SUCH IS VIEW OF WALL STREET

Also Believed Mohler or Kruttschnitt May Get the Place or Possibly L. R. Loree of Delaware & Hudson.

No matter who may be elected president of the Union Pacific to succeed the late E. H. Harriman, the belief in Wall street is that the new chief executive will reside in Omaha.

The New York Commercial, speaking on this subject, says: "It is considered likely that the president

of the Union Pacific will have his office in the west, somewhere between Chicago and San Francisco."

As Omaha is the home of the Union Pacific, the residence of its general headquarters and as there is no other place n the west "between Chicago and San Francisco" where the president would reside, it is perfectly natural that, if he must live in the west he will live in Omaha.

If the new president does take up his headquarters in Omaha he will not be the first to do so. Horace G. Burt, throughout his incumbency of this office, had his home

and office in this city.

Although Robert S. Lovett has been chosen to succeed Mr. Harriman as chairman of the Union Pacific executive committee, there is plenty of belief that he will not supercede the president of the road, but that another man will be elected to fill that position. In this case it seems all the more probable that the new president would reside in Omaha, for he would, as was President Burt, not be vested with the financial management of the company and would, therefore, have no need to live in Chicago or New York, but on the contrary have every reason to live at the eastern terminus of the line where he could actively direct its management.

Wall street believes a member of the immediate Union Pacific family may be elected president and believes that that man may be Julius Kruttschnitt or A. L. Mohler. Kruttschnitt has been director of maintenance and operation since the day Mr. Harriman bought the bankrupt road and Mr. Mohler left the presidency of Harriman's Railway and Navigation company to take the vice presidency and active management of the Union Pacific, succeeding Horace G. Burt, who held the

title of president. Either of these two men is regarded as highly fitted for the big position and one or the other, it is believed, may get it. On the other hand, there is some belief that L. R. Loree, president of the Delaware & Hudson, whom Mr. Harriman styled a 'model railroad man," may get the place. He is one of the "big four"-Loree, Lovett, Kruttschnitt and Mohler-who were re yarded as closest to the late magnate, The president probably will be elected

of the company in October. Vice President Mohler has consistently fleclined, from the time of Mr. Harriman's leath, to be drawn into any discussion of the matter of the presidency, one way

The young man kissed her and she screamed.
"What's the trouble, Klitty?" demanded a stern voice from upstairs.
"I--i just saw a mouse," she fibbed.
Presently, the young man claimed another kiss, and the scream was repeated. Again came the stern voice: "What is it this time?"

"I just saw another mouse."
