Nebraska PLACE FOR ONE DEMOCRAT

Search Through Records to Get a Candidate for Regent.
LANDS OF SEWARD HIGH MAN
United States Court of Appeals Upholds Validity of the Nebraska Employers' Liability Act—Lilly Case Appealed.

(From a Staff Correspondent.) LINCOLN, Sept. 15.—(Special.)—Now the democratic workers are wondering if they are to get two candidates on the democratic ballot this fall for regents of the State university. There are two regents to be elected for a full term and one to fill a vacancy. The democrats nominated Charles Knapp, son-in-law of Judge Dales, secretary of the Board of Regents, to make the race for the full term, but there was no other democrat running for this place.

Secretary Walrath of the populist state committee, who helps to bring in the people for the democrats each year, telephoned the secretary of state for information that would lead to the discovery of a second democratic candidate. This led to an investigation of the scattering votes cast at the last primary, which showed that H. D. Landis of Seward had received thirty-four votes in Saunders county alone. With only a hasty investigation it was conceded in the office of the secretary that probably Landis had received a majority of the scattering votes for a place on the democratic ticket as a candidate for regent.

Some Notaries Are Minor. It has just been discovered that notary commissions have been issued in some instances to persons who are not of age. It was reported to the governor's office that out in one town a girl 17 years old had a notary commission. Hereafter the governor will sign no notary commission unless the applicant is of age. Inasmuch as a notary is responsible for his acts it is necessary for the official to be of age or no action could be sustained against him.

Advertising Brings Results. Information is wanted that will lead to the recovery of the whereabouts of one T. Cone, clerk of the house of representatives during the late reign of democracy. Mr. Cone has not yet published his house journals and the printers give as an excuse for not delivering these very important documents that they have run out of copy. Mr. T. Cone is supposed to furnish the copy.

Liability Law Upheld. The United States circuit court of appeals has upheld the employers liability law enacted by the legislature of 1907, which eliminates contributory negligence as a bar to recovery and makes the railroad liable even though the damage was the result of the acts of a fellow servant.

Primary Law Unpopular. Dan Killeen of Gage county, member of the legislature and a prospective candidate for the republican nomination for governor, was at the state house this morning on his way home from a speaking trip out in the state.

Winchester, Ind.—"Four doctors told me that they could never make me regular, and that I would eventually have dropsy. I would bloat, and suffer from bearing-down pains, cramps and chills, and I could not sleep at night. My mother wrote to Mrs. Pinkham for advice, and I began to take Lydia E. Pinkham's Vegetable Compound. After taking one and one-half bottles of the Compound, I am all right again, and I recommend it to every suffering woman." —Mrs. MAY DEAL, Winchester, Ind.
