THE GENUINE ENIGMA

Small Boy Also Shares in Riot

Novel Request Made by Child Startles Peaceful Teacher of Kindergarten. From the wild-eyed hoodlum conspicuous at the police station since the beginning of the strike, to the child in spotless white knickerbockers, is a far cry. But that the opportunity for criminal mischief offered by the strike has a broad appeal was startlingly demonstrated in a local kindergarten.

STRIKERS HEAR SPEECHES

Omaha Indians are Taken as Guide for Other Tribes

Washington, Sept. 26.—Declaring that the Omaha Indian problem in Nebraska has reached its critical period, when the Indian has to be transferred from a dependent ward of the government to an independent citizen of the state, officials of the Bureau of Indian Affairs announced today that steps would be taken immediately to place all the competent Omahas in complete possession of their lands and money to which they are entitled.

SPANIARDS USE BALLOONS

By This Means the Country is Spied Out in Advance of the Army. LA RESTINGA, Morocco, Sept. 26.—General Orozco's division advanced yesterday in the direction of Sellaouan, using a captive balloon to direct the movements. The Moorish villagers were set on fire by the advancing troops. Heavy resistance was encountered at several points, but the Spanish displayed great gallantry and, keeping the Moors under a rain of shell from the batteries, drove the enemy steadily back with considerable loss.

Peculiar Case Involving Right of Turk to Become American Citizen. WASHINGTON, Sept. 26.—Naturalization was refused to 2,077 aliens during the last fiscal year, a material increase over the rejection of would-be United States citizens during the preceding year.

COMMONS RENEWS OLD CHARGE

Commons declared that the average wage of the street car men in Omaha had been about 25 cents an hour. He charged that the company pushed men out of employment after they had been in the service long enough to receive the benefits of the increased scale for long service, and re-employed them later as new men.

FLIGHTS WITH AEROPLANES AT HUDSON CELEBRATION

NEW YORK, Sept. 26.—The aeroplane of Wilbur Wright and Glenn H. Curtiss, which will bring a touch of modernism into the historic picture of the Hudson-Yukon celebration, rest tonight in their sheds on Governor's Island ready to soar forth to demonstrate the conquest of the air as Hudson and Fulton overcame the perils of water navigation.

COMPANY NAMES TERMS FOR MEN

Offer for Settlement of Street Car Strike Finally Comes From Conference. MUST ABANDON THEIR UNION. Strikers to Come Back, If at All, as Individuals. RAISE OF PAY WITHIN A YEAR. One Cent Per Hour Increase in Wages Promised. HAVE UNTIL TUESDAY NOON. Notice to Be Promulgated By Posting on Bulletin Boards at Car Barns This Morning.

WHAT THE COMPANY CONSIDERS. At least 90 per cent of the old men will be recalled back in its employ, without loss of seniority, save as affected by the rights of the men now employed in the company's service. An increase of 1 1/2 cent per hour in wages, which will be in effect if accepted immediately, and the men return to work by Tuesday noon.

WHAT THE MEN ARE ASKED TO CONSIDER. The right to belong to a union. Any right of seniority that may be adversely affected by the men now in employ of the company, who may be retained in the service.

Text of the Proposal. The text of the proposition formulated at the conference is: "To the Former Employees of the Omaha & Council Bluffs Street Railway Company: You are hereby notified that on or before Tuesday noon, September 28, 1909, meritorious employees, including at least 50 per cent of those who are now out on a strike, will be recalled back into the employ of the company at the same wages which each was receiving at the date he quit our employ, subject to the seniority rights which have been acquired by those employees who have remained in the service of the company and those who have been employed for permanent service since September 17, 1909."

Conditions of Employment. "Those who re-enter the employ of this company will do so under the following terms and conditions: 1. It will be the policy of this company in the future as in the past to pay its employes as good or better wages as similar employes receive in other cities where like conditions prevail to those in this community. An increase of pay, which will amount to at least 1 cent per hour, will be made as soon as the financial condition of the company will justify, and, if the strike ends at this time, within one year from this date."

2. This company will keep in its employ a sufficient number of extra men, so that regular employes may lay off in time of sickness or for other purposes, on reasonable notice to the company. 3. A careful revision of the schedule will be made within sixty days, and the present schedule, which has been objected to, will be eliminated so far as possible. 4. In the event any employe of this company is dissatisfied with the treatment he receives from under-officials, he shall have the right to appeal to the general manager of the president, or the board of directors, and have the case reviewed without prejudice.

5. All motorist and conductors, when called upon to take out extras, will be paid from the time they report for duty until they are relieved. 6. This company will make no contract with nor recognize nor deal with any union among its employes. It will deal with all its employes as individuals. 7. The future policy of the company in the employment of new men will be to attempt to cross the bay and circle the Statue of Liberty. Also he may attempt some experiments in the matter of speed, for which he holds the world's record, made recently abroad.

Wright said today that in addition to causing sharp turns of a scientific nature, he would if the opportunity presented itself try to glide with the motor stopped. As the machine falls at the average rate of one foot for every eight which it travels forward, Mr. Wright hopes to demonstrate its stability. He expects to make his first preliminary flight tomorrow afternoon, but does not intend to leave the confines of the aerodrome at Governor's Island. Curtiss is planning to equip his aeroplane with two pontoons, so that he will be able to alight on the water. If weather conditions are favorable he may continue experiments in rising from the water in an effort to demonstrate the utility of the aeroplane for the navy.
