TAX COLLECTIONS ARE GOOD

Receipts for Five Years Are but Little Less Than Levy.

MUCH OF BALANCE ON FLOATERS

Detail Statement Covering Period of Five Years Issued by Treasurer Furay Shows People Are Not Dodging Their Taxes.

What Treasurer Furay considers a most excellent showing of tax collections is made in a statement just prepared in his office. The statement covers the years 1904-8 inclusive, and shows that in the five year period there has been collected $3,899,831.78 of a total of $3,936,652.97 levied. The balance of uncollected personal taxes for the five years is $35,596.38, largely credited to floaters and people who have moved away before collection could be made. Some of these will yet be brought in, because it always happens that some folks drift back and the tax collector lands them sooner or later.

The uncollected item of real estate tax for 1908 looms big in the table, but over $6,000 of the $44,948.14 is already in and all but a very small percentage of the remainder will come in when the new delinquent tax advertisement issues. Much of the delinquent total on real estate for the four years preceding 1908 will also be eventually collected, through the operation of the scavenger tax law, which works like a man with a new patent that has his soul enthralled. It never stops and has proved itself to be one of the great laws of Nebraska, for treasury fattening.

The effectiveness of the administration of the tax laws is strikingly indicated by the percentage totals of collections during the five years. Of the personal taxes levied in that time, the percentage collected is 97.3, of real estate taxes 97.6, with a total percentage of collections 97.5. While the total uncollected taxes, $36,721.81, is substantial, it will be reduced eventually to almost nothing, through the unceasing operation of very competent machinery. Treasurer Furay believes the amount that will be lost of this item will be infinitesimal.

Fifth Prize Story.

MAKE money writing stories; pleasant work for you; big pay. Send for booklet; tells how.

BY Olga Jacobson, Age 11 Years, South Omaha, Neb., R. F. D. Route No. 3. Daughter of J. G. Jacobson. Seventh Grade. Teacher, Mr. Patterson. Chandler School.

HOW FLORA CAMPBELL FINISHED HER EDUCATION.

Flora Campbell, who was a girl of 18, had just finished high school. Her father had failed in business, and as there was a large family, her parents decided that she would have to go to work. She felt very disappointed over it, because she had hoped to go through college.

She had been thinking of it all morning and at dinner she told her parents that she did not know where to get work.

Her mother said: "When The Bee comes this evening you look through the want ads and maybe you can find something."

Flora said she would, and that evening when it came she looked through the want ad column until her eye caught the above ad.

"Why, here's my chance. Maybe I can earn some money so I can finish my education. I believe I will try it."

As she had always been very good in English at school she thought she could do it. She then went and told her parents and they agreed with her.

That evening she sent for the booklet and a few days later started the business. In two years she had earned enough money to quit work and go to college. She is now an English teacher in the high school and she always says that she owes her success to the little want ad in The Bee.

THE WRITER OF THIS STORY WAS AWARDED THE FIFTH PRIZE IN LAST WEEK'S CONTEST.
