SULLIVAN IS IN THE CASE
Files a Brief for Foreign Corporation in the Tax Case
GOVERNOR BACK FROM COAST

MISSOURI PACIFIC GETS A SLIGHT REDUCTION FROM LAST YEAR IN THE TERMINAL ASSESSMENT.
(From a Staff Correspondent.)
LINCOLN, Aug. 25.—(Special.)—Judge John J. Sullivan, democratic candidate for supreme judge, whose political friends are insisting that he should not be put in nomination for the supreme court in the Lancaster district court in which the validity of the corporation occupation tax is to be tested, will within a few days file a brief in support of the contention that the law is unconstitutional.

MISSOURI PACIFIC TERMINAL TAX.
The assessed value of the terminal property of the Missouri Pacific railroad has been decreased this year compared with last year \$1,675. This decrease is due to a decrease in the average value per mile of the franchise property rather than to any decrease in the value of depot property.

THOMPSON BACK FROM REUNION.
Attorney General Thompson returned at 5 o'clock this morning from Bloomington, where he addressed the reunion of Kansans and Nebraskans yesterday. The legal department of the state came back tired from his long hot ride, but feeling jubilant that he had eaten fried chickens without having to pay 25 cents a pound for them.

GOVERNOR AND STAFF RETURN.
Governor Shallenbeger and the members of his staff returned to Lincoln this afternoon after a visit to the Seattle exposition and the northwest.

IT WAS A DELIGHTFUL VISIT, said the governor, "and we enjoyed every day of it. On Nebraska day at the exposition we had the largest crowd of any state except New York on New York day, when Governor Hughes spoke."

IN HIS SPEECH to the conservation congress Governor Shallenbeger urged the railroads and Pinchot following to get together and decide on a method of procedure. The state and the nation, he said, must work together or little would be accomplished.

IN SCOTT'S BLUFF COUNTY, said the governor, "work has stopped on the government ditch and work is being pushed on the Tri-state ditch, which is owned by private parties. The settlers are pretty much worked up over this, as they say it will permit the private companies to get onto the land which they thought the government was going to irrigate."

WITH GOVERNOR SHALLENBERGER the following returned to Lincoln: Mrs. Shallenbeger, Private Secretary Furse and Mrs. Furse, Colonel and Mrs. Westervelt, Colonel and Mrs. Gettin and Colonel and Mrs. Gove.

The Tenderfoot Farmer
It was one of those experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.
