Installation of Automatic Stokers at Armour's is Completed.

VOLUME OF SMOKE DIMINISHES

The Beseda society of the Catholic church will give a picnic Sunday at Sarpy Mills for Visit to Europe-Rumor of Injunction Suit Against City.

The last section of the automatic grate for Armour & Co.'s botters is being finished off and the whole system is now quite as off and the whole system is now quite as perfect as modern engineering can make it. The work of putting in the grates has been slow, for the reason that it was been slow, for the reason that it was perfect as modern engineering can make been slow, for the reason that it was necessary to keep the fires under the boil-ers all the time. Of the several boilers in the battery only one could be closed down at any time. The work of installing these grates has been going on for about three months or more.

the feeding bins of the grate and after that requires a minimum of attention. The consumption of coal is far less and the percentage of heat far higher than in the old shoveling process, with the open doors and uneven draft. The effect of the automatic grate is already seen in the volume of smoke from the high stack.

The mechanical feeders are supplemented by automatic ash carriers at the rear. This es away with a gang of men who usually had plenty of work keeping the grates from filling with ashes and burning out. Armour & Co.'s plant is now in charge

IRRIGATED LAND IN COLORADO---NEAR DENVER

That is under the best irrigated system in Colorado, that lies east of the Rocky mountains, which is the great Standley Lake Reservoir system. This land is close to the best market, where you always get the highest prices for what you grow, and the climate, nearly everyone knows, cannot be beat. The best paying crops are potatoes, sugar beets or alfalfa, outside of fruits, such as strawberries, cherries, grapes, raspberries and all kinds of vegetables. You can grow the best kind of small grain. In fact, you can grow almost anything you wish. Good land can be had close to town from \$100 to \$150 an acre.

On Terms of One-Tenth Cash, Balance One-Tenth Each Year Twenty to forty acres of this irrigated land will bring you in more money, with less work or worry than 160 acres not irrigated will produce, in the regular farming districts.
