TEACHERS' INSTITUTE PLAN

Superintendent Jackson Secures Strong Corps of Instructors.

NEW FEATURES INTRODUCED

Season Will Be Held August 30 to September 4—Program of Lectures and Plan for Enrolling Teachers.

Prof. E. H. Jackson, county superintendent of schools, is arranging a strong program and has secured a number of leading educators for the faculty of the Pottawattamie County Normal institute, which will be held in the high school building of this city during the week of August 30 to September 4.

As voted by the teachers at the institute last year, the date for the session this year has again been fixed for the week preceding the opening of the school year. The results obtained from the work given last year, says Superintendent Jackson, were far beyond anything ever before experienced and he anticipates this year will mark another step in advance.

The plan of work outlined for this year is similar to that of the two preceding years. Special emphasis will be placed on work which it is hoped will be more fully introduced into the schools of Pottawattamie county. Some new features to be introduced this year will be work on records, reports, etc., for rural teachers; industrial work and two special exhibits, one of art work and one of hand work. The work in Palmer writing will be continued, as will several other lines of work introduced in recent years.

Several changes in the proposed pure milk ordinance have been agreed upon at a conference held in the office of City Solicitor Kimball, at which the committee representing the local dairymen's association and Councilmen Jensen, Morgan and Olson, representing the city council, were present.

The changes agreed upon are as follows: The license fee of 20 cents per cow per annum raised to 25 cents.

The license fee on all dairy cows extended from October 1, 1908, to January 1, 1910.

All partitions of milk sold in the city to be made within the city limits.

Inspection by city food inspector at least once in every sixty days instead of four times a year.
