Farmers Grabbing Men from Roads
 Railroads Complain that They Cannot Keep Track Hands During Harvest Time.

Railroads are up against it for men for work in the west along the different lines in the grain belt. The farmers are taking their men away from them as fast as the railroads can transport men into the country to use in the building of double tracks and for section work. The farmers need the men to help in the harvest and are willing to pay more than the railroads will pay.

Monday some farmers saw a gang of fifteen men at work on the section and by the inducement of \$3 a day and a keg of beer took the men away from the Union Pacific. Some farmers in emergency pay as high as \$2 a day for good men who will work long hours and help put the crops out of danger's way.

Good Value is satisfaction.

HARVEST WAITS ON THE RAIN
 Wet Weather Is Keeping Farmers Out of the Wheat Fields in the North.

"Wet weather in the northern part of the state has delayed the wheat harvest," said C. Kupp, a cattleman of West Point. "Near my town the farmers have harvested about half their crop, but have had to stop this week because of rain."

"There is a big crop in our section of the state, though, and I believe it will harvest more bushels to the acre than any season for the last five years. Corn prospects are excellent. In fact, I never have seen better looking corn in Nebraska than there is this season. The farmers are practically assured of a banner year."

He was entertained at luncheon Wednesday noon by Colonel Charles Grotte. Mr. Mueller is a son of Fritz Mueller, one of Omaha's pioneers, who formerly resided on Vinton street and afterward operated the Scholls on the Midway at the Transmississippi exposition. PUBLIC MILLIONS IN BANK
 Collections of City and County Taxes Are Piling Up at Rapid Pace.

Collections of city and school taxes has reached the highest mark in the history of the city. City Treasurer Purdy reporting that he has on deposit in the city banks \$1,925,000.65 of city and school money. County tax money amounts to \$553,549.92, but this is not the high mark in county tax collections.

I promised I proved!

Writing advertising copy for a merchant—spending his money for him—is ticklish business if a fellow doesn't know how.

Six months ago I arrived here a stranger—the first week I was given a "try out"—the second week I was busy, and ever since I have been as much as the proverbial "cranberry merchant."

I MADE GOOD—every one of my first clients is my client TODAY—making money through my "15 years of know how."

A busy man "doesn't have to advertise" if you put it in that light, but I hope I am sensible enough to exhibit my own medicine.

One cannot tell what MAY happen—that's the reason I am advertising—just keeping in touch with the public.

Many a man would be content with my lengthy list of clients, but I am not. Maybe—perhaps—I could manage to squeeze in just one or two MORE clients if they do not compete with what I already have.

I already serve a ladies and children's outfitting establishment, a clothing, a shoe concern, a jeweler, a typewriter or man, a sheet music publisher, an art store, a cigar concern, a cycle and phonograph house, a bird store, a moving picture film exchange, a wholesale photographic supply house, and a whole lot of "extras" all the while.

But I will do no harm to have a talk with me whether we get together or not, for advertising is a mighty interesting subject.

So here's the name and address.

Foot Comfort Shoes

That's what they call our cushion sole shoes. And those who have worn them say: "There's more real comfort to the square inch in a pair of these shoes than any kind they ever saw."

It's the only real cushion sole shoe on the market—hand sewed, which makes it flexible and easy—made on a broad foot form last, which allows the foot to rest squarely on the sole as it should, and not on the uppers as most so-called cushion sole shoes do.

We have them for both men and women—
