

ment. We do have checks. We do have indirect means of giving expression to that vote of the minority, but when you get down to the basis it is the control of the majority.

Nebraska CROP AREA IS INCREASING

Over Half Million More Acres Cultivated This Year Than Last. LARGEST GAIN IN HAY LAND

Test of Eight O'clock Closing Law to Come Up in the Supreme Court. On Appeal from Omaha on October Eighteenth.

(From a Staff Correspondent.) LINCOLN, Oct. 10.—(Special.)—In his last statistical bulletin Labor Commissioner Maupin explains that the counties of Deuel, McPherson and Scott are omitted, as the county clerks of these counties refused to report facts asked for by him. The bulletin contains a census of farms, acreage of crops, orchard statistics and live stock statistics.

The following comparative table of acreage will be of interest, showing, as it does, the rapidly increasing cultivated area of this state:

Table with columns for Crop, 1909, and 1908. Rows include Corn, Winter wheat, Spring wheat, Oats, Barley, Alfalfa, Clover and vetch, Millet and Hungarian, Wild hay, Potatoes, Peas, Beans, Sugar beets, and Kaffir corn.

Total 17,041,415 16,321,409 Increase of 1909 over 1908, 720,006 acres. For the year 1909 there are reported 1,520,118 apple trees, 117,813 pear trees, 1,915,592 peach trees, 903,020 peach trees and 717,651 cherry trees. A decrease is shown in the number of apple, peach and cherry trees since last year.

Daylight Saloon Case. On the next sitting of the supreme court, October 18, the case of Dinuzo against the state, from Douglas county, will be argued. This suit involves the constitutionality of the daylight saloon law and the right of the fire and police board of Omaha to revoke a license for the sale of liquor after 8 p. m.

Los Angeles in Readiness. LOS ANGELES, Cal., Oct. 10.—Los Angeles is in readiness tonight to receive President Taft when he arrives on his special train at 7:46 tomorrow morning.

When the train bearing the presidential party arrives at River station, the first Los Angeles stop, it will be met by a committee, headed by Mayor Alexander, who will escort the president direct to San Pedro harbor. The city's official greeting to the president will be extended at Arcade station.

The automobile parade through the city's streets, the welcome by the school children, the laying of the cornerstone of a new high school by the president, will follow.

President Taft will spend the night at the home of his sister, Mrs. W. A. Edwards, after attending a banquet in his honor in Shrine auditorium, where 600 covers will be laid.

Leaving Los Angeles about 9 o'clock Tuesday morning, special trolley, the president will visit the National Soldiers' home at Sawtelle and address the veterans there. Thence the party will proceed to Pasadena, where a luncheon is to be given by the Pasadena Board of Trade.

The party will next go through the great orange belt of Riverside and San Bernardino counties, making stops at the principal towns and concluding with a dinner at Riverside. Tuesday night the president will resume his journey eastward, entering Arizona by way of Yuma.

The trip to San Pedro harbor was designed to give the president a chance to further acquaint himself with the people here, to familiarize himself with the great projects there, on which the federal government has already spent several millions. The president's party will be taken over the harbor in launches and afterward be driven in automobiles to the site of the proposed fortifications of the bay.

ALBUQUERQUE, N. M., Oct. 10.—The stops President Taft will make in the two southwestern territories, where he will be from Wednesday morning until Friday night of this week, will be too short to allow of any elaborate entertainments, but Phoenix, Ariz., and Albuquerque, N. M., where he will make brief stops Wednesday and Friday, have completed plans to make the president's stay as pleasant as possible. All of Thursday will be spent at Grand Canon.

Special trains have been arranged for and great crowds will hear the president, especially at Albuquerque, where the annual New Mexican fair is in progress. The president will be welcomed at Phoenix by a reception committee, headed by Governor Sloan of Arizona and Mayor Adams of Phoenix.

On arrival at Albuquerque at 5 o'clock the president will speak in the open air. The president will leave at 12:30 a. m. for El Paso and the meeting with President Diaz of Mexico will be the next event of his trip.

Mr. F. G. Fritz, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation I have tried. Foley's Orino Laxative is mild, pleasant and effective, and cures habitual constipation. Sold by all druggists."

HAVANA on Cuban Celebration. HAVANA, Oct. 10.—The celebration of the forty-first anniversary of the commencement of the ten years of war at Yara was marked today by continuous torrents of rain. Despite the downpour, however, there was a procession this morning of 4,000 persons, including rural guardsmen, militia and uniformed veterans, which was reviewed by President Gomez.

Mr. F. G. Fritz, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation I have tried. Foley's Orino Laxative is mild, pleasant and effective, and cures habitual constipation. Sold by all druggists."

Nebraska MEDICAL SCHOOL CHANGES

New Dean to Be Chosen, as Well as Rearranging Faculty. FRATERNITIES RUSH FRESHMEN

Considerable Feeling Engendered by Tactics of One of Them and an Investigation May Be the Result.

(From a Staff Correspondent.) LINCOLN, Oct. 10.—(Special.)—Several changes were made necessary in the University of Nebraska Medical college by the resignation of Dean Ward, who went to the University of Illinois this summer, and for the last two months Chancellor Avery has been making plans for a reorganization of the medical department. It is announced that these plans have been perfected and that they will be ratified by the Board of Regents at the next regular meeting, which will occur within a month.

Acting Dean R. H. Wolcott, who was appointed to the head position in the college when Dean Ward left, will continue in his present capacity until the close of the school year. It is generally understood in the university medical circles that Dr. Wolcott will not be made permanent dean, but that some outsider will get the position.

Under the new arrangement a department combining courses in histology and embryology, formerly conducted as a separate department, has been created. Dr. Willard, who has been placed at the head of this branch.

Dr. C. W. Poynter, for the past few years an instructor of anatomy, becomes chief chemist, with an increase in his salary of \$1,000. He will be forced to give up part of his private practice to devote more time to instruction at the medical college.

Dr. Walker is made instructor in anatomy to succeed Dr. Poynter. He is a graduate of the university and is a member of a local medical firm.

The new organization of things in the medical college has received the approval of the individual members of the Board of Regents and will be adopted at the first meeting.

Unusual attention has been paid to the rushing campaign conducted by the fraternities at the University of Nebraska this week. This has been true of the members of the Greek letter societies, who are directly concerned, and the members of the faculty and outsiders, because a new system is being tried for the first time this fall.

For three years the faculty has been trying to get some plan by which the fraternities can make a campaign for new members among the freshman class each fall without causing the first-year men to take their attention from the regular school work.

Until 1906 fraternities were not governed in their rushing rules and were allowed to do just as they liked. As a result there were many failures among the freshmen.

Some of the first-year men would be sought after by three or four of the fraternities. James O'Connell, a member of the Phi Kappa Psi, was so earnestly wooed that he was kept from his studies for days at a time, and often never saw the inside of a class room for a week. The conditions grew so bad that Chancellor Andrews took a hand in the matter and ordered that a set of regulations be made to govern the rushing campaign.

The inter-fraternity council drew up a code, which each society promised to observe. No rushing was to take place until a certain time in the fall; new men were to be entertained by the "frats" only on certain days, and no freshman was to be pledged until the Saturday before Thanksgiving. And then any who had failed to make twelve hours of university credit at the mid-semester examinations could not be asked to join a "frat" until the next semester, or until the department work was made up.

This system, which has been in effect on the part of the fraternities, for it scattered the rushing over too long a period and kept the fraternity men under a strain. The rules were openly violated, too. Protests were made against the system last spring and a new arrangement was made for this fall.

The rushing season was ordered to start October 1 and extend to October 11. During that time the fraternities were given permission to "rush" the freshmen in any way that they wished.

Consequently, the last few days have been very strenuous ones for the promising freshmen. The Greek letter men, the Parties and dinner dates and all kinds of entertainments have enlivened the social life of the university. Some of the freshmen have not been permitted to eat a single meal by themselves. If they have not been at one Greek letter chapter house they have been at another.

After the premiere Mr. Hearst was accompanied by his wife, the people of New York. I suppose we are about to witness again such a lavish use of money as when he was taken to the Milwaukee Press club, where he was given a warm welcome. Dr. Cook inscribed his name upon a panel alongside the autographs of other world-famed persons.

At the conclusion of his lecture tonight Dr. Cook boarded a boat for Grand Haven, Mich., en route to Detroit. The explorer is accompanied by his wife.

HAMBURG, Oct. 10.—Captain Roald Amundsen, the well known Danish explorer, who is about to start on a polar expedition, has decided to try a remarkable innovation in the use of draught animals for polar travel. He will endeavor to make polar bears draw his sledges.

Some time ago Captain Amundsen made a contract with Carl Haggenbeck, the famous animal trainer, for twenty live bears, 3 years old. Haggenbeck's men have been industriously at work for a month training the bears, and the results attained are said to promise success for them in polar work. The animals will be shipped to Christiansia this week, where they will be taken on board Captain Amundsen's ship.

LAREDO, Tex., Oct. 10.—In order to replenish the depleted supply of corn in the republic of Mexico, the duty on that cereal from the United States has been temporarily rescinded.

Owing to the prevalence of severe droughts throughout the corn belt of northern Mexico, followed by unprecedented floods both the growing crops and the supplies of corn in storage have been reduced to such an extent as to oblige high prices and actual suffering. To obviate such a situation the Mexican government has promulgated a temporary order rescinding the duty.

Many merchants in Mexico are telegraphing to the United States and ordering large shipments of corn, availing themselves of the free entry of the cereal.

Nebraska TAMMANY TURNS NEW TRICK

make much difference, Mr. Hearst can run under a straw hat, if necessary.

OTTO T. BARNARD, the republican candidate for mayor, and John P. Mitchell, candidate for comptroller, spoke to a large audience tonight at the Manhattan Congregational church. This was the only over-the-political speaking.

Justice William J. Gaynor, the democratic nominee for mayor, will make his first public appearance in the campaign tomorrow night. He has chosen his home borough, Brooklyn, for his opening speech, and there is much speculation as to just what attitude he will take toward Tammany.

First Shot from Gaynor. In a statement full of sting and bite, yet devoid of invective, William J. Gaynor, the democratic nominee for mayor of Greater New York, fired his first big projectile of the municipal campaign tonight in an attack on William R. Hearst.

Early last week Mr. Hearst issued a statement, saying positively that he would not run for mayor, but would support Justice Gaynor. Two days later he accepted an independent nomination for mayor.

Surprised at this action, Justice Gaynor issued a brief statement, charging Hearst with breach of faith, and tonight he came out with a statement and a letter purporting to show that Hearst had urged him to run for mayor nearly six months ago, "on any ticket," and pledging his support.

The episode at that time attracted a great deal of attention in the press and in diplomatic circles. As a senator from New Hampshire, Mr. Blair had reached a prominent part in the debates leading up to the enactment of the Chinese exclusion law and in the course of these debates had expressed himself in terms of opposition to Chinese immigration. His speeches had finally gotten over to China and that government declared that any man who entertained such sentiments toward its subjects was unwelcome as a representative at the Chinese court. There was a disposition for a time not to send another minister to the Chinese court.

Mr. Blair had been finally persuaded to overlook China's action and to recognize the right of any nation to object to an envoy on such grounds. In due course another minister was sent and the affair passed into history.

What Caused the Trouble. CHICAGO, Oct. 10.—The Chicago Record-Herald of September 27, outlined the dispatch from its correspondent in Washington stating in effect that the United States government is preparing to take important action looking to the security of the "open door" in China. It was stated in this article that the action of this government will take the form of a protest based upon the correspondence between China and Japan, relative to the Antung-Mukden railroads.

It was claimed in the Record-Herald's story that reports had been received to the effect that Japan has obtained control for an indefinite period, of mining concessions in Southern Manchuria. This, it was stated, is regarded by China as a distinct menace to the "open door," according to the exposition of that policy as given by the late Secretary of State John Hay.

The latter part of the Roosevelt administration has been exchanged between Secretary of State Root and Baron Takahira, Japanese ambassador, wherein it was agreed that Japan would take no action, which on its face menaced the "open door" without consulting the American State department. There was, according to the Record-Herald, no written agreement between the two governments, but simply an understanding. It was declared in the story that officials of the government of the state were surprised that the United States had not been consulted relative to steps which might menace the "open door" agreement.

In no way was the name of Mr. Crane mentioned, nor did there appear in any part of it anything that might be construed as intimating that the story was connected with him in any manner.

Before leaving Chicago for San Francisco, Mr. Crane was quoted in the Chicago papers as saying: "It will be a pleasure to work in China for President Taft. No other man in the world has as wide influence in the Pacific ocean and its countries. The people of the orient have confidence in him, because of his career in the Philippines, and his former position as minister to China. I will go unhampered by any restrictions. The president is interested in the political questions of China and it is his desire that attention be given to them. The finances and the system of raising revenues are in a demoralized condition and need reconstructing. The systems of banking are antiquated and need to be revolutionized. The government is trying to support the use and sale of opium and there is a big field in the development of the educational systems that will give me plenty of work. Secretary Knox is interested in the establishment of amicable commercial relations between the United States and China and the development of the industries and resources of China, so my work will be two-fold in its nature."

A Fortunate Texas. E. W. Goodloe, Dallas, Tex., found a sure cure for malaria and biliousness in Dr. King's New Life Pills. Sold by Beaton Drug Co.

LONDON TIMES EDITOR HURT While Riding Horseback His Stirrup Catches in Post While Going Through Gate.

WINNIPEG, Manitoba, Oct. 10.—L. F. Amery, chief editor of the London Times, met with a serious accident here Saturday evening. Returning with Earl and Lady Grey from riding, while going through a half open gate, his stirrup caught in a post and he was thrown violently to the ground. He was hurried to a hospital, where the fracture was set today.

Mr. Amery is resting easily and the doctors say he will be able to leave New York for London on October 26, traveling on a stretcher. Mr. Amery has been nominated for a third time as the unionist candidate for Wolverhampton at the coming general election and is anxious to get back to England.

A Rich Strike. The only place you can buy or sell stock of the Nevada-Climax Mining Company that has made such a wonderful strike, is at the office of the underwriter, E. S. Weatherly, 26 First National Bank building.

Polish Societies Convention. MILWAUKEE, Wis., Oct. 10.—Everything is in readiness for the convention of the Polish Societies of Milwaukee, which convenes here beginning tomorrow and continuing during the week. The advance guard of 100 delegates is already arrived and special trains are bringing delegates from Chicago, Pittsburg, Buffalo and other eastern cities. Monday morning mass will be celebrated at St. Stanislaus church and in the afternoon the convention will be formally opened.

CRANE MAY NOT GO TO PEKING (Continued from First Page.) He admitted that he had seen Mr. Knox and that in this "preliminary conference" the matters at issue had been discussed. He was evidently deeply concerned about the situation, but refused to say a word about it.

"Will you resume your journey to China?" Mr. Crane was asked. "I am under salary," he replied, "and subject to orders."

Mr. Crane told his interviewers that upon his arrival in Washington he had received a note from John W. Foster, formerly secretary of state, and minister to China, and now special adviser to the Chinese government, and its American legation. He declined to divulge the nature of the communication, or of the conference, which, he said, he had had with Mr. Foster.

Mr. Crane said it was his desire to conclude his business so as to catch the steamer Corca, sailing from San Francisco on the 20th, upon which he has engaged passage.

At Secretary Knox's house all information regarding the conference with Mr. Crane was refused, but Mr. Hort admitted that there had been a conference.

One Similar Case. A case similar in some of its aspects to that of Minister Crane occurred about twenty years ago, when China objected to the appointment of the then United States minister to Peking, Henry W. Blaine, to the position of minister to that country. Mr. Blair, like Mr. Crane, had reached the Pacific coast on his way to the orient when his further progress was stopped by a dispatch from the secretary of state, ordering him back to Washington.

Nebraska MEDICAL SCHOOL CHANGES

Considerable Feeling Engendered by Tactics of One of Them and an Investigation May Be the Result.

(From a Staff Correspondent.) LINCOLN, Oct. 10.—(Special.)—Several changes were made necessary in the University of Nebraska Medical college by the resignation of Dean Ward, who went to the University of Illinois this summer, and for the last two months Chancellor Avery has been making plans for a reorganization of the medical department.
