Eagles Will Please Not Read This

We are going to have a little talk "in the family"—among ourselves as Omahans. This city is to be host to about forty thousand strangers. Great preparations have been made to make them welcome. Our right hands are extended in greeting. As Wm. Penn said: "We meet on the broad pathway of good faith and good will." Let us meet the Eagles in the same unselfish way.

We offer the freedom of the store, its services, its conveniences. Come in and ask all the questions you like. Any information cheerfully given.

If all the places of business and all the people shall unite in extending this right hand of fellowship, the Eagles shall eat of the fruit of Omaha without tasting one bitter cherry.

Handsome New Dress Goods and Silks

That's what we invite you to Monday. Straight from across the seas come the beautiful materials that Parisiennes and carefully dressed London women are wearing.

Silks of Beauty and Dress Elegance—New all silk Diagonals, New Crystal Cord Bengalines and rich soft satin effects have the call.

Next President of the Eagles

FRANK E. HERING.

Versatile indeed is Grand Worthy Vice President Frank E. Hering of the Fraternal Order of Eagles, who becomes the next grand worthy president of the order.

Not yet 35 years of age, he has distinguished himself in athletics, literature, journalism and politics, and gives promise of achieving honors in other branches of endeavor before he has reached the Oiler stage.

At college, besides being a gridiron and base ball hero, he carried away debating and English honors. At Chicago university in his freshman year—1894—he was a member of the Maroon forensic squad that debated and defeated the University of Michigan team at Ann Arbor. In this contest, as a first year man, he won first place. From that time onward during his college career he continued active in debating circles and took part in eighteen intercollegiate contests.

He was in sufficient time to put their respective sections in motion immediately upon the proceeding division's getting its proper distance.

Between divisions the distance will be twenty-four yards; between drill teams and aeries it will be eight yards. Division commanders and captains of drill teams will be especially charged to maintain these distances at all times. The band at the head of the procession will give the step and time, which is to be strictly observed by all in line. Bands marching in close proximity will alternate in playing. Aeries having bands will march in line with them.

Salute at Reviewing Stand. Marshals, aides, staff officers, and officers of drill teams will be under orders to come to salute six paces from the reviewing officers and maintain the same position until six paces beyond them. Drill teams will salute at the command of their officers. Marshals, aides, and other officers will not turn out of column to salute upon the reviewing stand, but will continue the march with their command to the end of the parade.

At aeries, drill teams, and bands entering the parade as competitors for prizes must announce their intentions to this effect before 10 o'clock on the morning of the parade.

The drill teams and aeries which do not report in time for assignment will be allowed to report to any division commander and be placed in the column according to this officer's directions.

EAGLES OPEN FIRE TUESDAY

(Continued from First Page.)

Douglas to Tenth, south on Tenth to Farnam, west on Farnam to Nineteenth, south on Nineteenth to Harney, east on Harney to Fifteenth and south on Fifteenth for disbandment. The aeries and drill teams will assemble at their respective headquarters at 12 o'clock and will be detailed to conduct them to their places in the parade. A trumpet will give the first signal for the parade at 12:30 o'clock. The second signal will be the sounding of assembly at 1:30. The first division will then be called to attention and the command, "Forward march," given, and the column put in motion at the sounding of the third signal at 1.

OUR NATIONAL DISEASE Caused by Coffee.

Physicians know that drugs will not correct the evils caused by coffee and that the only remedy is to stop drinking it. An Arkansas doctor says: "I had been a coffee drinker for 30 years and have often thought that I could not do without it, but after many years of suffering with our national malady, dyspepsia, I attributed it to the drinking of coffee, and after some thought, determined to use Postum for my morning drink."

"I had the Postum made carefully according to directions on the pkg. and found it just suited my taste. "At first I used it only for breakfast, but I found myself getting so much better, that I had it at all meals, and I am pleased to say that it has entirely relieved me of indigestion. I gained 15 pounds in 4 months and my general health is greatly improved."

"I must tell you of a young lady in Illinois. She had been in ill health for many years, the vital forces low, with but little pain. I wrote her of the good that Postum did me and advised her to try it. "At the end of the year she wrote me that Postum had entirely cured her and she had gained 40 pounds in weight and felt like herself again."

Read "The Road to Wellville," in page "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

The Weather.

"GOLD BRICK," SAYS PEARY

(Continued from First Page.)

route to Portland, Me. At that point he will be given a reception from the municipality and citizens. Continuing this way by rail, his arrival in New York will be about September 20 or 21, which is the time also that the steamer Oscar II, bringing Dr. Cook, is due to arrive.

Long Journey on Stead. BATTLE HARBOR, Labrador, Sept. 11.—The steamer Roosevelt, Commander Peary on board, was still at Battle Harbor today. The commander and all the members of the crew were in excellent health and the steamer is in good condition. Preparations are being made for the departure from North Sydney, C. B.

Members of the expedition say that the pole is in appearance like other parts of the Arctic sea and that an attempt to get a sounding was without success.

Nothing was seen at the pole of Dr. Cook's reported presence there and Cook's story of his discovery of the pole is not believed here. The party staid 41 miles each way to the pole. The conditions for traveling over the ice were absolutely without equal. The Roosevelt spent the winter months in S.M.

Commander Peary and the members of his expedition are enthusiastic over their success. They, however, are not sorry to come south again. Several dogs are aboard the Roosevelt, some of which Commander Peary says were with him when he reached the North pole. Commander Peary says that the only satisfactory way of accomplishing polar work is by the aid of Eskimos and dogs. Several puppies are also aboard the Roosevelt, which also brought some Arctic hares and rooks. An attempt was made to bring five musk

oxen and a walrus back alive, but the animals were so ugly that they had to be killed.

The Roosevelt is in excellent condition. There is not a leak anywhere and the propeller and rudder are in good shape. The boilers and engine also are in good condition and the steamer can easily make a speed of seven knots an hour. The only damage was the rubbing of paint off the sides by contact with the ice.

Notice to Navy Department. WASHINGTON, Sept. 11.—Commander Peary's first official notification to the Navy department direct of his return and of his discovery of the North pole came to the department this morning in the following dispatch sent by him from Battle Harbor yesterday. It reads as follows:

"Respectfully report my return; hoisted navy ensign on North pole April 4. PEARY."

Responding to Commander Peary's dispatch, Acting Secretary Winthrop sent the following telegram of congratulations: "The Commander Peary, Battle Harbor, Labrador: Your telegraphic report received. Navy department extends hearty congratulations on your successful attempt to reach the North Pole. 'WINTHROP.'"

The following message has been received at the State department from Commander Peary: "BATTLE HARBOR, Sept. 7, 1909. Honorable Secretary of State, Washington, D. C.: Respectfully report hoisted Stars and Stripes on North pole April 6 and formally took possession that entire region and adjacent for and in name of president of the United States of America. Record and United States flag left in possession. PEARY."

Acting Secretary of State Adee of the State department, in answer to inquiries, said that the State department had no comment whatever to make, as there was no question before him.

Coast Survey May Aet. The members of the National Geographic society are watching with intense interest the progress of the stories of the Peary and Cook expeditions to the North Pole. Both Commander Peary and Dr. Cook are members of the society. It has been suggested, though not by officials of the society, that arbitration of the claims of the two men might well be left to the National Geographic society, as well as to the coast and geodetic survey, in view of the inclusion of both men in the society's membership, and the generally representative nature of those who make up its rank and file. The society, however, has taken action attesting its concurrence in the acceptability of the arbitration by the coast and geodetic survey, which is represented on the board of managers of the Geographic society.

The managing board of the National Geographic society has made no formal request of any character in connection with the Cook-Peary dispute.

HYMENEAL.

WALKER-DIXON. NORTH PLATTE, Neb., Sept. 11.—(Special.)—Last evening Lester Walker and Miss Maude Pearl Dixon were married at the home of the bride's parents in this city, the ceremony being performed by Rev. George P. Williams of the Presbyterian church. The bridal song was sung by Mrs. F. Bacon of Gothenburg, Neb., and follow-

ing the wedding march was played by Mrs. E. A. Cary of this city. The ribbon bearers were Virginia Bullard and Harriet Dixon. The flower girl was Dorothy Goodwill, and the matron of honor Mrs. Donald Goodwill, and the bridesmaids Misses Sylvia Watta, May Walker, Alice Birge and Nell Hartman. The groom was attended by John Butler of Leola. The groom is manager of the North Platte Gas and Electric company and the bride is one of North Platte's most popular young women. Sidney Dillon, who was at one time president of the Union Pacific railroad, was an uncle of the bride's father.

NEW TARIFF BOARD NAMED

(Continued from First Page.)

three or five members. It finally was agreed, however, that the smaller number, ascertained by such experts as they deemed necessary would act more quickly than the larger number and with equal effectiveness.

Authority of Board. There has been discussion ever since the passage of the Payne bill as to just what authority the tariff commission shall have. As the measure left the house of representatives it provided that the committee or board of experts should advise both the president and congress on technical questions about the tariff. The senate did not approve of this broad authority and so amended the provision for the appointment of the board so as to prescribe that the duties should be limited to assisting the president in the administration of the section relating to maximum and minimum rates.

At the time of the tariff fight in Washington the president indicated to callers at the White House that he did not look with any great concern upon the limitations imposed by the senate and left the impression that he felt the commission would be able to do all that the framers of the measure originally intended and all that the chief executive could hope for.

No announcement was made today as to what salaries the three commissioners are to receive. Congress appropriated a lump sum of \$75,000 to cover salaries and the expenses of the investigations of the commission.

Review of Veterans.

Beverly was crowded as never before this afternoon when President Taft, from a stand erected in front of the city hall, reviewed a parade of 1,000 Grand Army men belonging to posts in this vicinity.

At the time the president entered the reviewing stand, accompanied by Governor Draper of Massachusetts and Mayor Trowe of Beverly the throng completely blocked Cabot street for a hundred yards in either direction and it looked for a time as though the parade would have to be abandoned.

Once the crowd caught sight of the chief executive, however, and had cheered for several minutes better order prevailed.

In addition today to reviewing the Grand Army and announcing the selection of the new tariff commission, President Taft contributed \$100 to the building fund of the Young Men's Christian association in Beverly. There is no such building in Beverly, and the president's contribution was the first to be received. Mr. Taft had been invited to attend and address a meeting to give the building fund its impetus. He was compelled to de-
