The Body Is a

Fat Factory

When a man or a woman grows fat and huse, flabby layers of this worthless flesh makes them miserable, it is a certain significant which as man or woman there is something radically wrong. The healthy man or woman digests all that is good in food and throws off in a natural manner all that is had. This is what the digestive juices are made for. When hese juices are weakened or too powerful they can not get the good things out of the nourishment we cat, and hence they turn into the blood that which makes fat. It is very simple to correct these juices in a fat person. This secret has been demonstrated in the famous Marmola Tablets which now have such a tremendous sale. They reduce fat at the rate of from 12 to 15 ounces a day. They correct the faulty juices and give to the body the very nutrition it needs. They remove fat in a natural manner, but they do it so quickly as to be almost beyond belief. You do not have to diet or exercise and you may eat what you will. These little tablets are the result of a demand on the part of the public for a form of the famous Marmola prescription that will permit a fat gerson to carry his fat reducer with film at all times, so that each meal will add no more fat to his body. Marmola Tablets are sold by every druggist, or you may write the Marmola Company, brick boller house. \$7,500; George A. Hoadland, Eighth and Douglas, brick warehouse. \$20,000. Anna Dawns and others, price of Marmola Tablets is 700 everywhers.
