

CASH FOR HARRIMAN'S USE

Union Pacific Has Fifty Millions Ready to Spend.

IMPROVEMENTS WILL GET IT ALL

When Head Returns from European Trip Executive Officers Expect to Get Busy on Extensive Program.

Although Harriman is in Europe on a vacation, the Union Pacific has raised \$50,000,000 in cash since his departure some weeks ago.

This money was raised by the sale of \$10,000,000 worth of Atchison stock and \$40,000,000 of Southern Pacific convertible bonds at a private sale.

Harriman needs millions to carry on the vast undertakings he has under way, and perhaps thought it might be well to raise the money by getting out from under a deal which had submitted the Harriman management to criticism on the ground of monopolistic intentions.

Both these latest Union Pacific transactions appear to render less likely the long discussed "segregation" of its investment holdings. One of the principal items which might have figured in such an arrangement has been disposed of, while Union Pacific's proportionate voting power in Southern Pacific has been at least potentially reduced from 45 per cent to about 33 per cent by the sale of the convertibles.

There is good authority for believing that Union Pacific is in process of disposing of some other investment acquired about the time of the Atchison purchase. If this proves to be the case it would not be surprising to find later on that the company has been concentrating its outside investment capital on not more than two chief connections with the eastern seaboard and the Gulf, all with the purpose of solidifying the vast transportation machinery which goes by the name of the Harriman system.

Harriman is just completing his new road into Mexico and this will require money, not only to build, but to colonize. This will be permitted to drag, as was the settlement of the western states, but the most modern methods will be used to induce tillers of the soil to take the land and make the entire country productive for the Harriman lines to haul.

Several branch lines and undertakings in Nebraska and Colorado and Wyoming have been hanging fire for some time, waiting for the time when Mr. Harriman thought he had the spare money to spend. One of these is the Omaha-Lincoln line, surveys for which were made two years ago.

The Omaha-Kansas City line is practically completed. The Topeka and Northwestern is nearly finished and considerable money has been spent on the line between Lincoln and Marysville.

Mr. Harriman said when last in Omaha that he needed money for double-track work and for equipment. Both of these have been fairly well supplied, and perhaps when he hears the ring of that \$40,000,000 in his jeans he will order work to start at once on the new headquarters building.

James Monick is Dead at Hospital

Injuries Received When Run Down by Joy Rider Prove Fatal to Young Man.

James Monick, 2304 Cass street, whose skull was fractured when his motorcycle collided with an automobile last Friday, died of his injuries at 10:30 yesterday morning at the Wise hospital.

His death has been expected hourly for several days. Chief Healey took charge of the body and will hold an inquest, probably Wednesday morning.

Walter Williams, colored, who, with another negro, was in the automobile at the time of the accident, is held by the police and may be complained against by the county attorney as the result of the jury's finding at the inquest. He is said by his employer to have had no right to use the machine.

Harry L. Payne, the other occupant of the auto, has been released by the police.

COAT AND VEST WERE STOLEN

William Sampson Locked Up After a Long Chase by Two Detectives.

"Shoot low! Shoot low! The coat and vest is mine!" Joe Eisenberg Jr. is said to have shouted to detectives as they fired several shots after a negro who was thought to have robbed the clothing shop owned by Eisenberg and Nathan Newman at 305 North Twelfth street.

When the negro was finally captured early Tuesday morning by Detective McDonald and Officer Herald and the stolen clothing was recovered by Detective Mitchell where the negro had disposed of it, the latter gave his name as John Davis, but he was found to be William Sampson. The coat and vest he wore were identified as being from the Chicago Cleaning and Dyeing works, where they had been stolen shortly before. They were worth \$5. Sampson's coat had been left in their place. A complaint charging breaking and entering was filed against Sampson immediately afterward and he was arraigned and pleaded not guilty.
