ASQUITH FOR FREE TRADE

British Premier Comments on Tariff in This Country.

HE CONDEMNS ITS METHODS

Liberal Party, He Says, is Firmly Opposed to Introduction of It—Advocates Lloyd-George's Budget Proposition.

LONDON, July 23.—Addressing a meeting of city men in defense of the budget, Premier Asquith declared the only alternative offered to Chancellor Lloyd-George's proposals for raising the new revenue necessary was the introduction of a tariff; but the liberals, he said, would not look at any suggestion for a tariff.
"Two great countries, the two greatest commercial rivals we have in the world," continued the premier, "have been trying their hands at tariff fabrications for the last two or three years. Germany, for two years, has had in operation a full-blown scientific tariff, and Germany's deficit is much greater than our own, and it has caused the downfall of one of the most powerful ministers in Europe. And if we look on the other side of the Atlantic they have just completed a revision of the Dingley tariff.
"It is not for us to speak disrespectfully or find pleasure and complacency in the troubles, struggles and misfortunes of our friends and neighbors; but when we are told that the sovereign remedy for our financial troubles is to create in Great Britain what has been created in Germany and what is just being created in America—a general tariff—we are entitled to look to the experience of those who have adopted these methods.
"And what is the cause of the new American tariff? Why, as far as I can make out, it is condemned by the whole American press and regarded by American people as a triumph of particular interests over general interests, for they see trusts and monopolies re-entrenched and reinforced in their long and too victorious campaign against the consumer."
Mr. Asquith added that unless there was a revolutionary change in public opinion here it would be impossible to carry a general tariff through the British house of commons. A vote of confidence in the government's financial proposals, following the premier's speech, was carried unanimously.

Father Will Not Help Young Victor

Alleged Murderer's Parent Believes Boy is Innocent, but Abandons Him to Fate.

BERKELEY, S. D., July 23.—(Special)—August Victor, father of Emil Victor, returned to his home at East Aurora, N. Y., today after visiting his son in the Brown county jail. "I am unable to do anything for my boy," he said, "and I might as well go home again. He has got himself in jail and will have to get himself out. I do not think my boy did this thing, and I am sorry that he has been accused. Our family name has had no stain on it, and we feel there will be none. Emil is only 19 years old. Instead of 23, as has been published, he has always been a peculiar boy from his birth, and I am inclined to think he is a little off."
The meeting between Victor and his father was an affecting one, though both restrained themselves from any outburst of grief. Victor did not know his father had arrived until he was ushered into the cell.
State Attorney Van Slyke and Sheriff Anderson have returned from a trip to Webster, where they interviewed Circuit Judge Frank McNulty and the judge agreed to call a special term of court to try Victor. It will probably convene July 31. If Victor pleads guilty, as appears probable after his confession, no jury will be called, and Judge McNulty will impose sentence, which may be life imprisonment or hanging, at his option. If the prisoner prefers to stand trial the special term will adjourn until a jury can be secured.

HELLO GIRLS ON A STRIKE

Force at Vermillion Walks Out and the Manager Runs the Switchboard.

VERMILION, S. D., July 23.—(Special Telegram)—Telephone service is crippled here today as the result of a walkout this morning by four young women operators, who allege that Manager Quick wants to advance them in position without raising salaries in line with the promotion. Manager Quick will preside at the switchboard until relief can be secured.

Killed in Auto Accident

SHEPHERD FALLS, S. D., July 23.—Mrs. Bronson of Jackson, Mich., was killed in an automobile accident here today.

LITTLE RATE WAR STARTS

Passenger Men Have Flurry Over the Fall Meetings.

CONCESSION OPEN TO THE PUBLIC

Eastbound Rates Reduced, but Travel is Still West—Ak-Sar-Ben and Corn Show Have Not Been Provided For.

The railroads are having a merry war among themselves over merchants fall meeting rates and the outcome seems to be that many reduced rates will be made through the west this fall. Ak-Sar-Ben has already applied for reduced rates, and the railroads are now considering the question, with the probability that the rate will be granted.
When the various railroads conceded reduced rates for the fall merchants' meetings it was with the understanding that they were to be strictly on the certificate plan, and that the railroads should not advertise these rates. Some of the roads have broken over these rules and a war is on.
The Burlington first announced that the rates would be open to the public, and the Rock Island took another step in advance of the agreement by advertising in the Colorado papers that the rates to Omaha, Chicago, St. Louis and Kansas City were open to the public. These violations of the agreement are leading to many complications and the situation is beset with troubles, as nearly all eastbound business from the west is now practically open to reduced rates.
Most People Going West.
The larger volume of travel through Omaha at present is westbound and the business to the east is light in spite of the special cheap thirty-day rates which have been made from this section of the country to eastern resorts. The business to the Pacific northwest, to Colorado points and to Yellowstone park is breaking all records and the railroads are taxed to their limit to handle the business. The travel is really remarkable.
Reports show that 30,000 through tickets to the Pacific coast were validated before June 15 in comparison with 8,000 during the same period last year. The Burlington's northwest train over the Northern Pacific runs in two sections north of Edgemoor every day. The Burlington's Great Northern train is also surprisingly heavy.
The opportunity to register for the government lands in the three reservations which are now being thrown open for settlement in a magnet which draws thousands through the Spokane gateway.
While the rates to the Nebraska State fair are practically assured, Ak-Sar-Ben and the National Corn exposition are still waiting on the passenger men's decision.
Harriman to Exploit Mexico.
Harriman lines in Mexico are preparing to make a large exhibit of the resources of the country through which these lines travel in Mexico at both the Ak-Sar-Ben and National Corn exposition. Nelson J. Rhoades, Jr. of the City of Mexico, vice president and general manager of the Sinaloa Land company, the largest holders of

OFFER FOR BOARD OF TRADE

Four Hundred and Fifty Thousand is Turned Down.

DIRECTORS DECLINE PROFFER

Omaha National Thought to Have Been the Party Seeking to Purchase at the Figure Rejected.

An offer of \$450,000 cash for the Board of Trade building has been rejected by the principal stockholders. The offer was made by Ernest Sweet, who is supposed to have been acting for the Omaha National bank.
The bank has already an option or what amounts to an option on the New York Life building, and officers of the bank have inspected that building no less than three times recently.
The Board of Trade building is controlled by a syndicate of stockholders, prominent among whom are Captain H. E. Palmer, Fred J. Adams and E. M. Morahan, Jr. At what figure they could be induced to sell is not known, but it is certain that the \$450,000 offer was turned down cold.
Some years ago the Board of Trade building could have been bought for \$100,000 or at least \$120,000, and refusing to sell at three times that figure is a telling illustration of the way real estate values have increased in Omaha in a decade. Meantime the income from the building has gone up, rents having been doubled and tripled. The book and news store which occupies the basement is paying the highest rental per square foot in Omaha. The building is 68,132 feet, standing on the southwest corner of Farnam and Sixteenth and it is generally held to be the best corner in Omaha at the present time.
The Baltimore & Ohio Railroad.
Low round-trip fares from Chicago to New York City, Atlantic City, Boston and other eastern destinations during July, August and September, 1938. Return limit thirty days. Stopovers at Pittsburg, Washington, Baltimore and Philadelphia. For information address W. A. Frenon, T. P. office.

NEW MEDICAL COLLEGE PLANS

Special Committee Meets and Appoints Subcommittee on Details.

A special building committee of the board of regents of the University of Nebraska met at the Omaha club yesterday afternoon. It was decided to appoint a subcommittee to confer with Architect McDonald and the Child Saving institute authorities relative to the latter's building. This committee, consisting of Dr. Harold Gifford and Harvey Newbrach, will meet with the Child Saving institute directors this morning.
Another subcommittee including Chancellor Avery and Regents Allen and Newbrach, was given power to select a firm of consulting architects for the new building. The firm of Shipley, Routan & Conledge of Boston, winner of the recent competition, is likely to be selected.
Present at the meeting were Chancellor Avery, Regents Whitmore and Newbrach and Drs. Gifford and Palmer Flindley.

FREIGHT TRAIN RACES WITH THE GLIDDEN'S AUTOS

Engineer E. P. Rogers Gives the Tourists a Merry Hundred-Mile Pull.

Engineer E. P. Rogers, at the throttle of a big Union Pacific freight locomotive pulling seventy loaded cars, had an interesting race with the Glidden tourists for 100 miles between Omaha and Silver Creek and if he had not had to sidetrack for a passenger train there he believes he would have beat the devil wagons to Kearney.
The train left Omaha at 4:30 Thursday morning and started the pathfinder car just south of Millard. At Valley, where the train stopped for coal, the pilot car and two or three others passed the train. From there until Columbus was reached it was a neck and neck race between the

KANSAS CITY WOMAN TO HEAD THE EASTERN STAR

Animated Election is Closing Session of the Order's Grand Convention in Omaha.

Lays Pipe Without Ditch

YANKTON, S. D., July 23.—(Special)—E. W. Crane, a houseowner of this city, has just invented, after months of study, a method of laying gas pipe without the expense of ditch digging and its attendant tearing up of streets and destroying lawns. A large crowd here watched the test of the invention and officers of the Yankton Gas company were greatly impressed. Four hundred feet of gas main was laid in three-quarters of an hour and the street was in as good condition as it was before. By means of a captain and team of horses Crane drives a pipe through the ground which also lays the pipe at the same time. The invention revolutionizes pipe laying of all kinds. A patent has already been applied for.
The N. M. Stark Concrete Bridge company of Des Moines was awarded the contract for a \$1,500 concrete bridge by the city council to be built across the Rhine creek on Burleigh street. A large number of contractors were here with bids.

BEWANT ADS ARE BUSINESS BOOSTERS

Following the installation the administrative degree was bestowed upon six newly elected matrons.

St. Louis was chosen as the location for the meeting of the next annual grand chapter.

The session was one of the most largely attended in the history of the order. The reports of the retiring officers show the jurisdiction to be in a prosperous condition, with an approximate membership of 2,000 at this date and the membership increasing rapidly. The endorsement branch of the order, which possesses insurance features, is in a prosperous state also.

The delegates express themselves as highly pleased with the entertainment and hospitality of their Omaha friends during the session, and particularly to Shaffer chapter No. 12, which had charge of the general entertainment features.

A number of the delegates left for their homes Friday evening, following the close of the grand chapter meeting.

Those that remained were given a reception Friday evening at the home of Assistant Grand Patron T. P. Mahammit, 2316 North Twenty-fifth street.

LAWLUIT OVER BRIDGE

YANKTON, S. D., July 23.—(Special)—Suit was started here today against the city of Yankton by John Quackenbush of Mason City, Ia., to recover about \$2,500 on a concrete bridge built for the city last
