RHEIMS, Aug. 20.—Aeroplanes, flying in straight lines, making wide turns or wheeling abruptly, traveling slow and fast and low and high, was the striking spectacle offered 15,000 persons on the Field of Betheny today. Two slight accidents occurred. M. Dumaneau, driving an Antoinette motor, came to the ground sidewise and broke one of the runners of his aeroplane, and M. Goffroy, in an Emment-Peltier monoplane, had accomplished a flight of a kilometer when the machine struck a hedge, demolishing its propeller. It will require two days to repair this latter injury. This was the second last practice day before the commencement of the prize flights of aviation week, and many of the aviators took advantage of the beautiful weather to try out their craft. Glenn H. Curtiss, the only American who is to compete, was given an ovation after a flight of seven minutes. Although the motor of his machine was a bit erratic, the bi-plane sped straight without swaying. Mr. Curtiss declared that he was ready for the race. Hubert Latham also was applauded for a spectacular flight of ten minutes, and the crowd broke into cheers as M. Bleriot, driving a small four-horse monoplane, made a series of maneuvers during which he demonstrated his masterful hand at aviation.

BIG PROBLEMS TO BE SOLVED

Scheme to Secure Co-operation of All Departments in Enforcing Anti-Trust Laws to be Worked Out.

BEVERLY, Mass., Aug. 20.—President Taft today accepted an invitation to visit Mexico on October 16 next, when he will exchange visits with President Diaz of Mexico at El Paso, Ciudad Juarez, San Diego, La Barra, the Mexican ambassador, personally conveyed a message from President Diaz to President Taft today. Incidentally the ambassador briefly discussed with the president the situation in Central America, where it is reported that there is considerable unrest over the report that the United States and Mexico, acting in common, may exert a still stronger influence for the settlement of the constantly arising difficulties among the little republics by amicable means, and thus end frequent wars and revolutions. The ambassador declared at the conclusion of his interview that there was little of political interest in his visit. Later, however, he set a series of long cables in cipher to the City of Mexico. President Taft is looking forward with keen delight to his meeting with President Diaz. He expressed last winter a desire for a personal interview with the man who for so long has been at the head of the southern republic, and the meeting was arranged for the occasion of the president's trip through the south. President Diaz first will visit Mr. Taft in El Paso. Then the president, crossing the bridge over the Rio Grande, will return the call in the quaint Mexican village of Ciudad Juarez. United States troops will be gathered at El Paso and Mexican troops at Ciudad Juarez. Confers with Wickersham. President Taft had a brief talk with Attorney General Wickersham this afternoon, but put off until tomorrow the serious consideration of the outline of proposed changes in the interstate commerce and anti-trust laws, which Mr. Wickersham has been considering and which he will lay before a commission of government officials, selected by Mr. Taft in New York City next week. Mr. Wickersham will also take up the re-organization of the department of justice, the bureau of corporations in the department of commerce and labor and of the interstate commerce commission, looking to effective co-operation of these agencies in order to secure a more rapid and certain enforcement of the laws affecting interstate railroads and industrial combinations. The president and the attorney general will go over the matters under discussion only in a broad, general way, for the details remain to be worked out. The commission, which will meet in New York to begin consideration of the recommendations they hope to have ready for the president when he returns to Washington in November, includes Attorney General Wickersham, Secretary Nagel of the Department of Commerce and Labor, Solicitor General Powers, Representatives Townsend of Michigan, one of the authors of the Eash-Townsend rate bill, and Messrs. Knapp and Prouty of the Interstate Commerce commission. Big Problem to Solve. The attorney general declared today that the problem to be dealt with was a big one, to be approached with much deliberation. The president regards the formulation of the needed changes in practical shape as creative work of the highest order. The amendments to be proposed, he declared, are just as necessary in the protection of legitimate business as in the clinching of reforms begun under the last administration. Relief of railroads from certain restrictions of the anti-trust law will be urged. On the other hand, President Taft regards his administration as pledged to legislation looking to a proper federal supervision and restriction to prevent excessive issues of bonds and stocks by companies owning and operating interstate commerce railroads. Some method of controlling holding companies is to be devised. Trip in Sailboat. The president and Mrs. Taft had their first sail on the yacht Syph this afternoon. The Syph headed up Glastonbury and they did not return to anchor until after 7 o'clock. President Taft today received a delegation of citizens from Augusta, Ga., who came to talk over with him some of the details of his trip to Augusta and to Columbus, S. C., early in November. The president will attend state fairs in both cities. President Taft defeated Secretary of the Navy Meyer at golf this morning by 4 up. It was officially announced tonight that the itinerary for Mr. Taft's trip is closed. No further changes can be made in the schedule.
