## The Increased Cost of Woolen Fabrics

The new tariff on woolens will advance the price on clothing from 15 to 25 per cent in all stores buying in the usual way.

This store is an independent buyer of fabrics. It anticipated the raise and forestalled its evil effects by buying 8 months ago for Fall and Winter '09 and '10 and Spring 1919.

Our policy is always to give patrons the advantage of our buying methods-and we can faithfully promise as low prices for the next year as for the past year-what other store can do it?

Windows number 1, 2, 3 are now devoted to a display of fabrics-while we display less than 1 per cent of our patterns, there are enough to give you an idea of the class of materials that enter into our garments.

So far as we know this is the first store in the country to make a display of this kind in advance of the season-we do it because we will have no apologies to offer for our fall clothes.

We invite your attention to the display and your inspection our superb fall clothes now being received.

# Our Ginger Root Comes From Jamaica

Just because ginger ale is imported doesn't mean that it's the best on the market.

We go to Jamaica for our ginger root. We make the extract in our own factory. So we know it's exactly right. We could use pepper or buy cheap extracts at an enormous saving.

But the ale would lack the flavor of Hydrox. No imported ginger ale that we know is more expensively made. We couldn't make better ginger ale if we doubled the price to you.

There are many imported ginger ales that were never so good as sparkling Hydrox. You pay a duty on them all and often the brand is inferior.

Compare Hydrox

There'll be no doubt about this if ou'll compare several brands with Hydrox. Put them all to the test of comparison. Then drink, after that, the ginger ale you like best. Compare the color, the sparkle, the

Hydrox's Enticing Flavor The flavor is the result of a perfect blend from extract of ginger root,

We make the extracts from the fruits themselves. We buy the most luscious fruits on the market.

ripe fruits can be bought for less than it costs to make ours. might use saccharine. We use 25 pounds

of sugar to do what one ounce of saccharine does. But sugar is 97% nutriment. It produces more energy than wheat. We are made from a special metal and have even make our own carbonic acid gas. expensive lock joints instead of the That's where the ale gets its sparkle. We make it from bi-carbonate of soda. This gas stimulates bowel action naturally-just as natural exercise does

Our water is double distilled and aerated. This water is an excellent solvent. We Age Our Ginger Ale

The result is a blend of such smoothcosts to make ours.

We use the best table sugar when we it if you didn't know.

Each bottle is twice inspected before and after filling. We carry purity to the extreme. Even the carrying pipes in our factory usual soldered joints

Judge by the Facts

Judge by these facts, as we told them, if you want to try sparkling Hydrox Ginger Ale. Decide if you want to pay higher prices for the imported brands. Sparkling Hydrox Ginger Ale is aged dealer's named below. Then order a
