Miners Demand Exact Justice

National Congress Requests Enforcement of One Policy in Forestry Department.

GOLDFIELD, Nev., Oct. 1.—The report today of the forestry convention of the National Mining congress was urgent in its demanding a clean-cut administration in the forestry bureau in relation to the mining industry. Forester Gifford Pinchot is condemned in a number of instances.

The reports says, "When a plain violation of the law is persisted in by a government official or employee, whether he be forester, forester or cabinet member, and he places himself and his judgment above the law, it is certainly time that a halt should be called by some one."

In criticism of the forestry bureau, the report says: "We therefore recommend that this congress express its emphatic condemnation of the present practice of the forestry service in regard to the use of timber by prospectors and miners and that it use every possible effort to compel a compliance with the law by the forestry service."

In conclusion, the report says: "While your committee is of the opinion that the forestry service has in many cases seriously interfered with the mining industry, causing many hardships to the miner and injustice to the prospector, it should only need an intelligent understanding of the mineral industry to render as great benefits in the future as have heretofore been harmful."

TAFT TRAVELS TO TACOMA IN YACHT

(Continued from First Page.)

7 o'clock tomorrow morning and after spending two days there will continue his journey to the southward. The turn toward the east will be made at Los Angeles the night of October 12.

Dines at Washington Building.
President Taft spoke at a dinner last night in the Washington state building at the World's fair, attended by 500 guests. Referring to Secretary Ballinger, the president said:

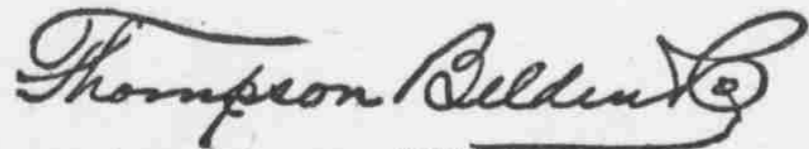

"I am grateful to him for coming into my cabinet. I wish to testify in the presence of his friends and neighbors to the sincere and high esteem in which I hold his services to the government."

Mr. Taft took up the criticism made that the administration was not carrying out the Roosevelt policies, and said: "I am bound to admit that Mr. Roosevelt's knowledge of the west is greater than I have, for he had lived in the west and loved it better than he did his own home in the east; but I was in the Roosevelt cabinet four years, and became imbued with the determination to carry out the Roosevelt policies as I understand them."

"No one can have a higher opinion or feel more gratitude to my predecessor than I have. There is a disagreement as to just what the Roosevelt policies are. We have heard of Catholics, of whom it was said they were more Catholic than the pope. Occasionally we find gentlemen so earnest in support of the Roosevelt policies that they are more Rooseveltian than Roosevelt himself. I am doing the best I can to carry out the Roosevelt policies as I understand them and as I was in his cabinet four years I had at least fair opportunity to know what they were."

Injured in a Fire
or bruised by a fall apply Buckler's Arnica Salve. Cures burns, wounds, sores, eczema, piles. Guaranteed. 25c. Sold by Beaton Drug Co.

Meet your friends at our resting rooms, third floor.

We check hand baggage free of charge.

FINDLAY MAN GIVES EVIDENCE

Says United Doctors Are Quickly Curing Him of Epileptic Spasms or 'Fits.'

WAS SICK FOR YEARS.

Found No Medicine That Would Relieve Him Until He Went to These Specialists.

Perhaps no other institute of its kind in the country receives as many letters from cured patients and happy patients as do the United Doctors, those master specialists who have their Omaha Institute on the second floor of the Neville block, corner 18th and Harney streets. Seldom a day passes but what from one to a dozen patients send or bring the United Doctors letters of testimony telling of the great benefit received under their careful and scientific treatment. Every one of these testimonial letters published by the United Doctors are genuine. If it were not so it would be a very easy matter to find this out, but all reasonable people know that home testimony, signed and certified to, with the full address of the patient, is to be relied upon. It is also convincing, and this is what caused some of the smaller fry to become jealous and begin to whisper "humbug."

A certain gentleman who was recently cured by the United Doctors, and who voluntarily gave his testimony to that effect, was accosted by the streets a few days later and was asked: "How much did you receive for your letter to the doctors?" This gentleman became very indignant and justly so. He nor any one else ever received a penny for giving the United Doctors a letter.

What these grateful people do receive, however, is something of far greater value than money—their health is restored. They sometimes get their health restored by the United Doctors after nearly all the other doctors have had a try at them and failed. Such a one was Mr. Arthur Birskitt, who lives at Findlay, Ill., who writes:

Findlay, Ill., June 17, 1909.
Six years ago in November I began having epileptic attacks about every month, and for awhile I had one every week. I suffered untold agony and tried several physicians, but none of them did me any good.

Just three months ago I went to the United Doctors and was examined. The doctor told me he could cure me in six or nine months, and I at once began taking treatment. Since taking their medicine I have had only one attack and have been able to work ever since I began treatment. I will gladly answer any inquiries regarding my condition. ARTHUR BIRSKITT.

Nicoll TAILOR

WILLIAM KERREMS' SON, 809-11 So. 15th St.

WIRELESS SHOW DRAWS CROWDS

(Continued from First Page.)

any great extent on many of the farms. The show is located across from the Douglas street entrance on Nineteenth street and no charge is made to the people for a look at the bats. The cage is located on a stand to which steps lead. At times a speaker is present, but as this costs the king money the speaker is not on the job all the time. The public is cordially invited and requested to inspect the bats. Those who are interested in the destruction of crop destroying insects will be interested in the Brazilian bats.

Home Folks Must Hurry.
Unless home folks get busy and attend the carnival this week they are liable to have to fight for seats in the show tents and standing room on the streets, for the people are coming from out in the state. Not many are expected before Monday, but those who have already arrived bring the information that the regular visitors are coming back and they are going to bring new recruits with them.
Judge John B. Barnes, republican candidate for the supreme bench, was one of the visitors who took in the sights quietly as became a dignified member of the supreme court, but he smiled out loud all right when he visited a few of the shows on the King's Highway. When they see the same shows his constituents will not think him frivolous in the least.

Mike Harrington is There.
M. F. Harrington, one of the three men who organized and constitute the Government Ownership league, was also early on the grounds, and it was thought he was trying to buy space in which to exhibit the original articles of incorporation of the league. But the Holt county lawyer was in such a hurry to see the shows he would not take time to even talk politics or discuss the growth of his league.
But any one who ever saw the human roulette wheel in motion will harbor no ill will against these men who are in such a hurry to reach the grounds that they will not tell their secrets. That human roulette wheel is a new thing to Nebraska, and it has made a hit.
Men and boys enjoyed the thrill of being tossed fifteen or twenty feet, right side up and right side down, at intervals, but they could not keep the fun to themselves. Not for long.

One woman of some proportions watched the fun and, as she grew fatter laughing, she also got the Ak-Bar-Ben temperament. She attempted to rush across the machine to get a better point of view. Alas! she was too slow, though as quick as lightning. She got aboard the whirling platform. Her eyes opened in astonishment and, as the doctor would say, "they indicated a severe shock either at the moment or earlier in life."

Rolls Like Little Ball.
But back to the human roulette wheel. The woman rolled around like the little ball under the three shells. She was stood on her feet and rolled over on her side; she was thrown one way and another way, and that mean and disrespectful crowd, many of whom she had laughed at, cried and yelled in glee until the poor woman was rolled off at the edge and made her escape. Yes, her clothing and her hair were pretty badly disarranged.
The elephant with the Big Otto animal shows again went on a rampage during the night and tore down a panel of fence and trumpeted until the residents along the north side of the grounds called for the police to suppress the noise.

Baby Bliss, the little fellow that tips the scales at something over 500 pounds and was brought up among the pumpkins of Lancaster county, was early on the grounds today. He stood back of the stand from which the tickets are sold with what should be his chin, resting on the top of

the stand. He was gazing in the direction of Jolly Trixie, the little 600 pound Angel child. Baby Bliss has evidently got it bad. If it can be arranged he will be permitted to call upon the little one some afternoon. Objection has been made to this, however, for fear they might make a match and discharge their managers.

Government Helps Indians

Department of Justice Soon to Argue Cases Involving Titles to Oklahoma Lands.

WASHINGTON, Oct. 1.—The Department of Justice is preparing to fight the cases against those persons who by various means obtained from members of the five civilized tribes of Indians lands that under the federal government's contention could not be alienated. The suits involve large areas of valuable lands and the government's efforts is to recover these for the Indians and clear the title.

The United States circuit court in Oklahoma recently decided that whatever right of suit there might be was in the allottee instead of in the United States because the Indian allottees had been made citizens of the United States and were no longer the wards of the nation. This sweeping decision included the full bloods as well as the half bloods and others. On the application of the government the United States court of appeals at St. Louis has just advanced the cases and they will be argued about December 6.

SEEKS MONOPOLY OF POWER SITES

(Continued from First Page.)

at a higher standard and the district plan of organization in operation since December last is in admirable condition.
Mr. Pinchot declared that the recent trip of Secretary of Agriculture Wilson through the west had an admirable effect in fostering conservation sentiment.

No Change in Policy.
"It developed the fact," said he, "that the people in the region where the most conservation came from are strongly in favor of conditions in the forests. Public sentiment is rapidly becoming unanimous in favor of the forest service work. Our receipts from the sale of lumber and from grazing are increasing; there have been fewer fires this year than ever and we now have them under better control."
"Have you anything to say on the question of conservation?" Mr. Pinchot was asked.

"Yes, I have," he replied, with great emphasis. "I wish to announce that I have come back to continue my work in conservation and forestry without change in either policy."
Mr. Pinchot will remain here for about a week when he will go to St. Louis to meet President Taft and accompany him on his river trip to New Orleans.

NURSE SAVES LIVES OF FIFTEEN CHILDREN

Her Presence of Mind at County Home Brings Them Safely Out of Building.

WHEELING, W. Va., Oct. 1.—The county children's home at Tacoma, Belmont county, Ohio, was partially destroyed by fire early today and fifteen children narrowly escaped. Although hemmed in on three sides by flames, all were rescued by Miss Grace Green, a nurse, who succeeded in getting them through a window to safety. The loss is \$15,000.

VIM!
Young Fellows Demand Clothes With Plenty of It
There's nothing listless about the young fellow of today. He wants "vim" and lots of it; he wants fit and perfect fit; he wants fabrics that are fashionable and even "today" he wants the shade that "extra tony" ones want; and he wants all this at a reasonable price. He doesn't wear his clothes much over a season, yet he wants them built good enough to last "an age." He gets all this in SAMPECK clothes, sold in Omaha at this store only.

Plenty of "Vim" in SAMPECKS
"Vim" in sizes 31 to 38
"Vim" at \$15.00 to \$25.00
Several well posted young fellows who had attended the recent New York Clothes Show have said they saw our fall exhibit is a faithful replica of that affair, as far as "young men's clothes" were concerned. How shouldn't you see this array? Surely yes.

Here's News
"Double trousers" With Knickerbocker Suits that are priced even as low as \$5 the Suit
We've received a plenitude of newer boys' suits to sell at as little as \$2—said then at this price, equipped with TWO Pairs of Knickerbocker trousers in place of ONE. All wool chevrons and the like in olive, mixtures, grays, browns, etc. In ages 8 to 16 years. Of course in suits at \$6, \$7.50 and \$9.50 there is a more forceful showing here than ever. See them.

Boys', Youths' and "Little Men's Shoes"
Buy the shoes while you buy the clothing—get the perfect fitting shapes you should get for a young boy or a "little man." Ours are all made of the "pick of America's leathers"—with Goodyear welt sewed, fine oak soles. May be had in patent, tan, dull calf, in fact, in all the wanted leathers. Priced according to size.

\$2.00, \$2.50 to \$3.00 Per Pair
