GREEK CLAIMS MEET DELAY

of South Omaha Losses.

MINISTER HERE THIS SUMMER

',ocal Countrymen Will Wait Upon L. S. Coromilas When He Visits Omaha Enroute to Seattle and Urge Action.

Difficulties at home, consisting of internecine warfare and raids from the Turks along the frontier, may delay pressing the claims of the Greeks who sustained property loss in the South Omaha riots

last winter. This is the opinion of James E. Rait, one of the attorneys for the Greeks, based from advices received from representatives of the Greek government in the east.

Troubles in the old country, of course, Omaha Greeks other than that all interest is centered on the home difficulties to the exclusion of other affairs," said Mr. Rait. Member of Big Department Store is at present associate dean, would ac-"Not only are the authorities in Washington watching affairs at home closely, but the Greeks here in Omaha are bound up in the affairs of their home country and have for the moment seemingly forgotten their own personal claims in the greater

induce the ambassador to push their claims in Washington.

The claims of the Greeks, aggregating about \$200,000, are now in the hands of Trouble at Home Checks Prosecution Minister Coromilas, and Mr. Rait says that his firm has practically nothing more to do with them. All the papers in the case, written in French, are ready for presentation to the State department at Washington. The State department will probably turn the claims over to congress, with recommendation as to their disposal. The claims have all been amalgamated in one and will be presented as a claim from the Greek government to the government of the United States. Individuality is lost until the governmental claim is disposed of. When the claim is allowed, if it is allowed, then a subdivision will be made and the Greek sufferers paid pro rata.
