NEW YORK, Aug. 13.—Operators in the stock market today concerned themselves almost wholly with the affairs of the Union Pacific. Rumors of coming financial developments in this respect were circulated, but they did not seem to hold the general list of stocks against the pressure of realizing sales, which are piled constantly.

The Union Pacific stock itself advanced to 215, common stock to 115, and preferred stock to 115. It is said that the company is planning to retire the preferred stock, it is reported to stock market operators as a matter of fact.

DUN'S REVIEW OF TRADE

Business is Rapidly Adjusting Itself to New Tariff Schedules. IRON AND STEEL ACTIVE

Encouraging Reports Received from All Important Cities—Activity in Wholesale Dry Goods Markets. NEW YORK, Aug. 13.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

All branches of business affected by the new tariff law are rapidly adjusting themselves to the amended schedules and the ending of the period of uncertainty as to what to do is being rapidly passed.

In the iron and steel trade each week shows a steady increase in volume of business to the mills, and in greater degree to the consumers.

The dry goods trade has been steady and conservative, many retail buyers being registered in the large central markets.

Improvement is more manifest in general trade, and the feeling of conservatism hitherto noted, which makes for small and frequent orders, is passing away.

Business failures in the United States for the week ending August 13 were 219, against 198 for the week ending August 12, 1908.
