street succumbed at Thirteenth and Lawrence streets while walking his heat about 4:40 o'clock Monday afternoon. He was taken to his home in the police automobile.

HARRY JOHNSON, 2015 Martha street, a laborer, while on his way to St. Joseph's hospital where he has been receiving treatment, fell at Twelfth and Castellar streets. He was taken to the hospital and treated by Dr. R. B. Harris.

ARTHUR E. SMITH, 1620 Maple street, an employee of the West City Coal company, went out at Fifteenth and Madison streets. He was treated by Dr. Bishop and taken to his home in the police automobile.

UNIDENTIFIED MAN, weight 250 pounds picked up under the Sixteenth street street at Marcy street and Madison street. He was taken to St. Joseph's hospital and treated by Dr. Harris and Shumack. His condition is serious, but he may recover.

UNIDENTIFIED MAN, picked up in the Howell Coal company yards at 5:30 o'clock Monday afternoon. Taken to St. Joseph's hospital. Will probably recover.

C. O. GRAHL, living at 109 Bloomer street Council Bluffs, was removed to the Edmundson Memorial hospital last evening in an ambulance in a delirious condition from the heat. The attending physician said he expected Mr. Grahl would recover.

Three men, names not known, were overcome at Thirty-ninth and Ames avenue while working for W. L. Hamilton on some new buildings. All were taken to their homes. A number of other men employed at the same place stopped work on account of the heat although none of them were overcome.

Ice Men Hampered. A feature of the hot weather which made it all the more unaffordable has been the inability of the ice companies of the city to supply the demands of their customers. This is not on account of any scarcity of ice, but is brought about through lack of teams to haul the wagons.

So many horses have gone down under the heat that all the companies are badly crippled in this regard and they have encountered the further difficulty of being unable to rent or hire any as owners refuse to let out their stock while the present heat wave continues.

There was much complaint from customers who were unable to get as much of the cooling element as they desired, but the ice companies were up against a physical difficulty they could not overcome.

Boy Drowned in Rapids of Niagara River

August Sporer, Caught in Sweep of Current, Makes Strong Fight for Life.

NIAGARA FALLS, N. Y., Aug. 16.—Eight-year-old August Sporer of this city drowned today in the whirlpool rapids. He was with three companions, Sporer went for a swim in the river at the former Mill of the Mill landing. He struck out at once for the middle of the stream and then turned toward the bridges. His companions called to him to turn back, for the current is very swift at that point, but he kept on down stream and was caught in the great sweep, the first break from the smoother waters to the rapids.

The boy struggled for a time against the current, but to no avail. Then, realizing that he was beyond human help and was to be carried through the rapids which took the life of Captain Webb, and which resisted every human effort at passage, he deliberately turned down stream and began a grim fight for life.

Not in all the history of the river has such a brave effort been witnessed. Although but a frail boy, he went into the rapids swimming strongly and held his own until he struck the giant wave, which curving up behind the old battery elevator. Then he went under and for a second was lost to sight of the score of persons who stood on the lower arch bridge.

Again and again he disappeared, only to reappear each time fighting desperately against the terrible current. Then, when within 30 yards of the whirlpool, his strength gave out and he sank and was lost to view.

Even then he had swam perhaps 100 yards further than did the great English swimmer, Captain Webb.

The body can now be seen in the whirlpool, where river men are awaiting for it to be brought in toward shore far enough to be recovered.

Indiana Plan Is Approved

Prison Association Favors Prevention of Propagation of Criminals and Idiots.

SEATTLE, Wash., Aug. 16.—The debate of the American Prison Association congress today on the "Indiana plan" for preventing the propagation of criminals and idiots, developed almost unanimous approval for the plan. The discussion, according to President Gilmour, of Toronto, Canada, was the most profitable he has ever had in his 25 years of association with the prison work.

The report of the committee on prevention and probation, presented by Judge Sen Lindsey of the Denver juvenile court, said in part:

"Our criminal law, as it came down to us through feudalism, was an instrumentality of government, far from perfect even for the purposes for which it was intended. Admitting that it was necessary and justifiable as a system in that period of social development, as we are more than ready to admit it must do more harm than good as long as it rests alone on force, violence, vengeance and punishment.

"The time may come, however far in the future it may be or how unprepared we may be for it now, when the state will come to deal with a criminal much as we now do with the insane.

"But this treatment of the criminal will be as unlike the treatment of the insane, of stripes, iron cells and other reminders of degradation as it is in the treatment of the insane, who within a century were as completely brutalized and degraded as convicts are now."

Mrs. J. Ellen Foster of Washington, spoke on "The Harmonious of Progress" and Ed. Brown, of Frankfort, Ky., on "Probation in the South."

STEWART IS NOW CHIEF

Chicago Aldermen Confirm Appointment of Successor to Shipley.

CHICAGO, Aug. 16.—Chicago aldermen in special session today confirmed the appointment of Colonel LeRoy T. Stewart, as chief of police to succeed George M. Shipley, resigned.

Colonel Stewart was superintendent of the city's delivery in the Chicago postoffice, and resigned that position Saturday.

WASHINGTON, Aug. 16.—Approximately 163,000 acres of non-irrigable land located in the vicinity of Newcastle, Wyo., were today designated by the secretary of the interior for settlement under the new homestead act. This makes the total of such designations to date in Wyoming, 1,130,800 acres.

Union Pacific Takes Tumble on Selling Orders

Common Stock Goes Up to 219 and Then Drops Back Again to 214.

NEW YORK, Aug. 16.—Union Pacific common stock, which has been pursuing an upward course steadily for the last few weeks, experienced a sharp setback in the stock market this afternoon. After closing at 217 1/2, the stock opened at this morning at 219, but this new high record price brought out a flood of selling orders and it soon went back below Saturday's closing price.

On the decline the market became inactive, but this afternoon various reports were circulated to depress the price, and shortly after 3 o'clock a sharp selling movement set in. This uncovered a number of orders to sell when the decline reached a certain figure and the price quickly broke to 214, a loss of five points from the high point of the day and of 2 1/2 from Saturday's closing price.

Reading, New York Central and Southern Pacific were affected by the decline, but the general market was only slightly influenced.

Montana Man is First at Spokane

Allen Newton Draws No. 1 in the Last of the Three Land Lotteries.

SPOKANE, Wash., Aug. 16.—Allen Newton, aged 24, of Helena, Mont., drew No. 1 in the Spokane reservation land drawing today.

The winners of the highest numbers in today's drawing for the Spokane reservation are the following: No. 1—Allen Newton, Helena, Mont. No. 2—Mabel D. McMickle, Chicago. No. 3—Ray J. Snoddy, Miller, S. D. No. 4—David Metzer, Springfield, Ia. No. 5—Clifford C. McCoskey, Piedmont, Kan. No. 6—David C. Ruhl, Ord, Neb. No. 7—Coeur d'Alene, Mont. Aug. 16.—The shortest of the three great Indian land drawing took place here today. The Spokane reserve, the hilly, timbered strip of land lying just north and east of the junction of the Spokane and Columbia rivers, furnished the prize, and dainty Harriet Post, the 12-year-old daughter of Attorney Frank T. Post of Spokane, selected the blue envelope holding the first winner's name.

There were in all 99,907 applications. It is believed that on some of the lands to be disposed of today valuable water rights and choice fruit tracts may be found. It is possible also that good mineral deposits may be discovered. Superintendent James W. Witell, having decided that only 250 names should be drawn for this reservation, the task was an easy one for the trained force, and before noon the fate of 99,907 applicants who failed to get numbers had been settled.

Two residents from Ord, Neb., were added to the list of applicants from that city, who have been successful in the drawings for the reservation, when David C. Ruhl, of Ord, Neb., drew No. 1 on the Spokane reserve, and Henry Metzer, of Springfield, Ia., drew No. 2.

Ten Are Injured in Gas Explosion

Seven Men and Three Women Caught in Accident—Two Are Likely to Die.

CLEVELAND, O., Aug. 16.—Seven men and three women, two of whom may die, were injured early today when an explosion of natural gas wrecked the four-story building occupied by the Wierick Moving and Storage company. Most of the injured were employees of the storage company.

Following the explosion seven buildings in the neighborhood caught fire, but quick work by firemen saved them. The property loss was \$100,000.

Sutton Court Signs Verdict

Findings Sealed and Sent to Washington for Review by Naval Department.

ANNAPOLIS, Md., Aug. 16.—The Sutton court of inquiry closed today after two secret sessions during which the testimony relative to the death of October 13, 1907, of Lieutenant James N. Sutton, Jr., U. S. M. C., was given over thoroughly. The findings were reached and signed to-night. What they are the members of the court refused to say, as they will be reviewed by the Navy department at Washington before being made public. The findings were signed by the members of the court and by Judge Advocate Leonard, who returned to Annapolis from Washington for that purpose. Major Leonard, guarded by a sergeant of marines, then left Annapolis carrying the court's report to him for delivery to the Navy department.

Harriman Said to Have Control of New York Central

Acquisition of Road Would Give Him Line from Coast to Coast.

NEW YORK, Aug. 16.—A report that E. H. Harriman has obtained an option of a controlling interest in the New York Central lines, which, if exercised, will give him control of a through route from the Atlantic to the Pacific oceans, was circulated on the stock exchange today. Such a route has been the dream of railroad men for years. The option taken by Mr. Harriman is said to cover about \$50,000,000 worth of New York Central stocks, a large part of which was formerly controlled by the Vanderbilt interests. The price at which the stock may be taken over is said to be \$100 a share.

It was pointed out that the acquisition of the New York Central would give Mr. Harriman an ocean-to-ocean route by way of the New York Central, Chicago & North-western, Illinois Central, Union Pacific and Southern Pacific.

Electric Line Across Missouri

Double Track High Speed Road from St. Louis to Kansas City is Planned.

ST. LOUIS, Aug. 16.—According to an announcement made tonight a double track, high speed electric line, pursuing the shortest route between Kansas City and St. Louis is to be the object of a company which is to be incorporated at St. Louis with a capital of \$10,000,000. It is announced that the right-of-way has been obtained, plans worked out for entering Kansas City and St. Louis and options taken on property for terminals.

W. D. Nevin and Harry Insley, Denver; Daniel E. Miller, former head of the Brooklyn Street Railway system, several Kansas City bankers and W. H. Chase, B. F. Gray and Edgar D. Tilton, St. Louis, are named as the leaders in the organization.

In mapping out the route, it is stated, little attention has been paid to cities and towns, the aim being to construct a short line for through traffic with branches to the principal communities adjacent to the right of way. Freight as well as passenger traffic, will be handled and the main offices will be located in St. Louis.

NO STRINGS ON ME

If I am elected county commissioner no special interests will have strings on me. My sole aim will be to see that the county's business is run open and above board and on a business basis, and that everyone having business with the county gets fair and equal treatment. I will not favor specially any interest, or taxpayer, or contractor at the expense of any other or of the county. I will give the merchant the same consideration as the real estate owner, and the home owner and farmer just as good treatment as the big corporation.

I respectfully solicit your vote.

JOHN A. SCOTT,

Republican Candidate for County Commissioner, First District, 4th, 7th, 8th and 11th Wards.

knew perfectly his condition and made an effort to find his way home, yet being unable to see, he spent the afternoon wandering about his mother's cornfield and that of a neighbor by the name of Blank.

PLATTSMOUTH, Neb., Aug. 16.—(Special Telegram.)—William Krausler, of Slavook, a blacksmith in the Burlington shops here, died Friday night, from the effect of excessive heat. The deceased was born and grew to manhood in this city and had worked for the Burlington many years.

Dr. A. A. Randall captured the funeral services Sunday afternoon and interment was in Oak Hill cemetery. The Modern Woodmen team accompanied the body to this city and to the cemetery.

STANTON, Neb., Aug. 16.—(Special Telegram.)—A young man aged 15, son of N. W. Rose, who lives five miles southeast of Stanton, while shoveling grain for a threshing crew at Henry Andrew's farm this forenoon was overcome by the heat, he was

carried to a cool place and a doctor was summoned, from Stanton, but before he got there the young man had died. The heat of last week has been intense, but this is the first prostration that has been reported. Three horses were killed by being overcome with heat here in the last week.

DES MOINES, Ia., Aug. 16.—(Special Telegram.)—High winds accompanied by hail and rain did considerable damage here Sunday evening. The large chaletauque tent was blown down and torn into shreds by the poles falling. The chaletauque closed Saturday and no one was in the tent. The canvas fence around the ball park was blown down, as were also a large number of tents used by campers at the chaletauque. Lightning struck the college and set the building afire, but it was put out without much damage being done. A large amount of corn was flattened to the ground.

Aeroplane Drill at College Park

Lieutenants Lahm and Foulis Will Be Instructed by Wilbur Wright.

WASHINGTON, Aug. 16.—Wilbur Wright, the aviator, who is to instruct Lieutenants Lahm and Foulis, U. S. A., in the manipulation of the signal corps aeroplanes, was in Washington for a few hours today. He conferred with the signal corps officers regarding the arrangements for the training flights. The lease for the grounds at College Park, Md., a few miles from Washington, that are to be used for the flights, has been forwarded to Secretary of War Dixson at Nashville, Tenn., for his approval. Mr. Wright left tonight for Dayton, O., but will return to Washington when the preliminary arrangements for the training flights have been made.

FRANCE AND NEW TARIFF LAW

fects in the exportations of canned meats, table fruits, dried or pressed fruits, common wood logs, hops, prepared pork, mineral oils, lard and Porto Rico tobaccos, while France would be barred in its exportations to the United States of brandies, still wines and vermouth, and champagne, which form a large element of its trade with this country. France has applied, but about twenty-five articles on its minimum tariff list to the United States and half of these are intended under the benefit of the most favored nation and do not profit us because we do not produce them in this country.

French Rates on Pork. Under the French maximum tariff, lard and its compounds are increased from 25 francs per 100 kilograms, the minimum rate, to 40 francs kilogram. In manufactured and prepared pork, the increase is from 20 to 100 francs per 100 kilograms.

When the reciprocity agreement with France expires on October 31, its exporters will be required to pay on American importations an increase of from 15 to 25 per cent on such articles as brandies or other spirits distilled from grain or other materials; an increase from 15 cents to 45 cents and 60 cents per gallon, respectively, according to alcoholic strength, on still wines and vermouth in casks, an increase of from 15 to 25 per cent on bottled and bottled-in-cases brands up of bottles or jugs, and also an increase of from 15 to 25 per cent on sparkling wines. Should the maximum rates be levied, by the president as a result of discrimination against American products, there would be an addition to these rates of 25 per cent ad valorem.
