Burlington Unloads First Material for the New Shops to Be Erected at Havelock—Osteopaths' Convention.

(From a Staff Correspondent.)

LINCOLN, Sept. 4.—(Special.)—The county attorney of Platte county has been instructed to stop the proceedings against the Pullman Car company...

As a matter of fact, however, upon looking up their old orders it is said the commission discovered that it had given permission to the Pullman company to do the very thing the commission complained of.

Since that episode, however, the commission has issued an order that seats on the Pullman are free whenever there are no other seats on the train.

The state convention of the osteopaths is on at the Lundell today. The morning session began at 10 o'clock and was opened by the address of the president, J. T. Young of Superior.

The afternoon session began at 1:30 and was started with the election of officers. C. K. Struble of Hastings was elected president.

The first material for the construction of the new Burlington shops at Havelock was unloaded this morning.

At the penitentiary at the present time there are two cases of typhoid fever. Dr. H. B. Lowry, prison physician, says there is no danger of an epidemic of the disease as it was not caused by any unsanitary conditions at the prison.

The report of Warden Smith for August shows there are now 42 convicts in the prison camps and the bonds carried by the prisoners were received during the month, of whom, one was returned after having escaped from the best fields.

Food Commissioner Malms has been going after the butcher shops and meat markets over the state lately, and the reports received from his inspectors show a good many places in bad shape.

The final solution of sanitary butcher shops, said the food commissioner, "is, in my opinion, a central county slaughter house, operated under the direction of the county government."
