ALL READY FOR BIG GAME

(Continued from First Page.)

are also willing to bet that the Gophers will win by at least fifteen points.

Minnesota's showing in the other games of the year has led her supporters to expect a big score against Nebraska and it is because of this that they have plenty of money to say that the Cornhuskers will be trimmed by a wide margin. None of their money was covered yesterday, but it is believed, with the arrival of the Lincoln crowd today, that some of it will be taken at the odds offered.

Some of the Past Clashes.

The game today will make the ninth time Nebraska and Minnesota have met in the last ten years. In the eight games already played the Cornhuskers have been successful in getting away with a victory but once. Last year they succeeded in playing the Minnesota eleven to a tie.

In but one year, 1905, since the two teams have been playing each other have the Cornhuskers been easy prey for the men from the north. In that year the Cornhuskers were just a little over-confident and went to pieces.

This year there is no over-confidence—not even confidence—and it is when Nebraska is in such a condition of mind that it usually plays the hardest ball. To many of the Nebraska rooters it would not be a surprise if their team came up with one of the gamiest fights in the history of football relations between the two schools.

The Lincoln contingent, fully 1,000 strong, will arrive in Omaha at 10 o'clock this morning over the Burlington road. There will be two special trains. The trains are scheduled to leave Lincoln at 8:30 and 8:45 o'clock.

On the first train will be the team and band with many of the rooters. At the depot here the rooters and team will form into a parade and march to the Henshaw hotel, where a demonstration will be made. The route of the parade will be: From the Burlington depot down Tenth street to Harney and then along Harney to Fourteenth street. At Fourteenth the parade will turn north to Farnam and after entering on Farnam will march west to the Hen-

shaw hotel. Following will be the lineup:

NEBRASKA.	MINNESOTA.
Johnson, 172.....L. E. R. E.Rademacher, 151	Hiers, 147.....T. T.McCreary, 171
Waters, 120.....L. G.C. C.Parsons, 150	Shook, 130.....C. C.Walker, 150
Temple, 180.....R. T. L. T.Walker, 150	Maier, 160.....L. E. L. E.Festinger, 123
Belzer, 135.....L. E. R. H.Stevens, 121	Belzer, 135.....L. E. R. H.Stevens, 121
Frisk, 135.....L. E. R. H.Stevens, 121	Frisk, 135.....L. E. R. H.Stevens, 121

Total weight of team: Nebraska, 1,530; Minnesota, 1,484. Total weight of line, Nebraska, 1,775; Minnesota, 1,710. Average weight of line: Nebraska, 153; Minnesota, 151. Average weight of backfield: Nebraska, 151; Minnesota, 150.

Guests of the Game.

Johnson, McGovern and Stevens of the Minnesota eleven have played against Chicago and Carlisle and are thoroughly experienced.

Practically all the best seats on sale at Lincoln were gone Friday and a choice bunch was reserved for Omaha, these now being on sale here.

The new bleachers were all in place at the Vinton street grounds yesterday and were inspected yesterday afternoon. They will be ready to receive the Gophers of the finest in the west.

A squad of cadets and the University police will head the parade. The football eleven will follow in automobiles. The students themselves will march behind the parade.

The total weight of Minnesota is 1,584 and that of Nebraska is 1,580. The Cornhusker line is heavier than Minnesota's, weighing 1,275 to the Gophers' 1,245. The two teams that meet at Vinton street park this afternoon are nearly equal in weight.

GOPIERS START FOR OMAHA

Big Crowd of Students at Depot to Give Them Sendoff.

MINNEAPOLIS, Oct. 15.—(Special Telegram.)—With the cheering of a thousand loyal rooters to encourage them for the big game tomorrow the Minnesota team, consisting of thirty-two players, with the coaches, trainers, managers, messengers, a total of thirty-five, left over the Northwestern road at 7:30 tonight. The Union station was filled to its fullest capacity long before train time, and the band, although refused the privilege of accompanying the team, were allowed to give the Gopher huskies a royal sendoff.

On account of the refusal of the railroad to make reasonable rates to the game, not more than a dozen students made the journey. Bill Howes was among the number. A representative of the Athletic Board of Control. It is expected that he will be heard from in Omaha.

Just before the train pulled out short speeches were made by Doc Williams, Captain McGovern and other members of the party. "We are going down to win this game," said Williams, "and we're going to do our best. I will make no predictions regarding the score."

Captain McGovern's parting words were: "We're going to give them all we've got. We are in fairly good condition for tomorrow's game, even though pickingering is out of the lineup. Just to win is all we want—we don't care what the score is."

Ames gave, who was badly injured in the last game, got into the hospital yesterday and left with the team. He will be unable to get into the game and will have to watch it from the sidelines. Smith will take his place at fullback.

were people on this side of the line that had the same views that they had with reference to becoming a state, but that they preferred to have each community work out its own salvation.

"Now, my friends, I might just as well make the announcement now, so as to relieve any doubt on the subject, that I was elected on a platform that declared in favor of the admission of New Mexico and Arizona as separate states, and that so far as I can properly exercise any influence as the chief executive, for, bear in mind, I am not the legislator, I expect to exercise that influence to carry out that promise of the platform on which I was elected.

"You have to draft a constitution, and that is going to affect the character of your state for years to come. And I want that you shall have time and deliberation to make a good constitution, and not harness yourselves up with a lot of restrictions that will really interfere with the growth of your state.

"Don't put into your constitution a provision as to the length of the term sheets to be put in a hotel. It may be that they ought to be limited; it may be that they ought to be made of a certain size. I sympathize with that feeling myself. But the constitution is not the proper place to put it. You want to trust your legislature and you ought to follow the model of the constitution of some of the older states which have also modeled after the constitution of the United States.

Chief Wikke of the secret service bureau has assigned many detectives to learn the identity of the men selected to kill the two presidents.

"For the last two weeks, it was learned today, meetings have been held by the anarchist groups in every large city of the country, but the assassination plans, according to government agents, were completed in this city.

"Four of Chief Wikke's men disguised as laborers attended a socialist meeting here last night, at which the execution of Prof. Ferrer in Spain was condemned."

5 changes to this "Imperial" Overcoat

--the "Sampeck Imperial" overcoat has a "quintuple" collar—one collar that may be changed into any one of five effects. --folds close four different ways for wear on "blustery" days, and looks like any other collar when arranged for ordinary wear.

--the "Imperial" isn't a "freak"—quite to the contrary it's the most sensible young man's garment brought out in a century. Aside from the collar feature, each of these young men's garments is superbly styled—made up from some tony cheviot or fancy fringe overcoat—as graceful an overcoat as ever turned cold away from the back of a young fellow wearing "50s to 32s."

We tell the whole sartorial story when we state that the "Sampeck" people are responsible for the idea, the goods, the style.

The advantage in weight, however, is more than offset by the experience of the Minnesota men. Only three of Nebraska's men are old at the game, while practically the whole of the Gophers' service is made up of youngsters. This makes the Minnesota line a much harder proposition than it otherwise would be and gives it an advantage over the Cornhusker weight.
