TUG COMES TO THE RESCUE

Twelve of the Excursionists and Part of the Crew Are Picked Up—Six Drown While Swimming.

NEW YORK, July 18.—Sixteen persons, five of them women, met death by drowning in the waters either surrounding or in the vicinity of New York today.

Mrs. C. K. Nudson of Brooklyn is in such a serious condition that she will probably die. Her two daughters were drowned.

The dead: SELMA SAMSON, New York. ELLA OLSEN, Flatbush, L. I., and the following from Brooklyn: OLGA AND SELMA NUDSON, sisters, 14 and 12 years old.

JOHN CHRISTENSEN, ABRAHAM HUNSON, ABRAHAM JAMSON, ALICE KNUDELSON, PETER SPILLERSON, JOHN THOMPSON.

Captain Samuelson of the Roxanna and the twelve survivors were picked up under great difficulties in a rough and choppy sea by the tug Lamont.

Story of Disaster. The Roxanna was chartered at Ulmer Beach, Brooklyn, for a sail across the bay to Midland Beach, Staten Island, and back.

All the afternoon there was a stiff breeze from the southwest, which left a heavy cross sea. Toward the close of the day the sea began to chop.

Fortunately the tug Lamont was keeping a sharp lookout. Captain Keeys saw the sloop heel over in the gust and fall to come back. Instantly he headed for the spot where the Roxanna had been.

Mrs. Thora Hendrickson of Brooklyn, one of the survivors, said: "When the boat sank we were left with nothing to keep us up except some empty beer cases and some boxes that floated to the surface."

"Captain Samuelson was a real hero. He was about the only person aboard who could swim and he did his best to save us. If there had been two or three other men like him everybody would have been saved."

END OF TARIFF BILL IN SIGHT

President Will Probably Sign the Perfected Measure Early Next Week.

FREE IRON ORE AND OIL

Duties on Lumber, Coal and Hides to Be Reduced.

DIVISION ON PULP SCHEDULE

This Will Probably Be Last Considered by Committee.

WORK ON CONFERENCE REPORT

Expectation that it Will Be Submitted to Both Houses Late in the Week—Points of Difference.

WASHINGTON, July 18.—The republican conference committee—Senators Aldrich, Burrows, Penrose, Hale and Cullom, and Representatives Payne (N. Y.), Daisell (Pa.), McCall (Mass), Boutell (Ill.), Caldwell (Kan.) and Fordyce (Mich.)—is now near the end of its deliberations on the tariff bill and its report is expected to be completed by the latter part of this week.

Most people here expect that President Taft will sign the bill. He, himself, caused a flurry throughout congress last Friday night by the issue of what amounted to an informal message to congress, in which he reiterated his conviction that the national platform of the republican party meant, and the sentiment of the people as a whole demanded, a bona fide downward revision of the tariff.

Free Oil and Iron. In all probability the five subjects which have received President Taft's personal attention—iron ore, coal, oil, hides and lumber—will be taken up by the conferees during the latter part of the present week.

There are a number of paragraphs in the bill which cannot be disposed of until rates are determined for the subjects named. Proceeding on the assumption that iron ore and oil will be placed on the free list, and the existing duties on coal, hides and lumber will be materially reduced, the conferees are preparing amendments to be offered on articles related to the foregoing raw materials.

In consequence all of these subjects may be disposed of immediately after duties have been determined for the more important subjects.

Division Over Print Paper. Outside of the questions which are receiving the personal attention of President Taft, the greatest difficulty anticipated relates to the wood pulp and print paper schedule. On account of the statement of Representative Mann, who was chairman of the special committee, while investigating this whole subject and reported reduced rates to the house, that he would vote against the conference report unless the views of his special committee were recognized, the conferees have delayed disposition of this subject.

The house rate on print paper was fixed at \$2 a ton. The senate rate is \$4 a ton, as against the existing rate of \$6 a ton. The general impression is that the senate conferees will offer to compromise with the house by agreeing to accept a rate of \$3 Senator Hale is opposing any reduction of the senate rates; therefore, the subject is likely to be one of the last settled.

Women's Gloves. The paragraph affecting women's gloves, on which the house advanced the existing rate is among those on which action has been deferred. The senate conferees are holding out an amendment restoring the Dingley rates. A compromise has been suggested which puts Schmahsen gloves on the list. This is the cheapest glove made and is not made in the United States at all. It retails at about 75 cents a pair and it is said the effect would be to reduce this retail price to about 50 cents a pair. The Schmahsen is recognized as an inferior article. The compromise contemplates leaving the rates on the higher grades the same as they were fixed by the house.

The senate conferees are insisting upon the increase made in duty on lemons. The existing rate is 15 cents per bushel, and total resources and liabilities of \$1,471,728.04 represents the position of the national banks of the United States as announced today.

The statement gives the reports to the Treasury department under the call of the comptroller of the currency for a statement of conditions of the banks on June 23, last. Their loans and discounts, according to the complete returns, increased by \$2,172,647 since the date of the last call, in April, and \$42,397,585 since July 15, 1908.
