HOPEWELL HAS BUSY DAY
 Grants Two Requisitions and Starts for Home.
WHEAT NEEDS HIS ATTENTION
 Interurban Denied Privilege of Putting in Ten-Cent Fare from Omaha to South Omaha.

(From a Staff Correspondent.)
 LINCOLN, Aug. 12.—(Special.)—Acting Governor Hopewell, who reached the executive office shortly after noon today, broke a record and set a precedent in the disposal of requisition matters. Immediately after reading the papers in the requisition issued by the governor of Illinois for the return to Chicago of Edward Pospisil of Omaha on a charge of wife abandonment, he honored the same. It required about ten minutes to read the papers and question the man's wife and announce his intention. Governor Shallenberger had a hearing on the matter a week ago and then left for Acting Governor Hopewell to finish.

Pospisil was convicted of wife abandonment three years ago in Chicago and was ordered to pay his wife \$4 a week, giving a bond to guaranty the payment. After paying in \$50 he left the city and was located in Omaha working in a barber shop and, according to his wife, who followed him, living with another woman. Under the statute of Illinois, the attorney general informed the governor, when bond is given to pay money in a case like this, this bond merely suspends judgment, and if payment is not made then the sentence of the court may be carried out and the guilty man sent to jail.

"I am going home tonight," said Acting Governor Hopewell, "for I have a lot of work to do. I am in the midst of harvesting and only came down today to clean up some business in the office of the governor."

Acting Governor Hopewell has only 500 acres in wheat this year and of this about 150 acres is yet to be cut, the wet weather having interrupted the work.

"We are threshing and cutting in the same field," said the governor, "and the yield on a part of the land is thirty-five bushels to the acre. Crops never in all the history of the state looked as well as now in the northeast section of Nebraska. Corn is looking fine and the hot weather has not yet bothered us, though it may have done some damage in other sections."

Ten-Cent Fare Denied.
 The application of the Nebraska Traction and Power company to install a 10-cent passenger rate from Omaha to South Omaha has been denied by the State Railway commission. The company, which has a line from Omaha to Ralston, filed with the railway commission its schedule of rates, which provided for a 12-cent rate to Ralston and a 10-cent rate to South Omaha. Inasmuch as the Omaha & Council Bluffs Street Railway company has a 5-cent rate to South Omaha from Omaha the commission balked at giving the other company authority to charge 10 cents. The new company explained that it had a contract with the old company by which it agreed if permitted to use the tracks of the old company it would not compete for local business between the two cities, but would cater strictly to interurban trade. For that reason it desired to put in the higher rate.

Ruling on Train Law.
 Attorney General Thompson has given an opinion to the State Railway commission regarding the law providing for a full crew on trains. The attorney general holds that in referring to a train of five cars the law means five cars, whether they be baggage cars or any other kind of cars, and it is not necessary for the train to be composed of five passenger coaches to come under the provisions of the law. In the same opinion he holds that the conductor is not responsible for the taking out of a short crew, composed of less men than the law provides. The officials responsible under the law are those who have the authority to give orders relative

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Graniteville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—Mrs. CHAS. BARCLAY, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says it is "worth mountains of gold" to suffering women.

Troop 44 at Soldiers' Home.
 Joe McGraw, former adjutant at the Soldiers' home at Grand Island, has paid the penalty for objecting to the way Commandant Barnes is running the institution. He has been asked to resign. And it is supposed by this time his resignation is safely stored away in the archives of the governor's office. McGraw is one of the men employed at the home who was popular with the members who objected to the management. Some time ago letters were received by the state board that members feared that they would be dismissed from the home for objecting to Commandant Barnes and the board promised to see that they were not, but the

 board did do nothing for Mr. McGraw, former adjutant.
COMPLAINING WITNESS PLACED UNDER ARREST
 Nebraska City Man Alleged to Have Taken Money to Drop Case.

NEBRASKA CITY, Neb., Aug. 12.—(Special.)—Some days since Dusen Smilenich, an Austrian, who was rooming with three other men, robbed them and cut up their clothes, after which he left the city and was arrested at Omaha and returned here for trial. Before the case was called for trial the man who claimed to have been robbed, John Miller, settled with Smilenich's friends and agreed not to appear against him. The county attorney did not like this manner of doing and had the sheriff file a complaint against Miller, charging him with compounding a felony, and he was arrested and will have his hearing August 17. Smilenich was taken into court and pleaded guilty and was given a jail sentence.

Want Quarantine Reversed.
 STROMSBURG, Neb., Aug. 12.—(Special.)—At a public meeting held here last night at the instance of the mayor, to advise with the local Board of Health as to the quarantine regulations that have existed the last month relative to the epidemic of spinal meningitis, the majority of the citizens voiced a protest against the continuation of the quarantine as to public assemblies. It was pointed out that the last cases of paralysis in this city occurred nearly three weeks ago, and that all of the sufferers locally were practically well; that many of the surrounding towns had suffered far more during the same period than this city, but were permitted public meetings, nevertheless. Hence the people of this city feel that they are being discriminated against harshly in view of the now almost complete eradication of the disease locally. A resolution was unanimously adopted calling upon the local Board of Health to revoke the order prohibiting public meetings, but approving of the strictest quarantine of new cases, should any arise.

Rain is Needed.
 HASTINGS, Neb., Aug. 12.—(Special.)—Corn in this section is beginning to suffer from lack of moisture. The rainfall during this far this month has been far below normal.  DORCHESTER, Neb., Aug. 12.—(Special.)—Mr. Ed G. Maxfield sold his farm, which was one and a half miles northeast from Dorchester, to Andrew Kramer, for \$12 an acre. This is the highest price paid for land here for some time.

TWO COURTS IN DISAGREEMENT
Judge Estelle Grants Injunction Against City Where Federal Court Ruled Other Way.
 A permanent injunction has been granted the Omaha & Council Bluffs Street Railway company to prevent the city authorities from putting its wires under the ordinance which restricts its activities to furnishing electricity for traction purposes only. Judge Estelle held that the city had no right to interfere if the company desired to furnish light or power to other corporations, although it was specifically mentioned in the charter that this is allowable. In a recent suit on the same question brought by the Electric Light and Power company in the federal court the decision was in favor of the city.
