The social calendar is not promising this week, though the regular schedule for the country clubs and the presence of so many visiting women insures enough to keep the stay-at-home fairly busy.

The feminine tennis players of Omaha will have a chance to enter a national tournament if they wish. The first annual Missouri singles and doubles, will be given in Kansas City commencing July 12.

The Kansas City Athletic club takes pleasure in announcing that they have secured official sanction from the United States National Lawn Tennis association for the playing of the above tournament and that the date selected will be the week of July 19, 1909.

This tournament will be the premier tennis event for women to be held in the central west, and the affair promises to be one of exceptional interest to all supporters of the game.

We earnestly solicit your entry, whether you be expert or beginner, to the former which we wish as speedy an entry as possible, and to the latter for the reason that tournament play will improve your game to a wonderful degree, in fact, one week of tournament work is considered more beneficial than a month of ordinary practice.

Health and Beauty Hints

BY MRS. MAE MARTYN.

J. M. B. No: I do not know of any means to increase the height. "How to grow tall" is an infatuated fancy. I advise you to quit worrying and be content to remain as you are. I am glad you like my shampoo recipe and I am sorry you had trouble in getting catnip. I never mention an ingredient for any recipe that you cannot obtain in any drug store without difficulty. If your drugist happens to be out of any article named he can easily obtain it from his wholesaler.

Anxious Inquirer: Large pores and blackheads are frequently caused by use of face powders. Almost any cream jelly you can make is better than any powder. Wash and rub with a little water and soap for clearing the skin of blackheads, large pores, certain types of pimples, etc. Put an ounce of salomon in a quart jar and add a pint of cold water and two teaspoonfuls of glycerine, stir briskly for a few minutes until it becomes a thick cream jelly. For massaging, apply with the fingers and let remain for a minute on the face. Freshen up, wash face with cold water and let remain for a few hours. It contains no fat or oils that will cause hair to grow, so you can use it as freely as you wish.

J. Y. E.: Face lotions or washes are best preferred to ordinary face powders, but the manufactured brands are pretty expensive for everyday use. Your salomon and cold water skin can be made white and more youthful if you will use this recipe. To a half pint of hot water, add two teaspoonfuls of glycerine and a ounce of salomon; let it stand until cold. Apply to the hands and continue rubbing the skin where applied until dry. This is a complexion beautifier. It softens the skin. It is also good for cold sores.

To keep your eyes bright and clear, use eye-wash made by dissolving

an ounce of crystals in a pint of water. This makes an eye tonic that is good for tired, but if you are so situated that smart or burn it strengthens the sight, tends to make the eyes beautiful and lustrous and is an aid to those who wear glasses. Apply by dropping one or two drops in each eye.

Robt. W.: You can make a fine quinine hair tonic as follows: To 1 ounce of quinine add a pint of alcohol, a pint of cold water; let stand until the quinine is dissolved. Rub in well until absorbed. This will relieve itching scalp, keep the growth of hair, if used once or twice a week. Shampoo the hair twice a month, or whenever it is needed.

B. B.: The best and cheapest shampoo I know of is made from a plain can of shaving soap. Simply dissolve a teaspoonful of catnip in a tea cup of hot water and stir well until it is dissolved, then pour to shampoo by pouring it on the hair and rubbing well. This makes a fine lather and cleans the scalp, relieves irritation and makes the hair soft and fluffy—and such a shampoo costs less than one cent. See next page, Robt. W. for making a good hair tonic.

M. W.: It is true that exercising and bathing have brought about satisfactory results to many who considered themselves too fat, but if you are so situated that you cannot take exercise and find that dieting weakens you, I would advise you to try a simple mixture of cod liver oil and warm water. Put a ounce of parosin in a pint of water, when cold it is ready for use. Take a tablespoonful 3 times a day and dissolved in the meals. This is a harmless flesh reducer.

I. G. M.: For broken chilblains rubbing with ammonia table salt is one of the best remedies known. Add just enough water to make the salt damp.

Robt. W. Marty's book, "Beauty," is available.
