Alfred Johnson, Josie Sweeney and Jessie DeLore of Omaha, whereby the plaintiff sought to obtain custody of his granddaughter and ward, Effie Johnson, 14 years of age, daughter of J. Alfred Johnson, and niece of the two other defendants.

June 13 Mr. Terry secured a writ of habeas corpus for the return of Effie Johnson from Douglas county to Beatrice. Dr. Carr Held to Grand Jury

Secretary of State Board Must Answer for Opening Dr. Sward's Mail.

(From a Staff Correspondent.) LINCOLN, Neb., Aug. 3.—(Special Telegram)—United States Commissioner Marley this morning bound over to the federal grand jury Dr. E. Arthur Carr, secretary of Governor Shallenberger's State Board of Health, who is charged with opening mail belonging to Dr. Sward, secretary of the old board.

Dr. Carr was represented by T. J. Doyle. His bond was fixed at \$500, which he furnished. Dr. Carr's defense was that he held an order from the assistant postmaster at Lincoln telling him he was entitled to open Dr. Sward's mail. It was brought out that this order was written after he had opened the letters complained of.

Dr. Carr opened two letters which had been written by Dr. Johnson, another member of the old board, to Dr. Sward. On the stand he said he opened the letters because as secretary of the new board, he believed they contained official information to which he was entitled. Furthermore, he produced a statement from the assistant United States attorney that he was entitled to the mail addressed to the secretary of the board until the court decided the law under which he was appointed was declared unconstitutional.

Attorney General Thompson testified that he had advised Dr. Carr not to open the letters but to take the advice of the postal authorities in the matter.

Dr. Carr took copies of the Sward letters and then sent the originals on to Sward.

FIGHT ON MEINER APPRAISEMENT. KEARNEY, Neb., Aug. 3.—(Special.)—Objections have been filed in Buffalo county court in the matter of appraisal of the Meiner estate. J. L. Creary, county attorney of Hall county, is the party filing objections, as a part of the Meiner land lies in that county. It is stated that the value placed on the land in this large estate is entirely too low and that at least \$65,000 could be added to the total appraisal.

County Attorney Easterling of Buffalo county is to file objections on the same ground and it is also stated that the appraisers were not sworn in and qualified according to law.

Farm lands are appraised at from \$40 to \$50 per acre and this is declared entirely too low for the land considering the excellent improvements on all the land. Considerable trouble has been had so far in the Meiner estate, which is valued at \$1,500,000 and is composed of farm lands in sections and half section tracts mostly.

Nebraska RULES ON RAILROAD RECORDS

State Commission Receives Information from Interstate Body.

HOW ACCOUNTS MUST BE KEPT

Railroad Attorneys Ask Delay in Hearing on Proposed Classification of Freight Rates.

(From a Staff Correspondent.) LINCOLN, Aug. 3.—(Special Telegram)—The State Railway commission has received from the Interstate Commerce commission its rules regarding the length of time records of railroads must be kept before being destroyed. The rules provide that the following records shall be kept permanently: Register of claims; register of vouchers or accounts, and indexes; register of accounts receivable bills; records of cost or inventory value of equipment; deeds and other title papers; general and auxiliary cash books; trial balance sheets of general and auxiliary ledgers; general and auxiliary files; general and auxiliary journals; files of annual reports to the Interstate Commerce commission and supporting papers; records of capital stock certificates; capital stock ledger; canceled interest coupons or trustee's certificate of destruction thereof; annual reports to stockholders; minute book; ledgers, journals and other records or memorandums showing in detail all the items affecting additions and betterment or expenditures for road and equipment; records pertaining to depreciation and replacement accounts; code and cipher books.

With the exception of a few items the remainder of the records must be kept seven to ten years. Some detached records can be destroyed at the end of three years. No records may be destroyed, except upon the written order of the president of the road or the executive head. A complete statement of the records destroyed must be kept on file permanently. The order became effective July 1.

Railroads Ask Delay. Railroad attorneys appeared before the railway commission today and asked that the hearing of the proposed classification of freight rates be postponed until after the federal court has heard and passed on the evidence in the cases now on file there.

It was argued by the attorneys that the rates in effect in 1907 and filed with the commission were not compensatory and that the rates proposed by the commission are not compensatory, and therefore, the commission should not take any evidence until this is passed upon by the court. The attorneys said it would take about three weeks to get all of the testimony introduced and they would be willing to go on with the case before the commission without waiting for the other case to go to the higher court.

The railroads were represented by W. D.

REPORTS AND ACCOUNTS. The Interstate Commerce Commission has forwarded to the State Railway Commission its rules governing the reports to be made by the various common carriers to the commissions. Several important changes are ordered from the present reports.

The distinction between additions and betterments has been eliminated. It is no longer permissible to charge such expenditures to income, profit and loss, or special funds in such a manner as to exclude any expenditure for additions and betterments from the property accounts in the balance sheet.

Operating expenses should be charged only in case the abandoned property (other than land equipment) is replaced; and the amount to be charged is now based upon the cost of replacing in kind the abandoned property instead of the original cost as provided in the circular.

Where property is abandoned and new road built, the value of the property thus abandoned must be deducted from the expenditure.

A single account, "Equipment," has been substituted for the various accounts formerly covered by the various classes of equipment.

MIXED OVER SAMPLE BALLOTS. Secretary of State Junkin is having a bushel of trouble with certain county clerks over the make up of the ballot. The secretary certifies out a sample ballot, which contained the names of the state candidates, and he has received back a sample which contained the names of not only these candidates, but also county and precinct candidates. The secretary, acting under the law enacted by the state legislature, section 17, election laws, holds that precinct officers, township officers and municipal officers in cities under 25,000, are nominated by caucus and are not affected by a primary.

He so notified the county clerk of Thayer county, who came back at him with an opinion by the county attorney of that county to the effect that these officers had not been exempted by the primary law. This opinion, however, was based on S. F. 109, which fixes the date of the primary.

One sample ballot sent back to the secretary contained the addresses of the candidates, which is prohibited by the law, but it took an order from the secretary of state before the printer would consent to make the change. On this ballot Harvey Newbranch appeared from Omaha as a populist and from Lincoln as a democrat. The secretary of state believes that this is stretching the nonpartisan business too far.

It was transferred to Justice Bacon's court on a change of venue and was appealed from there.

BONDING COMPANY SUE. John Rakes, Jr., has brought suit in the district court for \$3,000 against the Lion Bonding company of Omaha, charging that while intoxicated by the liquor sold at the Schneider saloon in Nebraska City he attempted to board a train and had his leg crushed so that it had to be amputated. The accident occurred on the Missouri Pacific railroad on June 3, last. The suit is brought by John Rakes, Sr., the young man who was injured being under age.

DESERPTION SUIT IS FILED. Edna McCabe of Lincoln filed a suit in the district court Tuesday afternoon alleging cruelty and desertion by her husband, William B. McCabe. Mr. and Mrs. McCabe have lived at Wayne for several years, but the wife asserts that she came to Lincoln some time ago because she was unwilling to live with her husband's mother, where she says that she was compelled to do more than her share of work. She asks separation and alimony sufficient to support her and her child.

Lad Flags Train; Says that Bandits Tied Him Down

Wreck on Burlington Near Crawford is Averted by Quick Work of Engineer.

CRAWFORD, Neb., Aug. 3.—(Special.)—Quick work on the part of Engineer Wade on Burlington train No. 36, ten miles out from Crawford about midnight last night, saved the heavy train from being a complete wreck. Steel rails had been chained to the track and these would have wrecked the train, as it was going at a good rate of speed. An 18-year-old farmer lad, Chris Berger, flagged the train and called the attention of the engineer to the obstruction. His arm was badly wounded and at first he said he had been accidentally shot by the discharge of a gun and later he said that he had been bound to the track by two masked

bandits and had been able to wrench himself loose just in time to flag the train. He is now held awaiting further developments. Berger now claims that he had nothing to do with the job, but was at that point to flag the train to go to Alliance when the masked robbers bound him to the track. It is reported that the train carried \$20,000 in gold bullion, billed from Butte to New York City, but the railroad officials will not confirm this statement.

A SINGLE SET OF CUTICURA CURED HIM

"I feel it my duty to let you know with what success I have used the Cuticura Remedies. When our baby was only a few weeks old he broke out with what we thought was heat but which gradually grew worse. We called in a doctor. He said it was eczema and from that time we doctored six months with three of the best doctors in Atchison but he only got worse. His face, head and hands were a solid mass. There was no sleep for the suffering for him. We had to tie his little hands to keep him from scratching. He never knew what it was to sleep well from the time he took the disease until he was cured. He kept us awake all hours in the night and his health wasn't what you would call good. We tried everything but the right thing. Finally I got a set of the Cuticura Remedies and am pleased to say we did not use all of them until he was cured. We have waited seven months to see if it would return but it never has and today his skin is clear and fair as it possibly could be.
