SOME BUY FOR A SUMMER RESORT. What could be more desirable than a cottage of the Bitter Root Valley in the Rocky Mountains, where the mountain terrents abound in the gamest and most palatable of fish—the "Red Threat" trent, and where all binds of large game known to the Reckies make hunting

SOME BUY TO SAFEGUARD THE FUTURE. Is there anyone who would not be happy pens to his business, that no matter if the weret of penice should overtake us, that in case of unexpected inability to work for a living, that in the day of his old age or what not, he has a profit-producing erchard and a home to which he can retire and be prespersus and happy.

SOME BUY FOR A HOME Wouldn't you be contented with a home in the mountains, among the heat of neighbors, close to relivered, good schools, churches, excellent roads and on a profitable orchard where the work of pruning, irrigating and cultivating is light, pleasant and healthful, leaving plenty of time to live?

SOME MAKE IT A BUSINESS. That the growing of McIntosh Red Apples or Transcendent Crabe in the Bitter Root is most profitable is sustained by present growers in the Valley who have been there for ten to thirty years. The standard ten-nere orchard, five years old, yields on the average 800 boxes of apples, six years old 1800 boxes, with an increase up to the twentieth year. The sale price per box f. o. b. the Valley is \$1.25 to \$1.75 per box.

SURE CROPS—NO PESTS. There has not been a failure in the Valley during the thirty odd years fruit has been grown there. It is the only fruit-growing section in which there has never been a post of any kind nor an injurious frest. No crep insurance is necessary in the Valley. THIS COMPANY OFFERS a tract of "Bench Land" on the west side of Bitter Root River known as the Charles Heights Orchards, legated on the Northern Pacific Railway, irrigate and cultivate it during the most five years and turn it over to the purchases a bearing orchard in September of the fifth year. We will then continue to care for the land and crop for ten per cent of the net yearly profits as long as desired. Or we will sell the undeveloped land cleared and ready for the plow in 100-acre tracts to one party or a company of individuals who wish to plant and develop their own property, under the direction of our expert horticulturist. Permanent water rights without cost.

A TRIP TO THE BITTER ROOT. Send at once for our beautifully illustrated literature giving and describe your own ideal of a pleasant home, a profitable investment and an independent life. In this literature we give facts and figures, verified by the best authorities and actual growers of the Valley. If you can take a trip with us to this beautiful country, you will find our statements and figures correct. Send for our proposition, which guarantees it or pays for a trip to the Valley.
