DUNDY SURVEY MUST WAIT

Land Commissioner Sees a Chance to Save Some Money.

GOVERNMENT MAY DO THE WORK

Bonding Companies Go Into Court to Restrain Operation of Law Fixing the Fees for that Class of Insurance.

(From a Staff Correspondent.) LINCOLN, Neb., Sept. 29.—(Special.)—Notwithstanding a petition from Dundy county landowners the state land commissioner will not carry out the provisions of the act of the last legislature for a resurvey of a north and south line through Dundy county until the government is given an opportunity to comply with an act of congress introduced by Congressman Norris. By a little more delay the county of Dundy may get a more extensive resurvey from the general government and the state may be able to save the funds appropriated by the legislature for a lesser resurvey.

The act of congress call for a resurvey of the disputed line and also a resurvey of several townships in Dundy county. Congressman Norris thought he was doing a favor to the people of Dundy county when he got this act passed and he is much surprised to find that many residents of the townships interested have signed a petition to proceed with the proposed state resurvey of the north and south line. He thinks the people interested do not fully understand the situation or they would not have signed the petition to proceed with the proposed state resurvey of only one line. The legislature appropriated \$25 to resurvey one line. This amount will not be sufficient to pay for the work. The act of congress contemplates a resurvey of several townships and would be of more benefit to the interested parties. Congressman Norris says Mr. Switzer, an expert employed by the general land office at Washington, is now at work in another part of Nebraska and as soon as he is at liberty he will make an investigation of the Dundy county situation and announce what the government is willing to do. He asks that the state await this investigation, which can be made this fall. If the government resurveys several townships the work cannot be done this fall, but the congressman is certain the government work will be more satisfactory than the state resurvey of one line.

LININGER SENTENCE STANDS.

The two years' sentence of Leonard Lininger of Pierce county for assault with intent to do great bodily injury has been approved by the supreme court. The decision was withheld until Lininger, who was at liberty on bail, had been taken into custody. One of the errors assigned by the defendant was that the trial court refused to sustain a motion for a new trial on the ground of newly discovered evidence. Judge Root wrote the opinion of the court. Chief Justice Reese and Judge Fawcett were absent and did not sit in the case.

More Telephone Stock.

The State Railway commission has given permission for the Polk County Telephone company to increase its capital stock from \$26,000 to \$43,000 for the purpose of paying an indebtedness incurred in the building of a line and for extensions of lines. The Howard County Telephone company is permitted to increase its capital stock from \$24,000 to \$34,000 for the purpose of rebuilding some lines and paying floating indebtedness.

Bond Companies in Court.

Alleging that the Nebraska law empowering a state board to fix rates of bonding insurance is class legislation and a transgression of its constitutional rights, the American Surety company is asking Judge T. C. Munger in United States court for a restraining order against Governor Shallenbaker, Attorney General Thompson and Auditor Barton. Its lawyers appeared this forenoon to present their side of the case, the state being represented by Attorney General Thompson and Assistant Attorney General Martin. The hearing was continued in the afternoon.

It was argued by the corporation counsel that the law could not be valid because it singled out surety concerns from all other insurance companies. This was held to be special legislation prohibited

Division Fight in Custer Warm

Opponents of Plan Insist it is Effort to Boost Property in Various Proposed County Seats.

BROKEN BOW, Neb., Sept. 29.—(Special.)—Custer county is now in the midst of one of the hottest division campaigns that the people have ever experienced. It has settled down into a county seat fight; the prospective county seat towns of Ansley, Callaway and Sargent being the strong supporters of division, while Broken Bow, Verna, Anselmo, Oconto, Mason City and Comstock are bitterly opposed to dividing the county.

The people who own property in the towns which would become county seats in case division carries, are working hard to divide the county; they feel that the raise in valuation of their properties will more than offset the increase in taxes when the small county is established. Those who live at a distance from the county seat are, as a class, opposed to division. They realize that it will make no material difference in the valuation of property, while it will make a great difference in the taxes. If the new counties had a 15-mill levy, which would, no doubt, be necessary in case of division, it would cost the people of Custer county \$5,000 per year more for county expenses than they are now paying. The present county levy of Custer is 7 mills.

Mrs. Baker Young Woman.

LYONS, Neb., Sept. 29.—(Special.)—Mrs. Hilda May Baker, who was murdered here Monday morning by her husband, Al M. Baker, was named Murray before her marriage and her native place was Fall River, Mass. She was only 22 years of age, while her husband was 32 years of age. Two children, Grace, 7 years old, and Raymond, nearly 6, resulted from this marriage, the children now being in Chicago with a sister of their mother. Her brother, Edward Murray, and wife are here from Omaha to attend the funeral today. Coroner Gilkerson from Tekamah held no inquest. He found that the woman had received three shots, one in front and two in the back, each being sufficient to cause death instantly, while the man lay on the bed on the other side of the room with one bullet in his brain and the revolver still in his hand and his finger on the trigger. Baker's father lives at Breckenridge, Mo., where his body was shipped Tuesday. The woman will be buried in the Lyons cemetery.

WILL ASK STREET CAR FRANCHISE

Eastern Men Satisfied with Outlook at Hearings.

HASTINGS, Neb., Sept. 29.—(Special.)—The Dayton, O., investors who came here to look over the field with a view to establishing a street car system, have announced that they are satisfied with the prospects and will build and operate a plant provided they can get a satisfactory franchise. They will present a definite proposition to the city council at an early meeting, probably on October 11. They announce that they will ask no financial aid here, but will build the system entirely with outside capital. Mayor Miles conducted the men over the city and was informed by them that while they have electric street car systems in four Kansas and Oklahoma towns the field here seems better than in the others. They say they will begin building the line as soon as possible after they secure the franchise. About six miles of track will be laid.

Vote to Bridge the Platte.

GRAND ISLAND, Sept. 29.—(Special.)—At its meeting yesterday the county board decided the matter of the location and building of an additional bridge across the Platte in Hall county, by granting the petition for the bridge on the Denman line and deciding, by a vote of 4 to 2, to build the bridge directly by levy, instead of submitting the question to the people by way of a bond proposition. There were three petitions, of which the Denman petition was the middle one as between west and east. It was feared that a wrangle as to location would arise, a bond proposition might not carry at the general election and the safer, surer way of getting the Platte bridged here, was taken. Hall county will, with the new bridge, have four bridges across the Platte and a fifth owned jointly with Hamilton county. There are four channels to cross on the Denman line and it is the purpose to put one in each year, or more if the usual funds permit.

Korah Luth Accidentally Shot.

CURTIS, Neb., Sept. 29.—(Special.)—Korah Luth, a Lincoln county farmer living about fourteen miles north of Curtis, fatally shot himself last Sunday morning while out hunting. His gun slipped through a hole in the bottom of the buggy and was discharged, the charge entering his left shoulder. The team became frightened and ran and Luth, unable to control them with one hand, was thrown from his seat. He then attempted to walk home, but became so faint that he was obliged to lie down in a ditch by the roadside, where he lay from 9 o'clock in the morning until nearly 5 o'clock in the afternoon, when he was discovered by Charles Brittingham, a neighbor.

More Liberal Beet Contract.

GRAND ISLAND, Neb., Sept. 29.—(Special.)—The campaign committee for Dawson county's proposed new court house, under the management of the Lexington Civic Betterment club, is putting forth considerable effort. A bunch of twenty-five automobiles filled with boosters and the Lexington band have been making the rounds of the different towns in the county each evening. Speeches and music by the band are the leading features. The proposition is meeting with great favor all over the county and it is expected that the bonds will have a good majority.

The state has demurred to the petition of the company on the ground that none of the allegations therein contained tend to show any injury inflicted upon the complainant or likely to be suffered by it. As a further ground for combating the application, it is set forth that no showing has been made that the rates fixed by this city and Mrs. Mabel Blackledge of Lincoln were married here yesterday by Judge Spafford.
