CONFIDENCE

☐ The world is based on confidence—confidence in integrity—confidence in men—confidence of success.

☐ Confidence generates determination. When an individual, an organization or a corporation has reached that point of confidence, fifty per cent of the battle has been won.

☐ These facts—Organization and Confidence—from office boy to the president, backed up with values—price and article, we consider more than anything else the cause of "BANNER BUGGIES" being driven in and known in every corner of the world.

HUGH F. CARTWRIGHT,
First Vice-President.
