DETROIT'S HOPES RUN HIGH

Easy Victory of Saturday Gives Them Added Confidence. Gossip of Next Pitchers. Detroit Will Use Either Summers or Mullin and Pittsburgh Probably Either Adams or Maddox, but Nothing Certain.

DETROIT, Mich., Oct. 10.—The chances of playing the third game of the world's championship series between Pittsburgh and Detroit here tomorrow are extremely doubtful, because of a heavy rain that began shortly after noon and continued without intermission for hours. According to the local forecast, the rain will continue steadily all night and possibly all day tomorrow. The rain may be steady tomorrow or may come in showers and there will be brisk winds to accompany it.

DETROIT'S HOPES RUN HIGH

The Detroit team arrived at an early hour, but there were some enthusiasts on hand to give Jennings and his men a few cheers as they drove through the streets in automobiles. Jennings wore a happy smile and there was a general air of confidence among the Detroit players. Their decisive defeat of Pittsburgh Saturday has caused a marked rise in their hopes, as they are certain Summers and Mullin will win their games.

Manager Clarke refused to make any prediction as to the result of the twelfth, but he intimated that his choice would probably be between Adams and Maddox. The youngster from the American association did so well in the opening battle that there is a good chance he may be sent back. Great interest will be added to the game if the Detroit pitcher, who did such excellent work in the opening game were sent in.

CRANE MAY NOT GO TO PEKING

Conference with Secretary Knox Will Settle His Status. MINISTER IS NONCOMMITTAL. On Arrival at Washington States He Does Not Know Why He Was Summoned to the Capital. WASHINGTON, Oct. 10.—Charles R. Crane's sudden, unexpected and hitherto mysterious recall to Washington by Secretary of State Knox, as he was at the point of sailing from San Francisco to assume his duties as minister of the United States to China, was occasioned by developments involving the question of Mr. Crane's fitness for that post. This much is known tonight in well informed quarters in Washington. Unless Mr. Crane is able to clear himself in the eyes of Secretary Knox of an accusation of a serious breach of what the State department regards as the first principle of diplomatic discretion, the conference with his official chief may result in the abrupt termination of Mr. Crane's connection with the diplomatic service.

Statistics Show There Are Forty Thousand More Than Two Decades Ago. The increase in population of about 40,000 during the last two decades is attributed to the government's constant effort to uplift the Indians to the level of contemporary civilization. Three and one-half million dollars is being expended by the United States annually for the education of more than 30,000 Indian boys and girls.

TAFT ADDRESSES CROWD AT FRESNO

For the Third Time During His Present Trip the President Preaches a Sermon. SELF-RESTRAINT IS THE TOPIC. Security of Government Cannot Exist Without It. JAPANESE SEND GREETING. Express Best Wishes for Both the President and Nation. CROWD A COSMOPOLITAN ONE. Los Angeles, Where the President Arrives This Morning, in Preparing to Give Him a Great Reception.

FRESNO, Cal., Oct. 10.—From the snow-capped Sierras yesterday President Taft plunged today into the summer heat of the San Joaquin valley and here, shortly after 3 p. m. with the thermometer hovering about the nineties, he was greeted by the entire population of the city and surrounding country and after a short automobile trip through the business section, addressed a gathering of many thousands in the court house square. The president's speech was in reality another Sunday sermon, the third he has preached since his trip began. His text, quoted from memory, was "He who conquers himself is greater than he who takes a city," and from it the president drew the lesson that government must always be a failure unless it is based upon sound common sense and the belief in restraint that goes to make the good loser. He drew an analogy between the American people in this respect and those who in their attempt at self-government followed an election with a revolution. On his way here President Taft stopped at Merced for three hours and attended morning service at the Presbyterian church.

PRESIDENT'S VISIT TO TEXAS

Two Notable Events Scheduled for His Tour of Lone Star State. GOES TO MEXICO TO MEET DIAZ. Will Spend Some Time Resting at the Ranch of His Brother and See a Town Named After Himself.

SAN ANTONIO, Tex., Oct. 10.—President Taft's journey through Texas, beginning October 16 and ending October 24, opens with the most formal of all the affairs that have characterized his swing around the United States. At the border of the largest state in the union, he will greet the president of another republic. He will just shake hands with President Diaz of Mexico on the Texas side of the Rio Grande. After an all-day stay at El Paso, the president starts on another long jump, San Antonio being his next stop, and there he is to accept on behalf of the United States army a magnificent chapel and library building, the gift of San Antonians, as an appreciation of the American soldier.

Following a day's visit in San Antonio, the president will leave for his brother's ranch at Corpus Christi for four days of rest. Then he will make, in quick succession, stops at Houston and Dallas, on his way to St. Louis. Texas will uphold its end in the way of breakfasts, luncheons and banquets, and the president should find much diversion, because of the varied and interesting features of the Texan program. On his brother's ranch the president and members of his party will have the opportunity to relax after their strenuous trip. Formalities will be eliminated as far as possible when the president goes ranching. On the ranch he is expected to join in a hunt for wildcats.

CITY COMES TO THE RESCUE OF THE OWNERS OF BIG HATS

Because of many complaints to the mayor from fashionable women of Evanston that limbs of trees and low hanging shrubbery caused them great annoyance and were responsible in many cases for serious damage to costly hats, the condition was brought to the attention of the council and the chief of police was ordered to remove the limbs hanging within eight feet of the ground.
