Only One Bid Before State Normal Board

Constructors Shy at Proposals to Erect New Buildings at Kearney and Peru.

(From a Staff Correspondent.)

LINCOLN, Aug. 20.—(Special.)—The new state normal board this afternoon opened bids for the construction of the wing at the Kearney normal school. Only one was offered, that of the Northwestern Construction company, for \$30,000, just \$1,000 more than the appropriation made by the legislature. This bid was rejected and the secretary was instructed to advertise for more bids. No bids were filed for the construction of the new building at Peru.

While it was the general opinion that bids were lacking because of the fact that the legality of the act which created the normal board is under fire in the supreme court, Colonel Majors inferred there might have been another reason when he asked Secretary Graham in what papers the advertisement had been published. He was informed that it had been published in the World-Herald and several papers out in the state.

"We probably would have been more successful had the secretary used The Bee," said Colonel Majors.

Members Nye, Graham, Majors and Bishop, a quorum, were present at the meeting, which began in the office of the state superintendent, with Secretary Loden of the old board across the hall. The board then adjourned to representative hall to accommodate the large number of coal dealers who were present. Treasurer Brian, a member of the board by virtue of his position, as usual refused to meet with the new board.

Superintendent Thomas of the Kearney school and Superintendent Crabtree of the Peru normal were both present. Dr. Thomas said his school this year would have the largest attendance in its history.

In his fifth annual report to the board Superintendent Crabtree said it was generally thought the establishment of the school at Peru would reduce the attendance at Peru, but such had not been the case. The enrollment had increased from 50 in 1904 to 122 in 1908. This increase of 72, Mr. Crabtree said, is greater than the total enrollment of each of 106 normal schools out of the total 149 in the United States. The increase is practically all in the higher classes.

One of the 149 graduates who have been graduated in the last five years, while 1,433,930 spent for buildings since 1902, 1,433,930 spent for buildings since 1902. This includes the last apparatus.

Existing buildings have been erected at Peru, Chapel and gymnasium, completed in 1905 at a cost of \$45,000; the old building was remodeled, doubled in size and rearranged into the present arrangement in 1902; the new library building was completed in 1907 at a cost of \$32,000; the heating plant was constructed last year at a cost of \$25,000; a new kitchen was built for Mr. Vernon Hall out of dormitory funds; a new administration building, to cost \$40,000, will be erected this year.

A delegation from Wayne appeared before the board today to talk about the transfer of the Wayne Normal school to the state in consideration of that \$60,000 appropriated by the late legislature. Inasmuch as there is some doubt about the right of the board to act in this and all other matters there was nothing done. The delegation consisted of Judge Welsh, County Attorney Davis, J. P. Brossier and Prof. Pyle.

In the law it is provided that the Board of Education shall take over the school and this board is designated that State Normal Board of Education.

COMMISSION IS LIMITED

Has No Authority to Order Railroads to Prevent Overflows.

MEMBERS ASKED TO BE CAREFUL

Issuance of Orders When Authority is Lacking, Attorney General States, Involves Expensive Litigation.

(From a Staff Correspondent.)

LINCOLN, Neb., Aug. 20.—(Special.)—Where a railroad company builds its tracks in such a way that it causes water to overflow onto the premises of an individual and damages his property, the State Railroad commission has no authority to assess damages against the company or to abate the nuisance.

Such is the holding of the legal department of the state, the opinion being handed down upon the request of the commission, which has received several complaints lately from individuals whose farms or other property have been damaged by reason of overflows caused by the manner in which the railroads construct their tracks. The attorney general holds, however, that in a case whereby the railroad becomes a public nuisance, by reason of building up an embankment for its tracks and thus causes water to back up and overflow a town or a considerable portion of it, then the Railroad commission has authority to assume jurisdiction and issue an order to abate the nuisance.

In his opinion the attorney general holds that the constitutional amendment creating the Railroad commission does not confer any authority upon it to assess damages or prevent damages to an individual in such cases as mentioned above, but that the individual has his remedy in the courts, where he may bring suit for damages.

Mr. Thompson also advised the commission that it should be sure of its authority before entering orders, because it has been demonstrated that the railroads appeal to the courts on practically all orders. This puts it up to the state to pay considerable costs, which could be avoided if the commission acts circumspectly in the matter of issuing orders in matters about which it is not sure it has authority.

Reunion Program.

Programs of the Kansas-Nebraska annual reunion have been received at the state house. The meeting begins August 24 and continues until August 29. Attorney General Thomas speaks on the first day, Mayor James C. Dahlman of Omaha on the 25th, Past Commander Bross of the Grand Army of the Republic and Colonel C. E. Adams on the 28th, Senator Burkett and R. D. Sutherland on the 29th and Governor Shallenbarger on the 30th. In addition to the speaking, ball games, races and other entertainment is included in the program.

Rehearing of Telephone Case.

The city attorney of Bloomington has received permission from the Railroad commission to hold a rehearing on the application of the telephone company of that place to increase its rates. The commission granted the permission, but will permit additional evidence to be introduced September 3.

Orders on Rates.

The Northwestern Railroad has received permission from the State Railroad commission to install a rate of one and one-half cents for the round trip to the state fair. The Union Pacific was given permission to put in effect new rates and rates for parlor car service from Omaha to North Platte.

The Milwaukee railroad paid to the secretary of state today \$200, the amount of its occupational tax. This company is one of the few that did not under protest.

See Exhibit at Fair.

The exhibit of apiarists prepared at the state fair at Lincoln, September 6 to 10, this year promises to be of unusual interest. This splendid growing season has kept the bees busy all the day long. As a result the beekeepers are getting busy as bees with an exhibit that will crowd the shelves and floor space of their building. In addition to the exhibit, Frank Odell, the bee wizard will be there and shut himself in a carefully screened room with a swarm of bees and give a daily exhibit of how to handle bees, what you can do with them, and what they will do. This daily exhibit is not put on just as an attraction, but it is a part of the plan of the board of managers that the state fair shall be a great educational institution.

Starts to Pay Fine with Pennies.

George Riser had his dignity considerably ruffled today when Clinton R. Lee attempted to pay a fine of \$5 and costs with pennies. Mr. Lee was fined for speeding his automobile above the limits of the law, according to the policeman, though Mr. Lee said he did not know it. When the fine was assessed against him he took a sack of pennies out of the machine and began to pour them out to the judge. But the judge was not taking pennies, not even the new Lincoln series, which have been selling on the street for a nickel. He thundered the information to the arrested one that pennies did not go in police court in Lincoln. So Mr. Lee handed up \$10 which the police judge changed. Then the police judge gave Mr. Lee a fatherly lecture.

Follower Sees State.

George D. Follmer has left in the district court of Lancaster county against the state for \$150 for attorney's fee growing out of the Boyd county land litigation. In this case Follmer, who was then land commissioner, did not agree with the opinion of Attorney General Prout and employed Captain Murphy to fight his case. The legislature instead of appropriating money to pay the claim of the attorney gave Mr. Follmer the right to sue the state.

Policeman Knocked Out.

J. W. Barrett, a night patrolman, was struck on the head by two colored men last night about 11:30 near Eleventh and L streets and is confined to his home, though his condition is not serious. The officer asked the colored men what they were doing and instead of answering him verbally they jumped on him and beat him with a heavy cane or two. Two men were arrested, but were released, as they proved they were not the parties wanted.

Lancaster Returns.

The return of the election held in Lancaster county show that election day was certainly a frolic for the nonpartisan democrats, for they did not stick to their ticket enough to be noticed. Here is the democratic vote reported:

First, A. D. B.; 4; C. S. Second, A. S. C.; 3; Third, A. S. B.; 11; Fourth, B. H.; Fifth, A. S. C.; 11; Sixth, A. S. B.; 11; Seventh, A. S. C.; 11; Eighth, A. S. B.; 11; Ninth, A. S.
