#### "FADS"

You hear a great deal in these days about "NewThought" "Brain Culture" and other interesting studies. It is proper to improve one's mental attainments, but it is equally proper and desirable to improve the physical attractions. No feature of PHYSICAL beauty is more easily cultivated than the hair. "Hair Culture" is a fad with women of society and the stage, not only because it is a pleasure, but also because it consumes so little time and effort and is inexpensive. If you want to make your hair beautiful and KEEP it lustrous and luxuriant, brush it carefully night and morning, shampoo it once or twice a month with a pure soap and apply two or three times a week a little of ED. PINAUD'S HAIR TONIC (Eau de Quinine). Massage it into the scalp with the finger tips before retiring and do up the hair in a loose braid.
