THE OMAHA SUNDAY BEE: AUGUST 15, 1909.

Closing Out Sale of 117 High Class Buggies, Carriages and Delivery Wagons

\$37,000 worth of peerless built vehicles seek instant purchasers at 25% to 50% reductions, some going at even less than "cost to build"

12,000 feet of floor space must be created in 30 days-to make room for automobiles, a shop for building automobile tops, and for auto repairs

Read what "Drummond" himself has to say about it

"I am forsaking the buggy business to enter the automobile business on a VERY large scale. Not only am I going to sell more automobiles than ever, but I am going to do MORE auto rebuilding and repairing than ANY other concern in this part of the country. I've an enormous space in this building of ours if only I could use it ALL for automobiles, but in selling out every buggy, carriage and delivery wagon I will GET this additional space-12,000 feet of it. I am in earnest about this selling-am offering every inducement within reason-will give you the grade of vehicle that has put 22 years of flawless reputation back of a "Drummonnd" buggy. "Drummond" vehicles are known the state over, and I propose to make this selling attractive enough to BRING in purchasers from all parts of the state. In fact, I am going to pay your railroad fare to Omaha and back, from any point within 100 miles if you buy a vehicle of ANY kind. Make a note of it that a GOOD buggy is a more treasured possession than ever-despite the prevalence of automobiles-remember that a high class buggy is just as costly as ever if bought in the regular way. It costs more than ever to produce a vehicle-skilled labor is higher and so is material. See my place in a few weeks from now and you will see it ENTIRELY devoted to the making of automobile tops and bodies, and the repairing and display of automobiles. I MUST sell 117 vehicles soon and the prices below will sell them. I haven't room to list ALL the styles in this announcement-merely 10 of 'em-but the other 107 are JUST as big values."
