

GOPHERS EXPECT HARD GAME

Nebraska's Showing Against Knox Regarded as Warning.

CRACK FULLBACK IS CRIPPLE

Pickering, Badly Injured in Ames Game, Has Wrenched Leg—Good Crowd of Rooters Coming Down.

MINNEAPOLIS, Minn., Oct. 13.—(Special.)—Although the Minnesota team was held to a comparatively low score by the pupils of the versatile Coach Williams last Saturday, the maroon and gold rooters were well contented with the outcome of the wild contest. Not within the memory of the oldest inhabitant, has such weather attended a game on Northrop field, although Minnesota battled with Stagg's maroons for the western championship on Marshall field in 1906, in just such a driving rainstorm as that of last Saturday. No one who attended the Ames game would have been greatly surprised to see a game or even an Ames victory on such a treacherous field. The going was almost impossible, the ball resembled a wet towel, and the turf was like a sough as a result of a high school game which was played in the morning.

Johnston frequently started away on runs, which on a dry field meant easy touchdowns, but instead, he slipped whenever he attempted to slide a tackler. "Duffy" McGovern had the same difficulty and several times he slipped and fell before he was fairly started. Taken all together every one interested was very well satisfied with the 1909 result. Clyde Will, the Ames coach, admitted that he liams, the Ames coach, admitted that he was tickled to death to see with less than a 40-6 count, and "Doc," the other member of the Williams family, was glad to hold the Hawkeye Aggies, without a score.

Pickering Out of Contest. In spite of the bright prospects before the Gophers, they are a pretty grim bunch. Pickering, the star full back, who looked good for an all-western position, was badly injured Saturday just as he was over the goal line for his second touchdown of the game. He was accidentally kicked by the Ames tackler and it was necessary to carry him from the field. He is now in the hospital with a badly wrenched leg and a broken ribs. Those in charge at the hospital are very reticent.

RADIUM SYSTEM CURES MANY CURES REPORTED DAILY.

Out-of-Town Patients Send Letters Daily Telling of Their Recovery Under Wonderful Radium System.

Many indeed are the cures effected through the use of the wonderful radium system. Daily letters are received from far and near from people who announce their recovery from various maladies. Some of them hitherto believed to be incurable. The office is flooded with written inquiries concerning the system, and written testimonials of the efficiency of the course of treatment.

The radium system is gaining a degree of popularity never before attained by any course of treatment and the reason is this: Radium System Cures Where Others Fail. Cures have been effected in cases where the patients had given up all hopes of ever being cured and when they awoke to the realization of the fact that they were well and strong after this course they spread the gospel of Radium System among their former fellow-sufferers and as a consequence the institute is besieged with sufferers demanding to be cured. In very few cases are they disappointed. If the specialists cannot effect a cure, the patient is given to understand as much before starting treatment. If you can be cured by any method on earth the Radium Medical and Surgical Specialists can cure you.

If you suffer from rheumatism, asthma, bronchitis, catarrh, gall-stones, epilepsy, blood and skin diseases, stomach, liver and kidney diseases and all nervous diseases or any kindred troubles you are missing a lifetime opportunity if you do not consult the specialists. Consultation and examination free.

The Radium Medical and Surgical Institute is permanently located in the Patterson block, 1623 Farnam street, Omaha.

RECORD CROWD LOOKED FOR

Foot Ball Enthusiasts Will Flock from All Directions Saturday.

OLD COLLEGE MEN WILL REUNITE

College Yells Will Fill Air and Varsity Colors Will Be Seen on All Sides When Teams Come to Omaha.

Indications all point to a record-breaking crowd when the Cornhuskers meet the Gophers at Vinton street park Saturday afternoon. One crowd of thirty from the Council Bluffs high school has secured tickets. Fifty seats have been bought for the young women of Brown hall, the alumni of the University of Michigan has secured a block of seats and numerous other organizations have set apart that day as a day of celebration when all will go to the foot ball game. Mail orders are pouring into Myers-Dillon's from a large number of smaller towns in the state. Nebraska and Minnesota colors are appearing on all sides and the red and white of Nebraska and the maroon and gold of Minnesota are flashing in downtown store windows. Huge banners on the street cars announcing the game are in red and white and several of the large stores have decorated and huge banners are prepared to fly Thursday.

When the weather began to warm up Wednesday the rush for seats increased and it now looks as though all reserved seats and seats in boxes will be sold in a short time. Manager Leach of Minnesota sends word that he expects 200 rooters to accompany the Gophers. Ames will have a large delegation and Manager Eager expects at least 2,000 from Lincoln by special train. Nearly 1,000 reserved seats have already been sold at Lincoln and hundreds of the students will stand along the side lines.

After the regimental band from the University of Nebraska leads the student procession to the Henshaw Saturday noon it will play a concert from the balcony of the Henshaw. Many of the fraternities of Lincoln will make this an occasion for a meeting of the new men with Omaha alumni and several dinner parties have already been planned for the Henshaw.

Wolcott Removes Conditions. Over 200 Cornhusker rooters cheered yesterday afternoon on the athletic field when it was announced that "Tub" Wolcott has passed his new examination and would be in the Nebraska lineup against Minnesota.

Wolcott is one of the big men on the Cornhuskers' squad, weighing 150 pounds, and his best added to the line will be a powerful factor in making Nebraska's defense strong enough to hold against the strong Minnesota eleven.

The new eligible took his place at left guard with the team in scrimmage and showed up in fine form. He will be driven hard during the rest of the week to get him drilled in the new plays.

It is likely that another ineligible will be past the faculty barriers by today. He is Ewing, last year's powerful right guard, and he took his last examination yesterday and the whole university is now waiting to learn whether he was successful with it. If he gets into the game the Cornhuskers will have a line that is, Nebraska, can check the attacks of the fast Minnesota backs.

COLD CAN'T STOP GIRL PLAYERS

Tennis Tournament of High School Danesks Continues.

Although it is cold weather for tennis, the high school girls are going right along with their tournament and the enthusiasm is so high that a good number of spectators are on hand every afternoon. Wednesday afternoon two matches were finished at Mrs. Ward Burgess' court on Twenty-second and Capitol avenues. Gertrude Weisell defeated Margaret Ewing by a score of 6-2, 6-3 in a fast match.

Laura Zimmerman defeated Louise Peterson, 6-2, 6-3.

The tournament has produced some fast players hitherto unknown among the girls. Miss Zimmerman has shown herself to be an especially good player, and it looks as if her fast and skillful serving may carry her through a winner.

Students Defeat Soldiers.

McCook, Neb., Oct. 13.—(Special Telegram.)—McCook high school beat Company M of the Nebraska National guards today in a fast game of foot ball, 12 to 0. The features of the game were the forward passes by Campbell and touchdowns by McCoak and Nelms of the high school. McCook plays Redwood high school Saturday.

Huron Wins from Indians.

HURON, S. D., Oct. 13.—(Special.)—Huron college played the Platteau Indians here Monday, defeating the redskins by a score of 16 to 6. The game was witnessed by a large crowd, although the weather was almost unbearable. The next contest will be between the Aberdeen Normal and Huron college.

WONDERFUL! IS THE STORY OF UNITED WIRELESS

THE PROGRESS HAS BEEN MADE IN GRAND STRIDES AND THE FUTURE HOLDS GREAT PROMISE

Two Short Years Ago and United Wireless Telegraph Co. Was Nothing but a Bare Idea; Today It Has Three Large Factories Running to Capacity and Transportation Companies on the Great Lakes and Both Coasts Are Hurrying Orders for Equipment.

In addition to hundreds of steamships now equipped with United Wireless and in constant operation, a hundred powerful land stations constantly sending wireless messages over land from city to city and to passengers on steamships in mid ocean, a distance of one to two thousand miles, and in many cases greater distances, the United Wireless company are now equipping many of the leading newspapers in the United States. See what some of them now using their service have to say:

Toledo Daily Blade, Aug. 31, 1909.

FIRST WIRELESS SENT FROM CITY Messages Are Now Wafted Through Space From the Toledo Station.

FIRST WIRELESS MESSAGE SENT OUT OF THIS CITY.

By United Wireless, Toledo, O., August 30, 1909. Editor The Leader, Cleveland, Ohio.

The Blade sends greeting to The Leader in this, the first wireless message sent from Toledo to Cleveland by a wireless circuit reaching Chicago to the Atlantic ocean.

King Wamb's carnival is over and a new reign begins.

Buffalo Evening News, May 17, 1909.

SPEDIER THAN WIRE SERVICE AND NOT SUBJECT TO STORMS

The EVENING NEWS Bureau, United Wireless Telegraph, is a commercial station as well as a newspaper. It is prepared to send telegrams for the public to any part of the country. The rates per message are the same as those charged by the old-style telegraph companies. The advantage, however, is with the wireless service, in that it is much speedier than the wire method, and is not subject to interruptions by storms at all times in the year.

Lightning may shatter, gales, hurricanes and tornadoes may raze, sleet and snow storms may devastate, but the United Wireless service continues amid all conditions of the atmosphere in the most perfect calm. When the weather extremes paralyze the telegraph and telephone wires, the EVENING NEWS BUREAU UNITED WIRELESS service will be doing business as serenely as upon the mildest June day.

While the EVENING NEWS BUREAU UNITED WIRELESS service enables this newspaper to supplement its regular telegraph and telephone equipment with facilities which make our news of accurate news reports by land under all conditions and stress of weather, the new department which is the subject of our foregoing shows that the EVENING NEWS will have the exclusive wireless news service from the Great Lakes to other Buffalo newspaper can get these or similar facilities, for the United Wireless Telegraph Company is the only one which has the necessary station on land and sea.

San Francisco Chronicle.

When the wires are down, and when there are no "Chronicles" will hereafter publish the news with the same accurate and prompt service that succeeds in good weather between telegraph stations.

In these days of conquest of the air and post discovery, conditions are rapidly changing, and the "Chronicle" purports to its long-established policy of keeping abreast of the times, announces today the establishment of the Chronicle Wireless Bureau, with a completely fitted station of the United Wireless Telegraph Company which is situated on the roof of the Chronicle building, where messages will be received from steamers at sea and from inland points when storms or floods interrupt the service over the wire on the earth.

With forty land stations on the Coast, and with fifty-eight steamships plying from Pacific ports already equipped with wireless instruments, the service rendered by the company has attained a degree of efficiency that makes it a factor in new gathering that cannot be neglected in ordinary times, and may be the sole means of quick communication between cities in days when weather conditions put telegraph wires out of action.

THE OMAHA OFFICE OF THE UNITED WIRELESS TELEGRAPH CO. IS 622 BEE BLDG.

—where those interested in the progress of wireless are always welcome.

COACH BENDER SAYS HIS MEN SHOULD MAKE GOOD SHOWING

LAWRENCE, Kan., Oct. 13.—(Special.)—The Haskell Indian foot ball team leaves Lawrence Thursday for an invasion of the "Big Ten" Coach Bender has all his men in good shape on the road. Last Saturday's contest against Barnes University in St. Paul was hard one, but the team was well conditioned and has already recovered. Haskell played a great game against Barnes and won the game handily, 17 to 5.

"My team is weak on offense," said Coach Bender, "but we will make a good showing. The guards weigh only 150 pounds. Of course that puts our team at a disadvantage in the line, but we will fight, tough, and the men are fine open field runners. They know a few things about the game, and we will win depending on the backs to win the game on the southern trip."

Coach Bender says that on Saturday, October 15, Haskell plays Texas State at Dallas; on Wednesday, October 20, Baylor university, at Waco, Tex.; and on Saturday, October 23, Texas A. and M. college, at College City, Tex. These three games in a week will tax the Indians, but they will have until November 1 to make the team fit for the trip. On that day the red men go to Denver to play with Denver university. That is the last hard road game of the season. After that the team will be at home on Thanksgiving day.

Coach Bender is confident that the Indians will be able to put up a good fight against Nebraska. I have high hopes of taking that game and I am sure of winning if we can hold our own in the line. We will have several things stuck up their sleeves to spring on the Nebraskans, and I expect to give my old school a run for the money."

BIG CROWD AT COURSE MEET

Weather Fine and Sport of a High Order.

UTICA, Neb., Oct. 13.—(Special Telegram.)—The second day of the coursing meet was largely attended by people from all over the state. The weather was fine and grounds fast.

RECORD CROWD LOOKED FOR

Foot Ball Enthusiasts Will Flock from All Directions Saturday.

OLD COLLEGE MEN WILL REUNITE

College Yells Will Fill Air and Varsity Colors Will Be Seen on All Sides When Teams Come to Omaha.

Indications all point to a record-breaking crowd when the Cornhuskers meet the Gophers at Vinton street park Saturday afternoon. One crowd of thirty from the Council Bluffs high school has secured tickets. Fifty seats have been bought for the young women of Brown hall, the alumni of the University of Michigan has secured a block of seats and numerous other organizations have set apart that day as a day of celebration when all will go to the foot ball game. Mail orders are pouring into Myers-Dillon's from a large number of smaller towns in the state. Nebraska and Minnesota colors are appearing on all sides and the red and white of Nebraska and the maroon and gold of Minnesota are flashing in downtown store windows. Huge banners on the street cars announcing the game are in red and white and several of the large stores have decorated and huge banners are prepared to fly Thursday.

When the weather began to warm up Wednesday the rush for seats increased and it now looks as though all reserved seats and seats in boxes will be sold in a short time. Manager Leach of Minnesota sends word that he expects 200 rooters to accompany the Gophers. Ames will have a large delegation and Manager Eager expects at least 2,000 from Lincoln by special train. Nearly 1,000 reserved seats have already been sold at Lincoln and hundreds of the students will stand along the side lines.

After the regimental band from the University of Nebraska leads the student procession to the Henshaw Saturday noon it will play a concert from the balcony of the Henshaw. Many of the fraternities of Lincoln will make this an occasion for a meeting of the new men with Omaha alumni and several dinner parties have already been planned for the Henshaw.

Wolcott Removes Conditions. Over 200 Cornhusker rooters cheered yesterday afternoon on the athletic field when it was announced that "Tub" Wolcott has passed his new examination and would be in the Nebraska lineup against Minnesota.

Wolcott is one of the big men on the Cornhuskers' squad, weighing 150 pounds, and his best added to the line will be a powerful factor in making Nebraska's defense strong enough to hold against the strong Minnesota eleven.

The new eligible took his place at left guard with the team in scrimmage and showed up in fine form. He will be driven hard during the rest of the week to get him drilled in the new plays.

It is likely that another ineligible will be past the faculty barriers by today. He is Ewing, last year's powerful right guard, and he took his last examination yesterday and the whole university is now waiting to learn whether he was successful with it. If he gets into the game the Cornhuskers will have a line that is, Nebraska, can check the attacks of the fast Minnesota backs.

COLD CAN'T STOP GIRL PLAYERS
