and \$1.08, and Soptember between \$1.03% and \$1.08%.

Rains in Iowa, Missouri, Kansas and other sections of the corn belt removed all anxiety concerning the new crop and inspired general selling of that cereal, which resulted in declines of from 1%c to 2%c, compared with Saturday's close. The market closed extremely weak near the lowest point of the day at net declines of 1%filling to 1%c.

The slump in wheat and corn, a decline of the to 1%c in the price of the cash grain, and predictions of greatly increased receipts within a few days caused weakness in the cats market. The close was weak at declines of %c to 1%c.

Provisions closed 7%c to 1%c.
