Liverpool Comes Weak Again and Wheat Eases Off.

BEARS MAKE MUCH OF NEW CROP

Corn Strong on Good Demand and Advancing Steadily, with the Shorts Covering on Every Jump.

OMAHA, July 23, 1909, Weak and lower Liverpool cables weakened the local market and prices eased off on further short selling. Bearish traders are showing great confidence over the new wheat prospects and the movement is in-creasing steadily. With the best of crop assurances from the northwest, farmers are selling freely, lowering cash values. Corn is strong and advancing steadily, with shorts covering at every advance. Le-mand is active and further bulges are in

mand is active and further bulges are in line.

Wheat was weak and lower on lower cables, which started liquidation. Receipts are large and are expected to increase. Cash wheat was lower owing to heavy country acceptances which indicate that farmers are anxious to sell the new crop. Corn showed good strength in face of the weak whoat market and cash corn sold higher under better demand. Reports are coming in from the southwest and hot dry weather is doing some damage and this forced shorts to cover.

Primary wheat receipts were 983,000 bushels, against receipts last year of 194,000 bushels, against receipts last year of 194,000 bushels, and shipments were 304,000 bushels, and shipments were 304,000 bushels, and shipments of 39,000 bushels, and shipments of 29,000 bushels of corn, 12,000 bushels of corn, 20,000 bushels of corn secipts last year of 257,000 bushels, and shipments of 39,000 bushels of corn, 20,000 bushels, and unchanged on corn, 20,000 bushels, and unchanged on corn, 20,000 bushels, 20,000 bush

CHICAGO GRAIN AND PROVISIONS

Wheat Prices Sink to Still Lower NEW YORK GENERAL MARKET Level on Board of Trade.

Level on Board of Trade.

CHICAGO, July 23.—Wheat prices sank to a still lower level on the Board of Trade today, July dropping to \$1.11. or it below the low point of the previous session. The market closed weak at almost the bottom, at a net loss of \$4.01% c. Corn closed firm. Oats steady and provisions easy.

Fronounced weakness was manifest in the wheat pit nearly all day. The bearish influences were too overpowering for the bulls to attempt to conquer and the supporting of the market was left almost entirely to those who had "shorts" on previous sessions. The first rush of new wheat to market is now on in earnest and the prospects are for a heavy movement for some time to come. In addition to this, weather conditions in the northwest were extremely favorable for the spring sown wheat, which is now nearly ready for the reaper.

Foreign news was unmistakably bearish.

for some time to come. In addition to this, weather conditions in the northwest were extremely favorable for the spring sown wheat, which is now nearly ready for the reaper.

Foreign news was unmistakably bearish. During the day July sold between \$1.11 and \$1.12, while September ranged between \$1.11 and \$1.12, while September ranged between \$1.11 and \$1.12, while September ranged between \$1.13 and \$1.12, while September ranged between \$1.14 and \$1.12, while September at \$1.074, and \$1.0854. Final quotations on July were at \$1.114 and on September at \$1.075, Reports of damage to the new crop by hot weather in Oklahoma and Kansas had a strengthening effect on the corn market, sentiment in the pit being builts ail day. Prices at one time were about it cabove the low point of the session, but with the exception of the July delivery, all of the gain was not retained. The market closed strong, with prices \$4.250 above yesterday.

Oats held up well considering the favorable reports which came in regarding the new erop. The market closed steady, with prices a shade higher to \$6 lower.

Foor demand for the cash products had a weakening affect on the provisions market, which was rather heavy all day. Prices at the close were unchanged to 100 lower.

The leading futures ranged as follows:

GRAIN AND PRODUCE MARKET St. 25. No. 2 northern, \$1.27; July, \$1.28; September, \$1.07%.

WEATHER IN THE GRAIN BELT Renewal of Warm Spell is Promised for Saturday.

OMAHA, July 22, 1909.

The disturbance noted in the preceding report as central over the upper lakes has moved slowly eastward during the last twenty-four hours and is now central over the lower lakes. This disturbance caused light showers in the Mississippi valley within the last twenty-four hours and is attended by general rains in the lake region, Ohio valley and eastern states this morning. The area of high pressure overlying the upper Missouri valley and northern Rocky mountain slope Thursday morning is advancing slowly over the central valleys and has caused a general drop in temperature over the central valleys and wat gulf states. With the area of high pressure overlying the central valleys the weather will continue fair in this vicinity tonisht and Saturday, with warmer Saturday.

NEW YORK STOCKS AND BONDS Meeting of Steel Trust Directors is

Awaited with Interest. EXPECT NO DIVIDEND CHANGE

Less Fear that Failure to Declare an Additional One Will Be Attended by Slump in Price of the Stock.

the stock market today was significant a waiting mood on the spectimiors part, a event awaited with most interest is been needing of the United States Steel diof a waiting mood on the speculators part. It he event awaited with most interest is the meeting of the United States Steel directors next Tuesday to declare the quarterly dividend. Speculative opinion has about reconciled itself to the view that there will be no change in the dividend rate at this time.

There was less fear today that this will be attended by active selling of the stock and a decline in the quotation. United States Steel was steady and quiet today and conveyed the assurance by its action that the peg has been inserted again at above 70 which had been withdrawn successfully at 72 and at 71 on the downward course from the maximum price at 73, which was touched last Saturday.

A hopeful feeling was imparted to speculative holders of United States Steel by the action of Amalgamated Copper. The rise in this stock, which is paving a dividend at the rate of 2 per cent, to above 34, caused it to be cited as evidence of what could be done with the pricagof an industrial security paying 2 per cent and with prospects.

The recent 14 of 1 per cent quarterly divi-

number of hogs that sold yesterday as shippers had to go to the packers today at packers' prices, which means that they sold lower than similar hogs brought yesterday. On this account and also on account of the poorer quality of the receipts the sales do not show up nearly so well on paper as yesterday, the average market being lower.

Representative sales.

SHEEP-Contrary to popular market dope, the light receipts of today did not exert any strengthening influence to the

trade; in fact a decidedly weak undertone was apparent and a stow, quiet session resulted. This peculiarity may possibly be attributed to the kind of supplies offered for sale. The bulk consisted of rough, neavy range stock from Idaho and Oregon, mostly sheep and yearlings, buyers were not kindly disposed toward the big multions and the demand was unusually backward. Early sales, however, showed no material change and the general market, if such it can be called with scant supplies, is quotable as steady.

The market during the last five days has Light Run of Sheep and Lumbs, While

ble as steady.

The market during the last five days has presented no especially new features of consequence. Sheep stuff has held up pretty well during the week and today's level of prices is about where it was inst Saturday. On picked lots of offerings values are probably a shade stronger, while any strength exhibited by the more desirable grades is exhibited by the more desirable grades is offset by a weakness in medium and inferior kinds. As was the case last week young stuff from the range has caught most of the hammering and lambs are lower than last week's close. The extent of the break is open to argument for the reason that supplies have been irregular and the bulk of each day's receipts sonsisted of sheep stock. Today's lamb level however, as compared with last wast's Cattle Hogs Sheep.
2,981 2,596 6,396
9,321 6,454 6,036
1,635 6,983 2,585
2,183 6,513 8,009
672 4,752 1,540 sisted of sheep stock. Today's lamb level however, as compared with last week's close is generally conceded to be right around 25,500 lower. Receipts for the five days this week were 25,00 head, as compared with 5,000 head for the five days of last week and almost 25,000 head during the same period of last year.

Quotations on range sheep and lambs: Good to choice spring lambs, \$7,5007.75; typear: Tair to good spring lambs, \$5,0007.85; good to choice yearlings, \$5,0005.40; good to choice wethers, \$4,6005.00; fair to good week, \$4,538 everage lambs, \$3,5507.85; fair to good ewes, \$3,5507.85; The following table shows the receipts of cattle, hogs and sheep at South Omaha for the year to date, compared with last year:

1908. 1908. Inc. Dec.

HOGS-Receipts, 4,700 head; steady, early

here this morning. In fact not enough to make a market. More than that, the quality of the receipts was not very good, the arrivals consisting principally of trash of various kind for which the demand is never very brisk. The result was a slow and indifferent market, just the kind that might be expected with only a few loats of inferior stock on sale. Prices as a rule

Wool Market. Wool Market,

BOSTON, July 22.—The Commercial Bulletin of Boston will say of the wool market Saturday: Business is sporty and while some are selling well at full prices, dealers are accomplishing very few new deals. Large manufacturers are not buying heavily this week. The market is strong in sellers favor. Shipments of wool from Boston to July 22, inclusive, were 12,252,029 pounds, against \$1,844.518 pounds for the same time last year. Receipts July 22 were \$40,025,142 pounds, against \$14,603,848 pounds the same period last year.

ST. LOUIS, July 22.—WOOL—Unchanged: territory and western mediums, 23,270; fine mediums, 21,624c; fine, 125,18c.

Dry Goods Market.

ACSIN—Quiet; strained, common to good, \$12,000 bolis, shipments, \$16,521 bblis, average \$12,702 bblis, shipments, \$16,526,500 bblis, average \$12,702 bblis, \$16,500 bblis, \$

NEW YORK, July 23.—DRY GOODS—
The dry goods market holds steady with an increase noted in the demand for goods in the jobbing houses. Cotton yarns are somewhat quiet, due to the fluctuations in cotton, but the general trend is toward a maintenance of recent prices. The local wool market has been quiet for the week, with purchases of about 600 bags of July pulled wools reported at 45c and 47c per pound.

Business World Pleased Over Prospect of Conclusion of Long Struggle at Washington-General Trade Situation.

NEW YORK, July 23 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will

With the disturbing tariff soon to be out of the way and with crops that give promise of satisfactory dimension and of aggregate value, hundreds of inilitons of dollars in excess of the best previous record, business confidence is developing record. business confidence is developing rapidly, although it is noticeable that saterprise is not outrunning conservatism in buying for the distant future. Prices continue to advance in several branches of the iron and steel trade. It is believed that the leading interest will shortly follow the action of independent dealers in asking better terms for steel bars, plates and shapes, which have been in good demand since the recovery set in.

In dry goods expansion is noticed. Conservatism in production is still a feature, not only in cotton, but in silk and ribbon mills, but in some other directions when the character of the future demand is not clearly defined. The movement of goods from mills and agencies continues in good proportions. The increased volume of imports in textiles is due in some measure to the anxiety of the large houses to
