BIG ELEVATOR TO BE BUILT

Council Grants Permit to Install Side-tracks and Switches.

WORK WILL BEGIN MONDAY

Alfalfa Meal Company Asks City to Vacate Street Running Through Site of Its New Plant.

The city council at a special meeting yesterday morning granted the Middle West Elevator company permission to install side tracks and switches on First avenue for the elevator which the company will erect at the southeast corner of Thirty-sixth street and First avenue.

C. E. Newinger of Omaha, representative of the Middle West Elevator company, announced after the council had acted favorably on the request that work on the construction of the elevator would be commenced next Monday.

The Alfalfa Meal company, which plans erecting a new plant on the north side of First avenue between Thirty-second and Thirty-fourth streets, was before the council with the request that the city vacate to the company the portion of Thirty-second street running through its property.

The company in return will deed to the city sufficient ground to make an alley along the north side of the property twelve and one-half feet wide.

An ordinance vacating the portion of the street desired is to be prepared and presented at the meeting of the city council next Monday, at which time it is understood favorable action will be taken in the matter.

The Alfalfa Meal company has for several years conducted its business at Twelfth street and Tenth avenue, but a larger plant was deemed necessary. The securing of the site in the western part of the city has taken several months. The last lots needed to fill out the site desired were only obtained about a week ago.

Work on the construction of the new plant, it was stated yesterday, would be begun as soon as the ordinance vacating the portion of Thirty-second street was passed by the council and the buildings are to be completed some time in the fall.

AUTO SPEEDERS FORFEIT BONDS. Police Make Two Additional Arrests on Lower Broadway.

The municipal strong box was enriched \$30 yesterday by the arrest of speeding automobilists. J. P. Cummings of Omaha, arrested Thursday for exceeding the ten-mile limit on Lower Broadway, which Judge Snyder has decided is a business thoroughfare, failed to appear in court yesterday. He has no money to pay his appearance before Judge Snyder this morning. Mucci is also said to have displayed too much speed.

Judge Snyder is himself an autolot and took a spin along Lower Broadway to ascertain how fast ten miles an hour seemed. His speedometer showed that while the judge thought he was keeping within the limit he was, in fact, going about twelve to fifteen miles an hour.

"Ten miles an hour is almost crawling for an automobile," said Judge Snyder. "If I have no option in the matter when the law says the limit shall be ten miles an hour, it must be ten miles and no more."

Tip to the arrival of Mr. Bailey here young Gidley had refused to tell the police where he got the articles. He weakened, however, when Mr. Bailey identified the goods and told the police that he had hidden four other pairs of shoes taken from the Bailey store under the sidewalk at Fourteenth street and High street. An officer who was sent to the place found the shoes. Bailey, who returned to Percival yesterday, will file an information against young Gidley and he will be held here until the arrival of an officer from there.

CLARK DEFENDS MINORITY

Leader of Democrats Denies Party is Divided by Tariff Fight.

RECOUNTS HISTORY OF STRUGGLE

Says Democrats Have Come Out of Battle More Thoroughly United Than They Have Been for a Generation.

WASHINGTON, Aug. 6.—In reply to what he terms "the misrepresentations of democrats in the papers," Champ Clark, leader of the minority in the house of representatives, today gave the following statement regarding the course of the democratic members of the house in connection with the consideration of the Payne bill:

"Many newspapers—generally republican or non-republican—and more individuals, keep mouthing about the dissension among the house democrats and the perfect unity among house republicans, notwithstanding the truth known of all men who care to know, that the house democrats came out of the tariff fight more thoroughly united on that question than they had been in a generation and the republicans came out of it worse shattered than ever before."

"Some papers, either through carelessness of malice, have gone so far as to say that had the democrats not been absent in large numbers unpaired we would have defeated the conference report on the tariff bill. There is not a syllable of truth in it."

"Now mark how plain a tale will put them down: On my motion last spring to recommit the Payne bill with instructions— which instructions constitute a comprehensive democratic platform so far as the tariff is concerned—all democrats voted for it except four. On the Payne bill itself, voted on immediately after my motion to recommit was defeated, the republicans lost one vote and the democrats lost four, a net loss to the democrats of three—a more nearly unanimous democratic vote than has been cast on a tariff bill in a generation."

"Let's examine into the competitive majority among democrats and republicans. On Mr. Payne's motion to recommit the conference report all the democrats except one voted for it and twenty republicans with us, so that the republican machine was victorious by only five majority, although they had a majority of forty-five in the house. Of that vote there were absent six democrats and five republicans. Among those absent, four democrats were paired with four republicans, leaving two democrats and one republican absent without pairs. If the two democrats absent without pairs had been present and had voted by three, we would have been defeated by one vote. On that vote to recommit the conference report the democrats voted more solidly than ever before since the close of the civil war, while the republicans were weakly divided
