the light loads, especially those on the common order. Prices were anywhere from steady or almost steady on the best to as much as 5c lower on the common light weights. The market as a whole might be called a shade lower than last week's colose. The bulk of the hogs sold at \$7.500 Tierle. With \$7.85 a popular price for decent loads. As high as \$7.90 was paid for light coord butcher hogs. Although the trade was good butcher hogs. Although the trade was slow, everything was sold in good season. Representative sales:

of thin stock.

The feeling in killing sheep circles was also easier. Last week's record receipts were not productive of very much of a decline, he everything considered, and this morning's flood run gave packers their opportunity to seucure concessions. Prospects on choice killers looked to be about steady, however, since there is generally a better demand for good fat stock, especially when supply is somewhat limited. Common grades and trashy sold lower during first rounds.
