(Special.)—A Barneston resident in town yesterday said that reports regarding the situation in that city had been much exaggerated and that citizens were incensed at some of them. He stated that when W. F. Nolan opened his saloon last week he had no beer on hand and was serving whisky, which had a bad effect on some of the consumers, and after objection had been made by citizens Mr. Nolan closed up until he could get beer. The supply which is quiet, the saloon reopened and everything is quiet.

PAPILLION DITCH CARRIES

When is a Divorce Not a Divorce?

Or Can Woman Get One When Not Legally Married, is Question Up to Estelle.

Can a woman get a divorce from a man whom she has never legally married? This is the question which Judge Estelle of the district court may have to solve if the attorneys in the divorce case of Mrs. Jacob Neu's first wife got a divorce from him in October, 1904, in Judge Sears' court.

There was only a divorce from bed and board, not a decree which would permit either party to re-marry. Several years ago, however, he married again in Council Bluffs, and now his second wife is suing him for separation.

Judge Estelle, knowing something of the original case, had it investigated and found that the decree which Mrs. Neu was granted was not absolute. He has made no announcement from the bench of that fact and probably will wait for some action on the part of the attorneys.

DEPLORES 'DECAY OF GREEK

President Hadley Lauds Classic Language for Training it Gives.

SEES GOOD IN HONOR COURSES

Praises System of Separating Honor and Pass Men in Vogue at Oxford—New Benefactions.

NEW HAVEN, Conn., June 29.—President Hadley presented his report at the meeting of the alumni in Alumni hall this morning at Yale. Gifford Pinchot, '08, presided.

The report discusses the diminution in the study of Greek and its effect; the possibility of combining modern culture studies with the old-fashioned requirement of hard work; the considerations which should govern the choice of professors, and the possibility of introducing honor courses like those of Oxford or Cambridge into the American college.

President Hadley said in part: "A great many American college boys have lost the training which Greek would have given them and gained nothing of equal value in its place. But colleges cannot teach a thing to a public which does not want to study it, and we must recognize the fact that an increasing part of the American public does not care to have its sons give the time necessary for the effective use of the Greek language as a means of competition and discipline. This makes academic problems difficult."

Honor Courses in America.

Discussing the possibilities of honor courses, President Hadley said: "I frankly own that I should be glad to see the English system of separating honor men from pass men introduced at Yale. In physical matters the man who goes into sports on a large scale is relieved of compulsory exercises in the gymnasium. Why should not the same principle hold in matters intellectual? I should be glad to see the honor men who had attained a general standing at the end of his first year to declare himself a candidate for compulsory exercises in the gymnasium, and to extend the same privilege at the end of subsequent years, perhaps under somewhat closer restrictions, to those who had proved themselves worthy of it."

To the criticism that any such arrangement would result in a difficult way to study the particular things which he was going to use in after life, President Hadley replied that the ideal college education seems to me to be one where a student learns things that he is not going to use in after life, by methods that he is going to use. The former element gives the breadth, the latter element gives the training.

Gifts to Yale.

Among the recent gifts of special importance not previously announced are \$100,000 from Mrs. Morris E. Jessup for the endowment of professorship in agriculture in memory of her husband, and \$50,000 from an anonymous friend of the art school in memory of the late Richard S. Fellow of the class of 1882.

A Crimean Veteran

Mr. Fred W. Bennett of West Carthage, N. Y., who is 70 years old, active and vigorous, a veteran of both the Crimean War and the War of the Rebellion and who has traveled through many countries in South Europe, was cured of heart trouble by Duffy's Pure Malt Whiskey, after doctors and other so-called remedies failed. Mr. Bennett says that as a medicine Duffy's Pure Malt Whiskey beats all for purity and quality.

MR. FRED W. BENNETT, 70 Years Old.

Mr. Bennett writes: "I thought I would write and give you my opinion of Duffy's Pure Malt Whiskey. I have used liquor for the past 50 years, but not to excess. When in the English army, during the Crimean war, we were allowed three gills per day, and I know it was the means of saving thousands of men's lives during the winter of 1854-5. I came to this country in 1863. Up till this time I had never seen a sick day, but after serving through the War of the Rebellion I had not been free from heart trouble. "I have had a great many different doctors, but all to no purpose. Then I commenced using the different brands of whiskey from which I received little or no benefit. When I read of your Duffy's Pure Malt Whiskey I commenced using it, about ten years ago, I don't have any more heart trouble, and for a man 70 years old I feel quite active. I think if people would use Duffy's Pure Malt Whiskey, take less drugs and medicine they would be greatly benefited, enjoy better health and would save money that is paid for doctoring. I have stated the plain facts in my own case and shall be glad to know that others are benefited by using your Pure Malt Whiskey."

Duffy's Pure Malt Whiskey

as a tonic stimulant is one of the greatest strength-givers known to science. It aids in destroying disease germs, and by its building and healing properties assists in restoring tissues in a gradual, healthy, natural manner. It is a wonderful remedy in the treatment and cure of consumption, pneumonia, gripe, bronchitis, coughs, colds, malaria, low fevers, stomach troubles and all wasting, weakened, diseased conditions, if taken in time.

CAUTION—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's an absolutely pure medicinal malt whiskey and is sold in sealed bottles only—never in bulk. Look for the trade-mark, the "Old Chemist" on the label, and make sure the seal over the cork is unbroken. Price \$1.00. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., for a free illustrated medical booklet and free advice.
