

French Merrymakers at Suburban Resort,

Dining in the Treetops-Open Air Cafe-Chantant-A Joke on Cabby -Holiday Diversions of

PARIS, Sept. 11.-It was estimated on one August Sunday recently that some 600,000 persons left Paris on the trams, the Metro, the railroads and in automobiles and other conveyances for an outing in that for once the fancy has materialized the suburbs. A fair proportion of this into fact. crowd went to Sceaux-Robinson, which to the foreigners owes much of its attraction

Going by the Metro-Paris subway you of dust vanishes from the sight, choke and gasp and choke and gasp in a way that your countrymen never suffered even in the early days of New York's underground, and when you think that you are at your last gasp the train suddealy shoots into the open and from that moment to the end of your journey you traverse a country that offers features of interest. There are the red and gray roofs of happy villagers-at least you assume them to be happy, for those who salute the train or watch it pass are either laughing or exchanging friendly blows. Many of them are workmen, some in holiday attire, others in clean blouses which reach to the knee and have a holiday stiffness.

"The smartest and the best little car ever marketed in America at anything like the money"

What people are saying in this community about the Hupmobile they are saying in every other community from coast to coast.

No other car has ridden so quickly into widespread popular approval. Everybody has a good word for the Hupmobile-and nobody can find any room for criticism.

It is the first small car ever built in this country that is in every way as good as the most expensive

It is the first small car ever built in this country possessing real dash and individuality in design.

Most small cars are makeshifts in material, in construction and design -the Hupmobile is just as good in proportion and just as smart in appearance as the finest big car. If it were a large car, we could not

afford to make it so good. And you can be absolutely certain, if

you see a larger car advertised at an approximate price, that the manufacturer has skimped somewhere-either in material or workman-

A finer or better power plant you will not find in any car. Other engines are larger, but none is built of better materials or with more careful workmanship.
